

Federal Highway Administration  
**Every Day Counts**  
Innovation Initiative

**State Transportation Innovation Council  
Team Charter  
August 18, 2014**

Objective of State Transportation Innovation Council:

As a representative body of select transportation stakeholders in South Carolina, serve as a shared experience forum for initiating and overseeing the rapid deployment into routine practice innovative strategies to accelerate transportation project delivery and technologies proven to enhance project quality and effectiveness.

STIC Membership:

- Secretary of Transportation (co-team leader), Janet P. Oakley
- Director of Engineering, Christy Hall
- Chief Engineer for Operations, Leland Colvin
- Chief Engineer for Field Operations, Thad Brunson
- Chief Engineer for Location & Design, Ron Patton
- Director of Construction, Todd Steagall
- FHWA Division Administrator (co-team leader), Bob Lee
- FHWA Assistant Division Administrator, Bob Thomas
- FHWA Director of Operations, Steve Ikerd
- FHWA EDC Coordinator, Jim Garling
- Associated General Contractors of South Carolina, Marty McKee
- Associated General Contractors of South Carolina, Scott Fant
- American Council of Engineering Companies of South Carolina, Jim O'Connor
- South Carolina Local Transportation Assistance Program (LTAP), Jim Burati
- South Carolina Department of Public Safety, Phil Riley
- U.S. Army Corps of Engineers, Travis Hughes
- U.S. Army Corps of Engineers, Stephen Brumagin
- South Carolina Metropolitan Planning Organization Advisory Council, Ron Mitchum
- City of Charleston, South Carolina, Laura Cabiness
- City of Greenville Director of Parks and Recreation, Dana Souza
- Sales and Operation Manager of Universal Trade Solutions – Carson Drake

Background:

The initial challenge of the Every Day Counts (EDC) initiative was to accelerate the deployment of ten (10) proven but not widely implemented innovative strategies and five (5) technologies that are aimed at shortening project delivery and enhancing project performance. EDC is about pursuing better, faster, and smarter ways of doing business. Beyond the deployment of the initial 10 strategies and 5 technologies, the STIC will serve as forum for considering the rapid deployment of other innovative strategies and technologies in the future.

Team Member Responsibilities:

Provide input on the initiatives to be pursued, appoint agency and industry representatives to the implementation teams, and establish performance goals to measure success. Render STIC decisions by the consensus of all participating members subject to the concurrence of the South Carolina DOT and FHWA co-team leaders.

Approach:

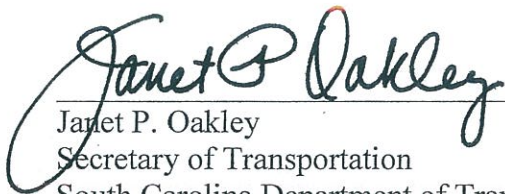

The STIC will meet on a semi-annually at SCDOT Headquarters located in Columbia, South Carolina.

Resources:

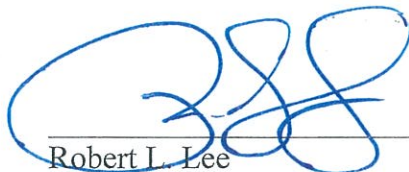

Staff support for the STIC will be provided by SCDOT.

Time Frames:

The STIC will be an on-going team and will only be disbanded upon agreement of the two co-team leaders.
