

What would they do without you?

- Safety belts – the most effective safety devices in vehicles – are estimated to save over 13,000 lives each year.
- 53 percent of commercial drivers killed in truck crashes (in 2002) were not wearing safety belts.
- One in five truck drivers killed in crashes were ejected from the vehicle.

- Staying belted helps you maintain control of the vehicle when it is most needed.
- The emotional and financial costs of these fatalities to families, employers and society are devastating.
