MEMORANDUM FOR: Gary E Mead, Acting Director
Office of Detention and Removals

FROM:

[REDACTED] b6,b7c
Reviewer-In-Charge
Creative Corrections

SUBJECT: Atlanta City Detention Center Annual Review

Creative Corrections conducted an Annual Detention Review (ADR) of the Atlanta City Detention Center, located in Atlanta, Georgia, on May 13-15, 2008. The facility is operated by the City of Atlanta, Georgia. The City has an Intergovernmental Services Agreement for housing federal detainees dated May 1, 1991. As noted on the attached documents, my team of Subject Matter Experts included [REDACTED] b6,b7c Security; [REDACTED] b6, Health Services; [REDACTED] b6,b7c Safety; and [REDACTED] b6 Food Services.

A closeout meeting was conducted on May 15, 2008, with Chief [REDACTED] b6,b7c; Assistant Chief [REDACTED] b6,b7c Major [REDACTED] b6,b7c Immigration Enforcement Agent [REDACTED] b6,b7c, and several facility supervisory staff. The closeout included a discussion of all concerns and recommendations noted during this review.

Type of Review:

This review is a scheduled Detention Standard Review to determine general compliance with established ICE National Detention Standards for facilities used for over 72 hours.

Review Summary:

The Atlanta City Detention Center is not accredited by American Correctional Association (ACA), National Commission on Correctional Health Care (NCCHC), or the Joint Commission on Accreditation of Healthcare Organizations (JCAHO).

RIC Issues and Concerns

Emergency Plans:

Facility policies should be amended to emphasize the protection of detainees from disease, property damage, or harassment from other detainees. The Emergency Plans should also address confidentiality, accountability, annual review procedures/schedule and revisions. A comprehensive general section with procedures applicable to most emergency situations should accompany the contingency plans.

Locations of shut-off valves and switches for all utilities (water, gas, electric) should be included in the Emergency Plans. Written procedures should also cover work/food strikes, internal searches, detainee transportation system plans, and civil disturbances.

Environmental Health and Safety:

Fire drills are currently being conducted and documented quarterly. It is recommended the fire drills be conducted and documented monthly. These drills should be conducted during every shift at least once per quarter.

Security Inspections:

The facility does not have a comprehensive security inspection policy. Several policies address inspections, but are fragmented and do not address guidelines for checking all security features with procedures for reporting weak spots, recurring problems, areas needing improvement, failure to take corrective action, or inconsistencies. The facility does not have written procedures in place to compel searches of storage/supply rooms, plumbing fixtures, accesses, and drains. It is recommended the policies be amended to address these concerns.

Use of Force:

Written procedures should direct a health professional be consulted as part of the confrontation avoidance procedures, and that medication not be used for restraint purposes unless authorized by the Medical Department. The use of protective gear when restraining detainees with open cuts or wounds, in order to prevent injury or exposure to communicable disease, should be reflected in written procedures. Standard procedures associated with using four-point restraints should also be defined in written policy.

Recommended Rating and Justification

It is the Reviewer-in-Charge (RIC) recommendation that the facility receive a rating of "Good".

RIC Assurance Statement

All findings of this review have been documented on the Detention Review Worksheet and are supported by the written documentation contained in the review file.

COMMENTS: In September 2007, a 41 year old female inmate (not ICE detainee) collapsed in her cell. CPR was initiated and she was transferred to Grady Medical Center where she was pronounced dead. Autopsy revealed the cause of death "Natural Causes". The mortality review concluded no further action was required.

The Atlanta City Detention Center is in the process of seeking ACA Accreditation and it is evident that a lot of effort has exerted towards meeting this goal. In recognition of the improvements made the reviewing team recommends a rating of "Good".

COMPONENTS	Y	N	NA	REMARKS
The facility has a system for classifying detainees. In CDFs and IGSA's, an Objective Classification System or similar is used.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Facility uses a 3-tiered system described in SOP-06-87.
The facility classification system includes: <ul style="list-style-type: none"> • Classifying detainees upon arrival; • Separating from the general population those individuals who cannot be classified upon arrival; and • The first-line supervisor or designated classification specialist reviewing every classification decision. 	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	These requirements are all included in SOP-06-87.
The intake/processing officer reviews work-folders, A-files, etc., to identify and classify each new arrival.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	SOP-06-87, section 8.4.
Staff uses only information that is factual, and reliable to determine classification assignments. Opinions and unsubstantiated/ unconfirmed reports may be filed but are not used to score detainees classifications.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Housing assignments are based on classification-level.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
A detainee's classification-level does not affect his/her recreation opportunities. Detainees recreate with persons of similar classification designations.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Detainee work assignments are based upon classification designations.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Must be no higher than minimum plus must meet all medical requirements.
The classification process includes reassessment/reclassification. At IGSA's, detainees may request reassessment 60 days after arrival.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Initial classification is reassessed after 72 hours.
Procedures exist for a detainee to appeal their classification assignment. Only a designated supervisor or classification specialist has the authority to reduce a classification-level on appeal.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	There is a classification appeal form.
Classification appeals are resolved within five business days and detainees are notified of the outcome within 10 business days.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	SOP-06-87, section 8.12.1.
Classification designations may be appealed to a higher authority, such as the Warden or equivalent.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Highest level of appeal is the Classification Supervisor.
The Detainee Handbook or equivalent for IGSA's explains the classification levels, with the conditions and restrictions applicable to each.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	The Inmate Handbook Amendment has a brief explanation.
