**125th FIGHTER WING**  
**COMMANDER'S ENVIRONMENTAL COMMITMENT STATEMENT**

1. The 125th Fighter Wing (125 FW) operates F-15 Eagle air dominant fighters assigned to the 1st Air Force, and performs both homeland defense and expeditionary combat missions. The 125 FW maintains continuous F-15 aerospace control alert at Homestead ARB, Florida, and is a force provider to Air Combat Command in support of the Air Expeditionary Force. The 125 FW also supports state and local missions under the command of the Adjutant General of Florida and provides trained and equipped personnel to protect life and property, and to preserve peace, order and public safety.
2. The purpose of this Environmental Commitment Statement is to supplement Air Force Policy Directive (AFPD) 90-8 *Environment, Safety & Occupational Health and Risk Management* as the overarching ANG and AF EMS policy and communicate to our Airmen, civilian employees and contractors their individual responsibility to support our commitment to implement the AFPD.
3. Environmental protection is a high priority for management, as well as the responsibility of every Airman, civilian and contractor. Our vision is to reduce or eliminate waste streams through pollution prevention and continual improvement processes to our impacts on manmade and natural resources. Additionally, the 125 FW will maintain compliance with all applicable environmental requirements to include federal, state and local regulations, as well as other requirements such as Executive Orders and Air Force Instructions. Our basic principles are: Safety, Security, Health, and Environmental compliance in everything we do.
4. Every Airman, civilian and contractor is responsible for environmental protection in the same manner as safety, health and installation security awareness. The 125 FW will establish and maintain environmental objectives and targets relative to its significant environmental aspects and will monitor progress toward achieving our objectives.
5. The 125 FW is strongly committed to continued excellence, leadership and stewardship in the protection of the environment.
