**REGION 8 BULLETIN NO: 2013-07**

Subject: Federal Funding Accountability and Transparency Act (FFATA)

Program Area:

Date: February 19, 2013

Dear Grantees:

The Federal Funding Accountability and Transparency Act (FFATA), beginning on 10/1/2010, requires grantees that received grants from FTA and passed through funds to sub-recipients to report information on their sub-awards via <https://www.ftrs.gov/>. This information is then made available to the public on <http://www.usaspending.gov/>. Reports need to be posted by the end of the month after the month in which the grant recipient passes through funds to sub-recipients.

FTA has recently identified a number of State Departments of Transportation that had received one or more FTA grants in FY 2012 but whose sub-award reports were not posted to <http://www.usaspending.gov/> as of 12/31/12. All states in Region 8 need to ensure that their FFATA reports are up to date.

Please remember that recipients of JARC and New Freedom grants in FY 2012 also need to submit sub-award reports. While not every JARC or New Freedom grantee passes through funds to sub-recipients, grantees in these programs are more likely to do so.

Please contact Jennifer Stewart in the Region 8 office with any questions you may have at 720-963-3317.

Sincerely,

Linda M. Gehrke  
Regional Administrator
