

Transition Support

The Military understands that You:

- Have to Move your children an average of every 2.9 years
- Watch your children attend up to 9 different schools by graduation
- Are reluctant to disrupt them in their Senior year
- Are Concerns about the quality of schools at many locations
- Sometimes decide to “separate geographically” to keep kids in school

Based on that understanding, The School Liaison Officer was created.

Our goal is to create a world-wide system that creates a “smooth take-off” and “soft landing” for you when you relocate.

We can Help:

- Prepare you for your move by informing you of documents you will need to take and connecting you with the “SLO” at your gaining station
- Preparing to receive you and helping you through the process of enrolling and transferring to your new school system

Our Goal is to create a “Level playing field” for your transitioning military-connected child. We will never ask for the bar or standards to be lowered, just equal.

I look forward to assisting you in any way possible!
