

Reserve Component Health Risk Assessment (RCHRA)

The RCHRA form will be emailed to all deferred and FAP applicants. It is a self-reporting of your current health and does not need to be endorsed by a medical provider. Once completed, it must be submitted using the SAFE system by AMRDEC (see below) no later than **15 September 2016** to allow for proper coordination and approval. In some instances, AFPC/DPNP Medical Standards or HQ AETC/SG may need additional medical documentation in order to make a final determination. Submitting this documentation in a timely manner is important. Medical clearance is a requirement before your application can be seen by the Board so please plan accordingly, as there are no exceptions to this policy.

To submit the RCHRA using the SAFE system, please go to the following web link: <https://safe.amrdec.army.mil/SAFE/Welcome.aspx> and review the Getting Started Guide button at the top of the page. You will be a NON-CAC USER/Guest. Please use the following email address when sending documents through the SAFE system, AFPC.DP2NP.MedStandards@us.af.mil. This will allow your document with Personally Identifiable Information (PII)/Personal Health Information (PHI) to be encrypted and safely transmitted to our office.
