URBAN TRAINING CENTER (UTC)
ZONE D

RANGE DESCRIPTION

URBAN TRAINING CENTER (UTC) is comprised of eight (8) containerized structures, one (1) After Action Report (AAR) Classroom and a power generator.

It is an active, non-kinetic, non live-fire facility located at Grid 7825073800. It is accessible from Tokyo Road and MCB-5.

Primary Uses: Urban, non-kinetic, Non live-fire training. Military Information Support Operations (MISO) training.

Alternate uses: Communications training.

PRIMARY DIRECTION OF FIRE: N/A

URBAN TRAINING CENTER (UTC) ZONE D

WEAPONS ACCOMMODATED
-None

AMMUNITION AUTHORIZED
-None

TARGETS/SIMULATORS/DEVICES
-None

PRIMARY DIRECTION OF FIRE.
-None

RANGE USE RESTRICTIONS/COMMENTS
1. No live fire, blanks or SESAMS allowed.

2. Primary type of training conducted in Zone D is Military Information Support Operations (MISO) training.

3. No training will be conducted that will damage atmospheric props.

4. Fires are not allowed within any structures.

5. Police of all trash must be performed prior to the post-inspection. All doors and windows closed.

6. No foreign objects will be left in windows after training is complete. Sandbags (if any), will be removed and stacked at designated areas prior to unit departure.

7. Any communication wire or any other obstacles will be removed and properly secured prior to the unit being allowed to check out of the area.

8. Units that do not occupy their range within two hours of their scheduled occupy time will lose the use of that range for that day.

9. Units that have requested contractor support (i.e., automated targets, PITS targets, battlefield effects simulators, etc.) that are not present on the specified range within 1 hour of the requested time and have not contacted RMB/TSCQ will forfeit all contracted support for the day.

10. Units that have occupied a range with approved contractor support (i.e., automated targets, PITS targets, battlefield effects simulators, etc.) and that have not begun to use that support within 2 hours of the requested hour of operation will forfeit all contracted support for the day.

11. Units that are training with contractor support (i.e., automated targets, PITS targets, battlefield effects simulators, etc.) that place themselves voluntary into check fire for 2 hours during the approved support operational hours will forfeit all support for the day.

NOTE: Units that encounter situations where contractor support (i.e., automated targets, PITS targets, battlefield effects simulators, etc.) is delayed or interrupted by circumstances beyond the control of the requesting unit (i.e., RMB directed check fire, ASP support, MEDEVAC, etc.) must contact RMB/TSCQ in order to arrange continued support within the scope of the contract and available assets.

LASERS AUTHORIZED. None

**FACILITIES (Number of Each)**
Towers: 0
Ammo Breakdown: 0
Parking: Limited
Description of Other Structures: AAR/Generator

UTILITIES AVAILABLE
Electricity: AAR Classroom
Lights: AAR Classroom
Water System: No

URBAN TRAINING CENTER (UTC) ZONE D

COMMUNICATION REQUIREMENTS:

1. A radio check is required immediately upon occupying any portion of the RTA, every 30 minutes in a live fire status and every 3 hours in a non-live fire status.

2. The Range Control Facility (RCF) Fire Desk Net Control call sign is "Range Control". Your call sign is "Range XX" (name of range, training area or facility unit is occupying).

3. The primary RCF Fire Desk Net Control frequencies are: ELMR talk group "RC Safety" (ground) and 323.7 AM UHF (air).

4. The secondary RCF Fire Desk Net Control is telephone, numbers: 703-784-5321 or 5322.

5. OIC/RSO will monitor the RCF primary and secondary Safety Nets at all times. Instant communication is required.

6. Any unit with organic ELMR radios will have their ELMR radios programed with the "RC Safety" talk group and use those radios as their primary means of communication within the RTA.

7. Units without organic ELMR assets will be issued ELMR radios from RMB upon check-in.

8. Approved Non-ELMR radios are only authorized for internal communication (ground).

9. If the RCF cannot reach a unit within the RTA via primary communication, the unit will be contacted via the secondary means of communication.

10. Upon loss of primary communication the OIC/RSO will initiate a "check fire"/cease training status and will contact the RCF via secondary communication. This communication will be maintained while primary communication is being restored. Units may only resume firing/training once primary communication has been re-established and clearance is granted by the RCF.

INJURY CLASSIFICATIONS:

Injuries are classified into the following categories in order to aid in casualty evacuation from the RTA.

1. ROUTINE. Routine injuries are those injuries that are not threatening to life, limb or eyesight; and conditions or illnesses treatable by medication or procedures available at the base medical facilities.

2. PRIORITY. Priority injuries are those injuries that require immediate medical attention but are not threatening to life, limb, or eyesight if treated promptly.

3. URGENT. Urgent injuries are severe injuries that are threatening to life, limb, or eyesight and require immediate medical attention.

4. MASS CASUALTY. A mass casualty is a series of injuries with multiple priority and urgent medical patients.

MEDICAL EVACUATION (MEDEVAC) PROCEDURES:

1. Injury occurs.
2. Facility immediately ceases training.
3. Medical support evaluates/treats injured personnel.

4. Facility OIC/RSO notifies the RCF of the injury, is the victim conscious/unconscious and what type of MEDEVAC transportation is requested (ground/air).
5. The OIC/RSO must maintain constant radio contact with Range Control and awaits further instructions.

*Minor injuries and illnesses not requiring medical services need not be reported to the RCF but should be reported in unit training logs.
