

## **Seatbelt Survey**

### **Program Summary:**

The Drivers Training Branch is responsible to the Base Commander for conducting and oversight of Seat Belt Surveys. The Seat Belt surveys help to ensure that the mandatory use of seatbelts on station is being followed and provides the Base Commander with accurate up to date statistics on the use of seatbelts.

The surveys are conducted 4 times a month at random locations at random times. The surveys count both Civilian, Commercially owned vehicles, and also Government owned vehicles.

The Drivers Training Branch coordinates with PMO and the Road Masters section while conducting the surveys to help enforce the seatbelt regulation by issuing on the spot traffic citations to motorist that have chosen to not wear a seatbelt.

### **Training Requirements:**

The Drivers Training Branch has many different types of seatbelt training options available to all units and departments aboard Quantico. These include Drivers Improvement training, Child Seat Safety, and the Convincer, a frontal collision simulator.
