

Motor Vehicle Licensing

Program Summary:

The Drivers Training branch is responsible to the Base Commander for the training and the licensing of all Commercial motor vehicle operators on MCB Quantico.

The Drivers Training staff works closely with all units, departments and services to provide training and classroom instruction as well as issue licenses that are in accordance with all current DOD, Navy, and Marine Corps standards.

Training Requirements:

There are many licensing requirements for Commercial Motor Vehicles. The Drivers Training Branch staff has a vast knowledge of each, and are able to answer any questions about most commercial vehicles.

With a choice of over 8 different classes available, training and licensing can cover vehicles of 11/4ton design up to and including Tractor Trailers. There are classes available such as the AAA Drivers Improvement Course as well as Remedial Drivers Improvement Course.

Having 2 classrooms to choose from, (one with a capacity of over 30 students and one that has a capacity of 12 students,) training can reach a large number of personnel or be tailored for a better instructor to student ratio.

All road test are conducted on Fridays, and all license transaction are performed on Tuesdays and Thursdays. Special arrangements may be available on a case-by-case basis simply by calling ahead and talking to any member of the staff.
