When presented with an issue, IGQ will do one of five things:

Investigate - IG investigations are administrative in nature--they are fact finding rather than a judicial proceeding.

Refer - When the complaint is a valid issue, but not an IG issue. The agency, or your leadership, that the complaint is referred to must inform the IG what they did to address your issue.

Assist - IG assistance is the simple process of making phone calls, asking questions, or soliciting helpful information from appropriate offices or agencies or putting complainants in touch with people, offices, or agencies who can address their concerns.

Dismiss - If a Complaint Analysis discloses no recognizable wrong or violation of law, regulation, or policy.

Transfer - A complaint is transferred when a complaint analysis determines an Air Force Inspector General other than the one receiving the complaint should resolve it.
