IS-100.SC Introduction to the Incident Command System, I-100, for Schools – NOW ONLINE

A web-based IS-100.SC *Introduction to the Incident Command System, I-100, for Schools* course is now available online. This NIMS-compliant course can be accessed through the Emergency Management Institute (EMI) Independent Study website at:

<http://training.fema.gov/EMIWeb/IS/IS100SC.asp>. The course was developed in collaboration with the U.S. Department of Education.

Course Objectives: At the completion of the course, participants should be familiar with:

- ICS applications in school-based incidents
- ICS organizational principles and elements
- ICS positions and responsibilities
- ICS facilities and functions
- ICS planning

This course is a comprehensive introduction to Incident Command System (ICS) tailored for school situations. It will familiarize participants with how the Incident Command System can be applied in school-based incidents and how school personnel can interface with community response personnel during a multi-jurisdiction, multi-agency, multi-discipline incident.

The course is designed primarily for kindergarten through high school personnel who have preparedness, response, recovery and mitigation roles and responsibilities for school emergencies.

If you are interested in joining the Incident Management Systems Division, National Integration Center listserv to receive NIMS Alerts as they are posted, please send your email request to FEMA-NIMS@dhs.gov.
