

COMMANDING OFFICER'S ENVIRONMENTAL POLICY STATEMENT

It is the policy of the Marine Corps Air Station Beaufort to protect present and future military mission readiness and capabilities through effective and efficient environment management.

Marine Corps Air Station Beaufort's Environmental Policy is committed to:

- Compliance with all environmental legislation, regulations, and policy;
- Integrating pollution prevention principles into management practices;
- Conserving both our natural and cultural resources as vital Marine Corps assets;
- Maintaining and enhancing the biodiversity of our ecosystem through integrated natural resources management;
- Promoting the remediation of contamination resulting from past Department of Defense activities;
- Minimizing risks to mission;
- Reviewing all proposed activities for potential environmental impact in accordance with the National Environmental Policy Act;
- Minimizing our impact on the environment through environmental quality inspections, environmental education, and management of hazardous materials;
- Setting documented objectives and targets to promote continual improvement of environmental programs;
- Communicating the environmental policy to the installation personnel and making it available to the public.

"Marine Corps Air Station Beaufort is committed to environmental protection, regulatory compliance, continual environmental improvement, and pollution prevention."
