

Appendix A  
Site Photographs

Facing east, this is a view of the public driveway that enters the project site from the west. A parking area is visible in the background.

Facing east, this is a view of the paved jogging trail located in the southern portion of the project site. The areas surround the trail include mowed and maintained turf with scattered trees.

Facing east, this is a view of HCFCD E135-00-00 that is offsite and runs along the southern property boundary of the project site. The Rio Grande Drive Bridge over the drainage is visible in the distance.

Facing north, this is a view of the eastern portion of the project site adjacent to Rio Grande Drive. A residential subdivision is located to the east. A light pole and fire hydrant are visible in the background to the west of Rio Grande Drive.

Facing northwest, this is a view of the bottom of the detention basin located on the project site. The detention basin bottom is vegetated with herbaceous vegetation. A residential subdivision is visible to the north of the site and an electrical transmission easement is visible to the west of the site.

Facing west, this is a view of northern portion of the project site. The detention basin is visible to the south. A residential subdivision is visible to the north of the site and an electrical transmission easement is visible to the west of the site.

Facing south, this is a view of western portion of the project site. An electrical transmission easement is visible to the west of the site. The on-site detention basin is visible to the east.

Facing east, this is a view of water main stub that is located under western side of the bridge that connects the parking area and driveway on the project site to the parking area and driveway on the Jersey Meadow Golf Course property. An old relict water line is located underground and enters onto the subject site.

Facing north, this is a view of the jogging trail crossing the ditch where stormwater runoff exits the detention basin in the southeastern portion of the project site.

Facing southeast, this is a view of the bottom of the detention basin on the project site.
