SECTION 3 - ECONOMIC FACTORS

- This section contains Department of Defense pay and inflation rate experience and assumptions for FY 2015 through FY 2021.
- A table reflecting military and civilian pay raises since 1945 is included.
- DON outlay deflators, by category, for FY 1970 through FY 2021 and DON TOA deflators, by appropriation, for FY 1970 through FY 2021 are provided.
- Explanation of the use of deflators (inflation and deflation of dollar amounts):
 - To convert dollars from any year to FY 2017 dollars: Find the deflator for the year from which you are converting the dollars. Then divide that amount by that number. The result is the dollar amount in FY 2017 dollars.
 - To convert FY 2017 dollars to any other year: Find the deflator for the year to which you are converting the dollars. Then multiply that year's dollar amount by the deflator. The result is the dollar amount in the new year's dollars.
 - To convert from any year to any year: First convert the dollars to FY 2017 dollars, as described above. Then convert these FY 2017 dollars to the desired year, as described above.
 - Be sure to select the proper deflator.
 - For TOA, please note that while these deflators are easy to use, they may be somewhat inaccurate with regards to all non-procurement appropriations if not applied correctly due to these appropriations containing funds for either pay or fuel, or both - areas in which historical inflation swings have been particularly pronounced. It should also be recognized that retired pay was not budgeted in the military personnel appropriations before FY 1985. However, for most budget purposes, the deflators shown in this table will be adequate.
 - For outlays, use the DON outlay deflators.
