OMB Circular No. A-87 applies to this program.

An informal conference with the Bureau agency representatives is strongly recommended to determine the application and award procedures to be followed. An environmental impact statement is required for this program. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Award Procedure:

Although eligible applicants do not compete for awards, an award to a particular entity is not mandatory because requirements related to the scope of the project work, project cost, and other compliance measurements must be agreed to before funding is provided to the recipient. For non-ARRA funded projects, projects representing the greatest needs at schools and related facilities are prioritized as part of the process of obtaining Congressional appropriations of fund the projects. Funds must be appropriated before any project awards can be made, and a change in priorities may require Congressional consultation and, for some projects above a certain dollar amount, Congressional approval of the reprogramming of funding to a different project. For ARRA funded projects, a similar prioritization of projects representing greatest needs was implemented, resulting in the identification of projects eligible to receive ARRA funds, followed by communication with prospective recipients of the available ARRA funds for the identified projects. For both ARRA funded and non-ARRA funded projects, the award of a self-determination contract is made in accordance with the procedures contained in 25 CFR Part 900 "Contracts under Indian Self-Determination and Education Assistance Act," and the award of a financial assistance grant amendment to the existing education grant from the Bureau of Indian Education to the Tribe or Tribal Organization is made in accordance with the Tribally Controlled Schools Act of 1988, as amended, 25 U.S.C. 2501 et seq. The requirements in 43 CFR Part 12, Subpart C "Uniform Administrative Requirements for Grants and Cooperative Agreements to State

and Local Governments" apply to financial assistance awards. ARRA projects also are subject to additional requirements related to performance, funding, and compliance through implementation of ARRA in the areas of transparency and reporting, oversight, risk accountability, accelerated timeframes and other statutory objectives. Projects are prioritized before the funds are appropriated. Funds must be appropriated before the award can be made. The award is made in accordance with the procedures contained in 25 CFR Part 900 "Contracts under the Indian Self-Determination and Education Assistance Act," 43 CFR Part 12, Subpart C "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments," or the Tribally Controlled Schools Act of 1988, as amended, 25 U.S.C. 2501 et seq., as applicable.

Appeals:

An unsuccessful applicant may request an informal conference with the deciding official. Full appeal procedures are found in 25 CFR Part 900.

Renewals:

For non-ARRA funded projects, depending upon the size and complexity of the overall construction, improvement or repair project it may take several increments of funding assistance to complete the entire projects; often an initial award is issued as a new contract/grant amendment with second and subsequent funding increments issued as renewals to existing contracts/grants. ARRA funds are for one-time specific projects that must be started and completed expeditiously.

Formula and Matching Requirements:

This program has no statutory formula. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Range and Average of Financial Assistance:

Non-ARRA Replacement School Construction: The amount of financial assistance can range from approximately \$6 million to \$25 million depending on the size of the school, both grade level and student enrollment, the program requirements, and the location. For the higher amounts, funding may be incremental over 2, 3, or even 5 years. Because of the limited number of schools that have received funding in the last few years and the increasing costs for construction, there is no way to determine a true representative "average" of financial assistance for this non-ARRA program. Facilities Improvement and Repair: The amount of financial assistance can range significantly from a few thousand dollars to approximately \$7 million. There are several categories of projects that are included under Facilities Improvement and Repair, such as, Emergency, Roofing, Replacement/Repair, and Portable Classrooms. Past completed projects were completed to improve stream bank and channel conditions and projects to analyze movement and management of groundwater in areas threatened by groundwater over-drought and ground water contamination. Fiscal Year 2010: Monitoring effects of oil and gas surface development on fish habitat in northern climates, determining selenium apportionment in soils in wetland ecosystems in Utah, conducting biological surveys for abandoned mine land closers across the western US, closing physical safety hazards at abandoned mines in Colorado, California, and Wyoming, habitat restoration, establishing the locations of carbon stocks and the distributions in Western Colorado, and the collection of air, water, and meteorological data relevant for climate change monitoring. 15.252 Abandoned Mine Land Reclamation (AMLR) Program

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2009: In 2009, the Office of Surface Mining (OSM) awarded a grant from its Watershed Cooperative Agreement Program (WCAP) to Trout Unlimited, a non-profit IRS 501(c)(3) organization. The award was \$17,000. Funding from Pennsylvania's Growing Greener program was also committed to the project (\$148,528). Therefore, the total project cost is \$165,528. The project location is in Clinton County, Pennsylvania, in the South Fork of the Tangascootack River watershed. Trout Unlimited is proposing to rehabilitate

and expand the AMD treatment facility known as Site #1. The South Fork is a high priority watershed for the Pennsylvania Department of Environmental Protection (PADEP) and there are two other AMD passive treatment systems in the watershed. The South Fork (impaired) joins the North Fork (high quality trout fishery), and the Tangascootack flows into the West Branch of the Susquehanna River. The West Branch is undergoing a major AMD cleanup effort by PADEP. The Site #1 acid mine discharge flows at an average of 56 gallons per minute, with a pH of 3.3 and a dissolved aluminum level of 25 mg/l.

The existing passive treatment system is underperforming, and will be rehabilitated and enhanced using new design technologies. Completion of the project will help restore the aquatic habitat and fishery of the South Fork. The project goal is to improve stream conditions to enable the reintroduction of a native Brook Trout population. The Clinton County Conservation District will help operate and maintain the completed system. Fiscal Year 2010: No Current Data Available Fiscal Year 2011: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Section 404 of Public Law 95-87, State certification of eligibility is required. No opposition to the project from the State Abandoned Mine Land (AML) agency. All applicable Federal and State clearances and permits must be secured. The project should propose to use proven or innovative technology that has a high probability of success and produce tangible results, e.g., fishery restored, stream miles improved, educational and community benefits, pollutants removed from the streams. Funds must be used for the construction phase of a project and there must be demonstrated public support for the project. Also, there must be a plan to address any ongoing operation/maintenance considerations.

15.254 SUMMER WATERSHED INTERN

FEDERAL AGENCY:

Office of Surface Mining, Department of the Interior

AUTHORIZATION:

Surface Mining Control and Reclamation Act of 1977; Public Law 95-87; 91 Stat. 445-532.

OBJECTIVES:

Over the past ten years, Reclamation Support has created a direct watershed assistance program working with volunteer watershed groups in the Appalachian Coal Country and, more recently, in the Western Hardrock Country. The primary partners are a coalition of change-minded community improvement groups determined to repair the environmental degradation left from historic mining while creating economic stability needed in rural communities, the watershed/neighborhood residents call home. Goals: build local capacity, monitor waterway quality, enhance outreach and education, engage economic redevelopment and require professional development. The program is supported by an innovative partnership among AmeriCorps VISTA, concerned with poverty, and the Office of Surface Mining, concerned with environmental reclamation and safety, and watershed groups.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

The OSM Summer Watershed Intern Program started in 1999, supporting college students working full-time for 10 weeks with coal country watershed groups. As many as 30 students have spent a summer working directly for watershed groups to conduct water monitoring, enhance outreach initiatives, develop school curricula and build stronger partnerships with agencies and industry.

The Appalachian Coal Country Watershed Team (ACCWT) began in 2002 as an OSM/VISTA initiative, placing determined college-trained OSM/VISTA Volunteers in a year of service in rural coal-mining communities. Reflecting the needs and the determination of the communities served, the ACCWT has placed more than 36 OSM/VISTAs in the field and more waiting to support an OSM/VISTA. New OSM/VISTA recruits are applying in increasing numbers every day.

The Western Hardrock Watershed Team (WHWT) began is Colorado at the invitation of the Colorado Division of Reclamation, Mining and Safety as an

OSM/VISTA initiative in 2007, placing determined college-trained OSM/VISTA Volunteers in a year of service in rural mining communities. Over the past year the WHWT expanded from 4 to 18 positions in Colorado. Serious injuries are coming from other states (NM, UT, MT, NV) based on the board successes seen in Colorado, but cannot be filled at present. New OSM/VISTA recruits are also applying in increasing numbers.

The Offshore Minerals Management program oversees the exploration and development of oil, natural gas and other minerals and renewable energy alternatives on the nations outer continental shelf. MMS continues to look for better ways to serve the American people and to ensure that the nation receives the best value for its resources now and into the future. The program not only supports decisions made within the Department of Interior, but also provides coastal states and local governments with the information necessary to ensure that all stages of offshore energy and mineral

activities are conducted in a manner to protect both the human and natural environments. Outer Continental Shelf Lands Act (OCSLA) Section 1346 mandates the conduct of environmental and socioeconomic studies needed for the assessment and management of environmental impacts on the human, marine, and coastal environments which may be affected by oil and gas or other mineral development. OCSLA Section 1345 authorizes the use of cooperative agreements with affected States to meet the requirements of OCSLA, including sharing of information, joint utilization of available expertise, formation of joint monitoring arrangements to carry out applicable Federal and State laws, regulations, and stipulations relevant to outer continental shelf operations both onshore and offshore. The purpose of the Alaska Coastal Marine Institute is to use highly qualified scientific expertise at local levels to collect and disseminate environmental information needed for OCS oil and gas and marine minerals decisions; address local and regional OCS-related environmental and resource issues of mutual interest; and strengthen the MMS-State partnership in addressing OCS oil and gas and marine minerals information needs.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The Environmental Studies Program allocates up to \$750,000 per year for cooperative research at the University of Alaska. The University of Alaska invites proposals that are reviewed by a Technical Steering Committee including the University, State of Alaska, and MMS, and funds individual awards. Applications must be for scientific research projects which are within the MMS' area of responsibility. The majority of funds are used to support research that will enhance understanding of long-term effects of oil and gas, and marine minerals projects. Funds can also be used for attendance at national conferences for the dissemination of project results. Funds are not normally used for capitalization.

Applicant Eligibility:

University of Alaska may make application for support by a named principal investigator. Non-UA scientists may participate in collaboration with a UA principal investigator.

The MMS, as authorized by the Outer Continental Shelf Lands Act (OCSLA) (43 U.S.C. 1331-1356), is responsible for ensuring that any oil and gas activities located on the OCS conserve resources, operate safely, and protect the coastal and marine environment. The Technology Assessment and Research Program (TA&R) is a research element encompassed by the MMS Regulatory Program. The TA&R Program supports research associated with operational safety and pollution prevention as well as oil spill response and cleanup capabilities. The TA&R Program was established in the 1970's to ensure that industry operations on the Outer Continental Shelf incorporated the use of the Best Available and Safest Technologies (BAST) subsequently required through the 1978 OCSLA amendments. Congress provides TA&R funding to be used by OTRC in order to perform research through the MMS.

CRITERIA FOR SELECTING PROPOSALS:**15.426 COASTAL IMPACT ASSISTANCE PROGRAM (CIAP)
(CIAP)****FEDERAL AGENCY:**

The Bureau of Ocean Energy Management, Regulation, and Enforcement, Department of the Interior

AUTHORIZATION:

Outer Continental Shelf (OCS) Lands Act, as amended; 31 U.S.C. 6301-6305.

OBJECTIVES:

The intent of the program is to disburse funding to eligible producing states and coastal political subdivisions for the purpose of conservation, protection, or restoration of coastal areas including wetlands; mitigation of damage to fish, wildlife, or natural resources; planning assistance and the administrative costs of complying with these objectives; implementation of a federally-approved marine, coastal, or comprehensive conservation management plan; and mitigation of the impact of outer Continental Shelf activities through funding of onshore infrastructure projects and public service needs.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Can only be used to directly benefit an authorized use to conserve, restore, enhance, and protect renewable natural resources. Funding cannot be used for projects that would not provide a direct benefit, including but not limited to, supporting litigation or to fund publicity or lobbying efforts for purposes of influencing or attempting to influence a member of the U.S. Congress or an agency of the Federal government.

Applicant Eligibility:

States eligible to receive funding are: Alabama, Alaska, California, Louisiana, Mississippi, and Texas and 67 coastal political subdivisions among the six states.

Beneficiary Eligibility:

The producing coastal states, their eligible coastal political subdivisions, and the general public will ultimately benefit from the program.

Credentials/Documentation:

Applicants must provide documentation that they have met state and local permitting requirements. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Prior to submitting any grant applications an eligible state must submit to MMS, for approval, a State Plan that provides detail on how a State and its Coastal Political Subdivisions (CPS) will use the CIAP funds and implement the state plan. To assist the States in developing a plan the MMS issued final Coastal Impact Assistance Program Guidelines, and published a Notice of Availability in the Federal Register, September 29, 2006. Coastal Political Subdivisions and State are required by the Act to work together to develop their Plan. The plan should contain prescribed components from Section 384 of the amended OCS Lands Act, which includes an implementation program

representing both parties' interests. The State point of contact submits the Plan to the MMS for approval. The MMS will determine within 20 calendar days after receipt of a Plan or Plan amendment whether additional information is needed. If no deficiencies are identified and the required number of copies has been received, the Plan or amendment will be deemed complete. Once a Plan or amendment is determined complete, MMS will have 90 calendar days to notify the State in writing that the Plan or amendment is approved, disapproved, or remains under review (in which case the Plan or amendment is neither approved nor disapproved). If MMS fails to provide such written notice to the State, the Plan or amendment is deemed to be disapproved. If MMS notifies the State that the Plan or amendment remains under review, MMS will also provide the State with an estimate of the amount of additional time necessary to complete its review. If a Plan or amendment is disapproved, the State may revise and resubmit it. The MMS will then have 20 calendar days to determine completeness; once MMS determines that the revised Plan or amendment is complete, MMS will then have 90 calendar days to approve or disapprove the revised Plan or amendment. On April 16, 2007 MMS released the recipient allotment amounts that will be eligible to spend in 2007 and 2008. The States and CPSs will use this information to develop grant project applications with detailed descriptions of their individual projects, including detailed breakdowns of costs. The recipients will provide in each application the current status of Federal, State and local permits required for the project. A completed grant project application is to be submitted electronically through Grants.gov. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. Specific projects submitted to the MMS for funding are subject to the Department of the Interior Regulations at 43 CFR Part 12, Subparts C and E, or any subsequent revisions. The OMB SF-424 application forms must be used for this program. Applications are submitted electronically through Grants.gov.

Award Procedure:

The MMS provides a notice of award to the recipient.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

MMS will have 90 days to notify the State in writing that the Plan or amendment is approved, disapproved, or remains under review (in which case the Plan or amendment is neither approved nor disapproved). No time limit is established for review of projects.

Applicants can appeal disapproval of Plans or project applications no later than December 2010.

Renewals:

Proposals are submitted for a project period. Projects that were approved and funded during the previous project period may be submitted as renewals for subsequent project periods.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Length and Time Phasing of Assistance:

Federal assistance is typically available during the current fiscal year of appropriations. The Program expects all awarded funds to be expended during the fiscal year in which grant awards were made or no more than 2 years from the time of grant award.

For more complex projects that may involve environmental compliance, design, feasibility studies, construction and implementation, effectiveness monitoring, and other related activities, the project will be divided into phases. The project will then be funded incrementally at phase level costs. Funding of subsequent phases will be based on project viability, effectiveness, and fund availability. CRITERIA FOR SELECTING PROPOSALS:

The Las Vegas Wash Coordination Committee has decided that the SNWA will be the lead agency for receiving funding for this program due to the high costs and types of environmental improvement and enhancement, and ability to maintain restoration projects. The Las Vegas Wash Program plays an important role in environmental and water resource issues in Southern Nevada. Historically, the Las Vegas was an ephemeral stream carrying storm flows from the Las Vegas Valley to Lake Mead and the Colorado River. Urban development over the past 60 years has resulted in the formation of the wetlands that helped remove nutrients from these wastewater flows. As the rate of discharges increased, erosion also increased, gradually destroying the existing natural treatment systems and wildlife habitat and creating a large delta in the Las Vegas Bay of Lake Mead. Accelerating erosion, declining water quality, and loss habitat are some of the more pressing issues. Proposals submitted will be reviewed and awarded based on priority fulfillment of the 44 action items identified in the Plan and the availability of funding appropriations.

15.636 ALASKA SUBSISTENCE MANAGEMENT

FEDERAL AGENCY:

Fish and Wildlife Service, Department of the Interior

AUTHORIZATION:

Alaska National Interest Lands Conservation Act (ANILCA) of 1980, Title VIII, Public Law 96-487, 16 U.S.C. 3101-3233, Section 809. Fish and Wildlife Coordination Act (16 U.S.C. 661 to 666).

OBJECTIVES:

To identify and provide information needed to sustain subsistence fisheries and wildlife management on Federal public lands, for rural Alaskans, through a multidisciplinary, collaborative program. Three programs are administered under ANILCA to fulfill this objective. The Fisheries Resource Monitoring Program (Monitoring Program) funds approximately 80 studies annually to provide information on stock status and trends, harvests, and traditional ecological knowledge to manage and regulate Federal subsistence fisheries. The Partners for Fisheries Monitoring Program (Partners Program) strengthens Alaska Native and rural involvement in subsistence fisheries and research. The program provides funds directly to Alaska Native and rural organizations to hire fishery biologists, social scientists, and educators to implement fisheries monitoring projects and rural internship programs. The Liaison and Staff Support Grant to the State of Alaska is directed specifically to the Alaska Department of Fish and Game. The grant defrays salary and travel expenses that occur in support of the coordination between State and Federal subsistence fish and wildlife programs.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funds may be used for approved fish and wildlife subsistence management, fisheries monitoring and traditional ecological knowledge projects.

Applicant Eligibility:

An individual/family, profit organization, other private institution/organization, public nonprofit institution/organization; an officer, employee, agent, department or instrumentality of the Federal government, of the State of Alaska, municipality or political subdivision of the State of Alaska; Federally recognized Indian Tribal Government (including any Native village as defined in the Alaska Native Claims Settlement Act).

Beneficiary Eligibility:

An individual/Family, profit organization, other private institution/organization, public nonprofit institution/organization; an officer, employee, agent, department, or instrumentality of the Federal government, of the State of Alaska, municipality or political subdivision of the State of Alaska, or of any foreign government.

No Credentials or documentation are required. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Applicant must complete the Standard Form (SF)-424, the appropriate Budget and Assurances forms (SF-424A and SF-424B - Non-construction; or SF-424C and SF-424D - Construction), Certifications Regarding Debarment, Suspension and Other Responsibility Matters, Drug-Free Workplace Requirements and Lobbying, and, if applicable, SF LLL Disclosure of Lobbying Activities.

Award Procedure:

For the Monitoring Program, an inter-agency technical review committee evaluates and ranks proposals, and, for those selected for further consideration, subsequently the full investigation plans. The committee develops a draft monitoring program from the highest priority projects, based on their technical review and available funds. The draft monitoring plan is reviewed by ten regional advisory councils and the public. An inter-agency staff committee reviews all recommendations, and provides recommendations. The Federal Subsistence Board selects projects for the Monitoring Plan taking into account all recommendations and comments. Funding of the Monitoring Plan is administered by the Office of Subsistence Management (OSM). For the Partners Program, an internal review is conducted to evaluate proposals and make recommendations for funding. The evaluations are based on the criteria outlined in the request for federal assistance. The proposals are ranked and the OSM Assistant Regional Director selects proposals that best support the program within available funding. Once a Monitoring Program project or Partners Program position is selected for funding, a funding instrument, i.e., notice of award, between Fish and Wildlife Service and the recipient is drafted by the OSM. The award is processed by OSM through the contracting office and sent to the recipient for signature. The award is considered executed when signed copies of the agreement are received from the recipient and the contracting office has obligated funds to the agreement. The awards are administered by OSM. For the Liaison and Staff Support Grant, the Alaska Department of Fish and Game is the only non-Federal entity with management authority over fish and wildlife resources. This grant agreement is not open to competition outside the Alaska Department of Fish and Game.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application

deadlines.

Range of Approval/Disapproval Time:

The priority audiences for the training supported by this Program include: Protected area managers and administrators; Protected area guards and rangers; Protected area outreach and education specialists; Community leaders (living in and around protected areas); Upper-level students (working on projects in and around protected areas); and Decision-makers who influence protected areas (including private landowners, legislators, and public officials).

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2009: No Current Data Available Fiscal Year 2010: FY10: Regional co-management organizations in 10 regions within Alaska are active and maintained with regional meetings held twice a year. These regional meetings are a logistical challenge bringing in representatives from 192 remote villages to provide vital local input to the Alaska Migratory Bird Co-Management Council. The grants also supported travel for the 10 regional representatives and staff to attend the semi-annual statewide Alaska Migratory Bird Co-Management Council and committee meetings. Representatives from the North Slope and the Chugach Region also represented the program at national Flyway Council and Fish & Wildlife Service Regulations Committee meetings in July. Outreach activities are ongoing and are sponsored to reach the 192 rural villages within the regions, covering everything from radio shows

to informational flyers to holding issue-related village meetings. The emphasis this year was the Bering Straits region due to subsistence harvest concerns on St. Lawrence Island and the villages of Gambell and Savoonga. Fiscal Year 2011: FY11: Plans include recruiting a new regional organization to represent Southeast Alaska, to bring the number of active regions up to 11, and adding representation to an additional 16 rural villages.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2009: The National Cooperative Fisheries Scholars Program (NCFSP) at the University of Arkansas, Pine Bluff continues to meet its objectives. The NCFSP continues to offer 4-year full scholarships to undergraduate students earning their Bachelor of Science degree in Fisheries Biology at UAPB. Because minorities interested in careers in natural resource management are rare, the NCFSP has continued to successfully recruit prospective students nationwide. Over the last several years, the NCFSP has developed contact with vocational agriculture teachers, math and science instructors, and guidance counselors at high schools across the country. The program relies on these contacts to identify likely applicants for scholarships. The NCFSP also actively recruits among high school students have participated in the American Fisheries Society's Hutton Junior Fisheries Biology Program. High school students who participate in the Hutton Program and still want to pursue a career in fisheries biology are less likely to change majors while earning their fisheries degree, and more likely to take advantage of the numerous professional development opportunities available while in school. These students also are more likely to pursue graduate degrees in fisheries or a related natural resource field. Several NCFSP participants have secured summer internships with USGS research facilities to enhance their educational experience. Other graduates of the NCFSP at UAPB have gone on to be accepted to graduate school in one of the Cooperative Research Unit program host universities. DEPARTMENT OF JUSTICE

16.015 MISSING ALZHEIMER'S DISEASE PATIENT ASSISTANCE PROGRAM

FEDERAL AGENCY:

Department of Justice

AUTHORIZATION:

Consolidated Appropriations Act, 2009, Public Law 111-8.

OBJECTIVES:

This program provides funds for projects that aid in the protection and location of missing persons living with Alzheimers disease and related dementias and other missing elderly individuals. It is currently estimated that 5.3 million people in the United States alone are living with Alzheimers disease or some form of dementia. Over 60 percent (3.1 million individuals) of those with dementia will wander at some point. More than 50 percent of those who wander become lost and separated from their loved ones. Law enforcement agencies often expend resources searching for missing persons with Alzheimers disease, and if not found quickly, they are at high risk of serious injury or even death. In addition, law enforcement officers may not be trained or equipped to handle the special needs of those with Alzheimers, once they are found.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Applications are solicited for projects, pursuant to Congressional appropriations, that address one or more of the following: (1) Develop or enhance a national outreach program to increase awareness among law enforcement agencies and the public in addressing the needs of missing persons with Alzheimers disease. This national outreach program should include partnerships between national level law enforcement and Alzheimers disease associations, and may include providing a website that serves as a national clearinghouse of information and resources for those involved with missing persons. (2) Develop and/or sustain a national registry for persons living with Alzheimers disease or other form of dementia. (3) Develop and/or implement a process for aiding in the location of lost persons with Alzheimers disease. (4) Provide training and substantive informational material to law enforcement agencies through a national or regional initiative. (5) Support the development of a model policy that can be implemented nationwide by law enforcement agencies. Because there is no guarantee of future funding for this initiative, the successful applicant must address sustainability for any website and/or national registry developed or enhanced, beyond federal funding awarded under this solicitation.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2009: See Fiscal Year 2010. Fiscal Year 2010: The Section is responsible for monitoring approximately 200 school districts currently covered by desegregation orders in cases in which the United States is a party. To ensure that districts comply with their obligations, the Section routinely reviews matters relating to student assignment, faculty assignment and hiring, transportation policies, extracurricular activities, the availability of equitable facilities, and the distribution of resources. The Section also routinely responds to requests by other parties to modify court orders to reflect current circumstances, and to requests by parties, as well as courts, regarding unitary status and the ultimate dismissal of the lawsuit. As a result of these activities, the Section obtained various types of relief including: improved facilities for minority students; the elimination of one-race classrooms and schools; the desegregation of faculty and recruitment of minority faculty and staff; more equitable transportation routes for minority students; the elimination of segregative transfers; and the elimination of race-based extracurricular activities. Also, where appropriate, the Section has agreed that school districts have eliminated the vestiges of the dual system to the extent practicable and thus the district has achieved unitary status. Where the districts are not in compliance with their obligations, EOS works with them to come into compliance, and when this is not successful, EOS seeks relief from the courts. To date, in FY 2010 we have obtained litigated relief in five cases, negotiated

five out-of-court settlements, seven consent decrees as well as twelve plan modifications. To ensure equal educational opportunities for English Language Learners (ELL), the Section, as part of a nationwide effort, opened ten investigations in FY 2010 and is actively pursuing ongoing investigations of both states and school districts. The purpose of the investigations is to ensure that ELL students are receiving proper services to enable them to overcome language barriers that impede equal participation in the school districts educational programs. In one ELL matter, the Section negotiated an out-of-court settlement agreement addressing, among other things, improving services in the area of instruction and special education; providing translation services for parents and guardians; providing training for administrators, faculty and staff; and providing appropriate materials for ELL classes. We also have notified several states and school districts that they are violating the Equal Educational Opportunities Act of 1974. Additionally, the Section is pursuing discrimination on the basis of sex. We opened six investigations, filed one lawsuit, filed one amicus brief, obtained litigated relief in one matter, negotiated one out-of-court settlement, and one consent decree. These cases have addressed a panoply of issues including harassment based on not conforming with gender stereotypes, sexual harassment of students with disabilities, and the failure of a university to meet its Title IX athletics obligations. Civil Rights Division, Department of Justice

AUTHORIZATION:

Civil Rights Act of 1964, as amended, Title II and Title III; Civil Rights Act of 1968, as amended, Title VIII, Public Law 90-284, Fair Housing Amendments Act of 1988, Public Law 100-430, 42 U.S.C. 3601; Equal Credit Opportunity Act of 1974, Public Law 93-495; Equal Credit Opportunity Act of 1976, Public Law 94-239; 15 U.S.C. 1691; Religious Land Use and Institutionalized Persons Act of 2000, Public Law 106-274, 42 U.S.C. 2000cc.; Servicemembers Civil Relief Act, 50 U.S.C App. 501.

OBJECTIVES:

The Fair Housing Act provides freedom from discrimination on the basis of race, color, religion, sex, national origin, handicap and familial status in connection with the sale, rental, and financing of housing and other related activities. The Equal Credit Opportunity Act (ECOA) prohibits discrimination in credit transactions on the basis of race, color, religion, national origin, sex, marital status, or age (provided the applicant has the capacity to contract), because all or a part of the applicant's income is derived from a public assistance program, or because the applicant has in good faith exercised any right under the Consumer Credit Protection Act. Title II of the 1964 Civil Rights Act prohibits discrimination on the basis of race, color, national origin and religion in places of public accommodation, which are defined to include hotels, motels, restaurants, gas stations, and places of entertainment. Title III prohibits the denial of equal protection rights in public facilities. Section 2 of the Religious Land Use and Institutionalized Persons Act (RLUIPA) prohibits local governments from significantly burdening the exercise of religion or discriminating against religious institutions in their land use and zoning decisions. The Servicemembers Civil Relief Act provides for the temporary suspension of judicial and administrative proceedings and civil protections in areas such as housing and credit for military personnel while they are on active duty.

TYPES OF ASSISTANCE:**PROVISION OF SPECIALIZED SERVICES****USES AND USE RESTRICTIONS:**

The Fair Housing Act, which is found in Title VIII of the Civil Rights Act of 1968, as amended by the Fair Housing Amendments Act of 1988, is designed to ensure freedom from discrimination in the sale, rental and financing of housing, and other related activities. The Act provides two major avenues of enforcement by the Department. First, the Attorney General has independent authority to bring civil actions in Federal courts whenever he/she has reasonable cause to believe that any person or group of persons is engaged in a pattern or practice of discrimination or when he/she has reasonable cause to believe any group has been denied such rights in a case of general public importance. Under its pattern or practice authority, the Department may seek appropriate injunctive relief, actual and punitive damages for any persons injured by the discrimination, and civil penalties of up to \$55,000 against a defendant for the first violation and up to \$110,000 for subsequent violations of the Act. Second, the Department also has authority to seek relief on behalf of individuals in certain circumstances, as follows. The Department of Housing and Urban Development (HUD) is required to investigate and conciliate any complaint of housing discrimination filed with that agency. If it cannot be conciliated, HUD is authorized to file an administrative charge if it determines there is reasonable cause to believe the Fair Housing Act has been violated. At that point, either party may elect to have such charge heard in Federal court, and if such election is made, the Department of Justice brings suit in Federal court on behalf of the complainant and may seek actual and punitive damages in such an action. Aside from enforcement by the Federal government, private suits alleging illegal discrimination may be filed in the appropriate Federal or State court within two years of alleged discrimination. The ECOA, as amended, is designed to prohibit certain types of discrimination in all aspects of credit transactions. Persons who believe that they are victims of such discrimination may file complaints with one of the appropriate Federal regulatory agencies or may bring the information to the attention of the Attorney General. The Department of Justice is authorized to institute litigation in Federal court when a matter is referred to the Attorney General by an agency responsible for administrative enforcement of the Act or when he/she has reasonable cause to believe that one or more creditors are engaged in a pattern or practice of discrimination in violation of the Act. The Act gives the United States authority to seek actual and punitive damages for any persons aggrieved by the discrimination. In addition, an aggrieved person may institute suit in a Federal court pursuant to the ECOA. Title II of the 1964 Civil Rights Act is designed to prohibit discrimination in certain kinds of public accommodations. It gives the Attorney General authority to bring a legal action when he/she determines that there is reasonable cause to believe that any person or group is engaged in a pattern or practice of discrimination which violates the provisions of Title II. Remedies available in such cases are limited to injunctive relief and the Department does not have authority to seek monetary relief. Private individuals also may bring legal action under Title II. In addition, there are other civil rights laws which give such individuals authority to take legal action against public accommodations not covered by Title II. Title III allows the Attorney General to file a civil action in federal district court after receiving a written complaint from an individual who alleges the denial of equal protection rights in a public facility, but is unable to initiate or maintain an independent action. 42 U.S.C. 2000b(a). The Religious Land Use and Institutionalized Persons Act passed in September, 2000 prohibits State and local governments from using their authority to burden the exercise of religion, exclude religious assemblies from their jurisdictions, or discriminate against religious institutions. It gives the Attorney General the authority to seek injunctive or declaratory relief for violations of the Act. Private individuals may also bring actions under the statute. The Servicemembers Civil Relief Act of 2003 provides for the temporary suspension of judicial and administrative proceedings and civil protections in areas such as housing and credit for military personnel while they are on active duty.

To ensure that States in federal elections meet requirements for offering voter registration and maintaining voter registration lists, and meet minimum election administration and technology standards.

TYPES OF ASSISTANCE:

PROVISION OF SPECIALIZED SERVICES

USES AND USE RESTRICTIONS:

The VRA, prohibits State and local governments from imposing or applying any voting standard, qualification, prerequisite, or procedure in a manner that results in a denial or abridgment of the right of any U.S. citizen to vote on account of race or color or because an individual is a member of a language minority group. The VRA bans the use of literacy and similar tests as a prerequisite to voter registration or voting, authorizes voters in need of assistance in voting (because of illiteracy or disability) to receive help from the person of their choice (other than their employer or union representative), and lets registered voters vote for president even if they change their residence shortly before a presidential election. Certain specially covered States and political subdivisions are required to submit any voting changes either to the District Court for the District of Columbia for a declaratory judgment that the changes do not have a discriminatory purpose or effect, or, in the alternative, to the Attorney General, who has 60 days in which to object to the proposed changes. Changes to which the Attorney General has objected are legally unenforceable unless a subsequent declaratory judgment is issued by the District Court for the District of Columbia. The VRA requires certain counties (under formulas in the act) to provide voting and election information bilingually. The VRA authorizes the Attorney General to send Federal voting observers to certain designated counties to monitor election day polling place activities to prevent discrimination. Under VAEHA, the States must provide accessible registration and voting facilities for federal elections. Under UOCAVA, States must provide voter registration and absentee balloting in federal elections to United States citizens who are in the uniformed services and who are living overseas. Under the NVRA, States must offer voter registration for federal elections by mail and through offices that provide driver licenses, public assistance and services to persons with disabilities, and must maintain voter registration lists in accord with federal standards. Under HAVA, States must administer federal elections in accord with minimal standards for voting systems, provisional voting, voting information postings, identification for voters who register by mail, and computerized statewide voter registration databases.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2009: The Civil Rights Division's Voting Section vigorously enforces federal laws that protect the right to vote. Primary enforcement efforts in FY 2009 were (1) litigation to enforce federal voting rights laws, including the VRA, UOCAVA, NVRA, and HAVA; (2) the administrative review of voting changes pursuant to Section 5 of the VRA; (3) monitoring of elections to ensure compliance with federal voting rights laws.

During the past few years, the division has continued its extensive election monitoring activities.

In FY 2009, the Voting Section coordinated and monitored elections in 77 jurisdictions located in 23 different states. Overall, the Department covered 87 elections with 246 Department personnel and the assignment of 800 federal observers from the Office of Personnel Management.

The VRA requires certain jurisdictions to provide bilingual voting materials and assistance to American Indians, Asian Americans, Alaskan Natives, and/or person of Spanish heritage.

In FY 2009, the Division filed a lawsuit and obtained a consent decree to protect Hispanic voters in Fort Bend, County, TX. The Division has obtained

extensions of previous consent decrees to protect voting rights of Native American voters in Sandoval County and Cibola County in NM. The Division participated as amicus in a lawsuit in Volusia County, FL to protect the voting rights of Puerto Rican voters. In FY 2009, the Division entered settlement agreements to protect Hispanic voters in Riverside County, CA, and Native American voters in Shannon County, SD.

Meanwhile, the Division continued to enforce the provisions of Section 2 two of the Voting Rights Act, which prohibits voting practices that are discriminatory in purpose or effect. In Section 2 filed lawsuits against the Town of Lake Park, FL, the Village of Port Chester, NY, and the City of Euclid School District, OH challenging the at-large methods of election in those jurisdictions, court orders or consent decrees were entered that provided for new methods of election.

During FY 2009, the Division received 4,109 submissions of voting changes for administrative review under the preclearance requirements of Section 5 of the VRA. The Division filed Section 5 enforcement actions against Waller County, TX and the City of Calera, AL. Also, the Division participated as amicus in a lawsuit involving the State of Georgia's voter identification procedures.

Under UOCAVA, lawsuits were filed to seek relief to allow uniformed and overseas voters sufficient time to vote. Lawsuits were successfully resolved against Tennessee, Alabama and New York in FY 2009 and Virginia in early FY 2010. In addition, the Division participated as amicus in a lawsuit in Illinois. The Division achieved compliance with UOCAVAs reporting requirements in court actions with Vermont and Alabama and through a settlement agreement with Massachusetts.

In FY 2009, under the NVRA, the Division reached a settlement agreement with Illinois to ensure compliance with Section 7 of the NVRA, which requires that offices that provide public assistance and services to persons with disabilities also offer voter registration opportunities. Also, the Division entered into an amended consent decree with Indiana under the list maintenance provisions of Section 8 of the NVRA. PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2009: The Civil Rights of Institutionalized Persons Act (CRIPA) covers: public institutions; including prisons; jails; juvenile justice facilities; facilities for persons with developmental disabilities; psychiatric hospitals; and nursing homes. From May 1980, when CRIPA was enacted, through May 2010,

the Division investigated conditions in over 500 nursing homes, mental health facilities, centers for persons with developmental disabilities, residential schools for children with disabilities, jails, prisons, and juvenile justice facilities. At the end of FY 2009, DOJ was active in CRIPA matters and cases involving 217 facilities in 33 states, the Commonwealths of Puerto Rico and the Northern Mariana Islands, and the Territories of Guam and the Virgin Islands. As part of DOJ's Institutional Health Care Abuse and Neglect Initiative, and as an enhancement to ongoing CRIPA enforcement efforts, the Special Litigation Section staff conducted preliminary reviews of conditions and services at 20 health care facilities in 14 states during Fiscal Year 2009. The task in preliminary inquiries is to determine whether there is sufficient information supporting allegations of unlawful conditions to warrant formal investigation under CRIPA. The Section reviews information pertaining to areas such as abuse and neglect, medical and mental health care, use of restraints, fire and environmental safety, and placement in the most integrated setting appropriate to individual needs. Separately, in Fiscal Year 2009, the Section opened or continued formal investigations, entered remedial agreements, or monitored existing remedial agreements regarding 80 health care facilities in 22 states, the District of Columbia, the Territory of Guam, and the Commonwealth of Puerto Rico.

In Fiscal Year 2009, the Section commenced investigations of one county-operated nursing home, Maple Lawn Nursing Home in Palmyra, Missouri.

The Section found that conditions and practices at three state facilities for persons with mental illness, twelve state facilities for persons with intellectual and developmental disabilities, and one nursing home violate the residents' Federal constitutional and statutory rights. Those facilities are: Northwest Georgia Regional Hospital, in Rome, Georgia; Kings County Hospital Center, in Brooklyn, New York; Ancora Psychiatric Hospital, in Winslow, New Jersey; Denton State Supported Living Center, in Denton, Texas; Abilene State Supported Living Center, in Abilene, Texas; Austin State Supported Living Center in Austin, Texas; Brenham State Supported Living Center, in Brenham, Texas; Corpus Christi State Supported Living Center, in Corpus Christi, Texas; El Paso State Center, in El Paso, Texas; Lufkin State Supported Living Center, in Lufkin, Texas; Mexia State Supported Living Center, in Mexia, Texas; Richmond State Supported Living Center, in Richmond, Texas; Rio Grande State Center, in Harlingen, Texas; San Angelo State Supported Living Center, in Carlsbad, Texas; San Antonio State Supported Living Center, in San Antonio, Texas; and William F. Green State Veterans Home, in Bay Minette, Alabama.

The Section entered settlement agreements to resolve its investigations of eight state operated facilities for persons with mental illness, thirteen state-operated facilities for persons with intellectual and developmental disabilities, and three state-operated nursing homes. Those facilities are: Georgia Regional Hospital in Atlanta, Georgia; Georgia Regional Hospital, in Savannah, Georgia; Northwest Georgia Regional Hospital, in Rome, Georgia; Central State Hospital, in Milledgeville, Georgia; Southwest State Hospital, in Thomasville, Georgia; West Central Georgia Hospital, in Columbus, Georgia; East Central Georgia Regional Hospital, in Augusta, Georgia; Connecticut Valley Hospital, in Middletown, Connecticut; Lubbock State Supported Living Center, in Lubbock, Texas; Denton State Supported Living Center, in Denton, Texas; Abilene State Supported Living Center, in Abilene, Texas; Austin State Supported Living Center in Austin, Texas; Brenham State Supported Living Center, in Brenham, Texas; Corpus Christi State Supported Living Center, in Corpus Christi, Texas; El Paso State Center, in El Paso, Texas; Lufkin State Supported Living Center, in Lufkin, Texas; Mexia State Supported Living Center, in Mexia, Texas; Richmond State Supported Living Center, in Richmond, Texas; Rio Grande State Center, in Harlingen, Texas; San Angelo State Supported Living Center, in Carlsbad, Texas; San Antonio State Supported Living Center, in San Antonio, Texas; C.M. Tucker Nursing Care Center, in Columbia, South Carolina; and Tennessee State Veterans Homes in Murfreesboro and Humboldt, Tennessee.

In addition, the Section filed a contested complaint in *United States v. Arkansas* (E.D. Ark.) regarding conditions at Conway Human Development Center, in Conway, Arkansas.

The Section continued its investigations of nine residential facilities for persons with intellectual and developmental disabilities: Agnews Developmental Center, in San Jose, California; Sonoma Developmental Center, in Eldridge, California; Lanterman Developmental Center, in Pomona, California; Rainier

Residential Rehabilitation Center, in Buckley, Washington; Frances Haddon Morgan Center, in Bremerton, Washington; Bellefontaine Developmental Center, in St. Louis, Missouri; Northwest Habilitation Center, in St. Louis, Missouri; Clyde L. Choate Developmental Center, in Anna, Illinois; and Howe Developmental Center, in Tinley Park, Illinois. The Division also continued its investigation of Oregon State Hospital, in Salem, Oregon, a facility for persons with mental illness. In some of these matters, the Section is reviewing voluntary compliance to improve conditions.

The Section monitored the implementation of remedial agreements for 12 facilities for persons with intellectual and developmental disabilities: Clover Bottom Developmental Center, in Nashville, Tennessee; Greene Valley Developmental Center, in Greeneville, Tennessee; Harold Jordan Center, in Nashville, Tennessee; Arlington Developmental Center, in Arlington, Tennessee; New Lisbon Developmental Center, in New Lisbon, New Jersey; Southbury Training School, in Southbury, Connecticut; Woodward Resource Center, in Woodward, Iowa; Glenwood Resource Center, in Glenwood, Iowa; Woodbridge Developmental Center in Woodbridge, New Jersey; Oakwood Community Center in Somerset, Kentucky; and Beatrice State Developmental Center, in Beatrice, Nebraska. It also monitored the implementation of remedial agreements regarding community placements from facilities for persons with intellectual and developmental disabilities in Indiana, Puerto Rico, and Washington, D.C.

The Section monitored the implementation of remedial agreements for four nursing homes: Reginald P. White Nursing Facility, in Meridian, Mississippi; Mercer County Geriatric Center, in Trenton, New Jersey; Ft. Bayard Medical Center and Nursing Home, in Ft. Bayard, New Mexico; and Laguna Honda Hospital and Rehabilitation Center, in San Francisco, California. The Section also monitored the implementation of remedial agreements regarding 11 state-operated residential facilities for persons with mental illness: Guam Mental Health Unit in the Territory of Guam; Vermont State Hospital, in Waterbury, Vermont; Dorothea Dix Hospital, in Raleigh, North Carolina; Broughton Hospital, in Morganton, North Carolina; Cherry Hospital, in Goldsboro, North Carolina; John Umstead Hospital, in Butler, North Carolina; Metropolitan State Hospital, in Norwalk, California; Napa State Hospital in Napa, California; Atascadero State Hospital, in Atascadero, California; Patton State Hospital, in Patton, California; and, St. Elizabeths Hospital, Washington, D.C.

In FY 2009-2010, SPL has vigorously enforced the ADA right to community integration by initiating investigations, issuing violation findings, filing lawsuits and motions for preliminary injunctions under both the ADA and CRIPA, and entered into settlements and monitored implementation of ongoing settlements with community integration requirements. These actions promote the ADA community integration rights of the more than 15,000 persons with disabilities currently institutionalized in 50 facilities throughout the country that are covered by SPL activities and thousands of additional individuals with disabilities at risk of institutionalization, as well as those who now live in the community as a result of SPLs involvement. In FY 2009-2010, regarding the ADA, SPL opened four investigations involving ten facilities, issued four findings letters involving eight facilities, filed five complaints involving twenty-seven facilities, entered three settlement agreements involving fifteen facilities, filed two preliminary injunctions involving eight facilities and one temporary restraining order involving one facility, filed one statement of interest and one amicus brief, monitored settlements involving thirty facilities in ten states, and two settlements involving community-based systems of care in the District of Columbia and the Commonwealth of Puerto Rico.

Regarding our police misconduct statutory authority, SPL continues to pursue all allegations of constitutional violations we receive to determine if a pattern or practice investigation is warranted. In FY 2009-10, CRT opened nine new police misconduct investigations and obtained a comprehensive consent decree with the Virgin Islands Police Department which will address constitutional deficiencies uncovered during CRT's investigation of that agency. During FY 2010, CRT continued to focus its resources on vigorously monitoring the enforcement of its existing settlement agreements to ensure timely compliance with the terms of those agreements.

Additionally, SPL anticipates continuing in FY 2011 to work cooperatively with police departments to implement widespread reforms, including training, supervising, and disciplining officers and implementing systems to receive, investigate, and respond to civilian complaints of misconduct. In FY 2010,

SPL anticipates its renewed enforcement efforts regarding RLUIPA and the Freedom of Access to Clinic Entrances Act of 1994 (the FACE or Access Act) will continue to expand. For example, in 2009-10, the Section opened three RLUIPA investigations, launched several preliminary inquiries to determine if investigations are merited and entered into one settlement agreement.

Regarding the Freedom of Access to Clinic Entrances Act of 1994 (Access Act), the Section has focused investigative efforts on addressing allegations regarding significant physical obstruction at reproductive health facilities involving multiple and national defendants, as well as serious threats of force where injunctive relief would be an appropriate remedy. From FY 2009 to present, the Section launched 26 preliminary inquiries, 14 of which turned into active investigations, and filed two complaints.

In FY 2010, SPL received additional funding to enable the Division to fulfill the law enforcement mandates described above. The resources have been used to fund a combination of consultants in the areas of community placement, protection from harm, general medical (including mental health) care, fire safety, police operations, education specialists, and correctional operations, among other areas. Most of these cases involve issues of fundamental life safety, and basic remedial relief is being sought. Fiscal Year 2010: No Current Data Available Fiscal Year 2011: No Current Data Available

16.110 EDUCATION AND ENFORCEMENT OF THE ANTIDISCRIMINATION PROVISION OF THE IMMIGRATION AND NATIONALITY ACT

Office of Special Counsel

FEDERAL AGENCY:

Civil Rights Division, Department of Justice

AUTHORIZATION:

Immigration and Nationality Act, 8 U.S.C. Section 1324b.

OBJECTIVES:

To educate employers and workers about their rights and responsibilities under the Immigration and Nationality Act (INA), which prohibits employment discrimination based on citizenship status and national origin, and unfair documentary practices with respect to verification of employment eligibility.

TYPES OF ASSISTANCE:

INVESTIGATION OF COMPLAINTS; PROJECT GRANTS; PROVISION OF SPECIALIZED SERVICES

USES AND USE RESTRICTIONS:

The anti-discrimination provisions of the INA prohibit employment discrimination based upon national origin and citizenship status against U.S. citizens and other legally authorized workers with respect to hiring, firing, and recruitment or referral for a fee, and unfair documentary practices during verification of employment eligibility. The INA also prohibits retaliation for the purpose of interfering with any right or privilege secured by the anti-discrimination provisions, or because an individual has participated in a proceeding to enforce those provisions. The Office of Special Counsel for Immigration-Related Unfair Employment Practices (OSC) was created by Congress to enforce these provisions, and to educate the public about its responsibilities and rights under the law. The goal of OSC's grant program is to educate workers and employers about the anti-discrimination provisions of the INA in order to reduce incidents of employment discrimination. Grants are open to all applicants including labor and immigrant organizations, small and large businesses and associations, employer groups and associations, public service or community-based organizations, faith-based organizations and state and local government agencies. The INA's prohibition against citizenship status discrimination applies to employers with more than three employees, and covers: (1) U.S. citizens and nationals; (2) lawful permanent residents; (3) temporary residents under the Immigration Reform and Control Act of 1986, including Special Agricultural Worker program (SAW) and Replenishment Agricultural Worker program (RAW); (4) refugees and (5) asylees. The INA's prohibition against national origin discrimination applies to employers with four to 14 employees and covers U.S. citizens, and all individuals with work authorization. Employers with 15 or more employees are subject to Title VII of the Civil Rights Act of 1964, 42 U.S.C. 2000e, et seq., which also prohibits discrimination on the basis of national origin, and is enforced by the U.S. Equal Employment Opportunity Commission (EEOC). Charges incorrectly filed with OSC are automatically referred to the EEOC and vice versa. The INA's prohibition against unfair documentary practices applies to employers with more than three employees, and protects U.S. citizens and all individuals with work authorization.

Applicant Eligibility:

The OSC welcomes grant proposals from organizations such as local, regional, and national ethnic and immigrant rights advocacy organizations, labor organizations, trade associations, industry groups, professional organizations, state and local government agencies, employer organizations and associations, and others, including for-profit entities, that provide information services to potential victims of discrimination and/or employers.

Beneficiary Eligibility:

The educational efforts under the grant should be cost effective and directed to (1) work-authorized non-citizens (since this group is especially vulnerable to employment discrimination); (2) citizens who are most likely to become victims of prohibited employment discrimination under the INA; and/or (3) employers, especially small businesses.

16.123 COMMUNITY-BASED VIOLENCE PREVENTION PROGRAM

FEDERAL AGENCY:

Department of Justice

AUTHORIZATION:

Public Law 111-117.

OBJECTIVES:

To support and enhance the coordination of existing community-based violence prevention and intervention programs and strategies that are attempting to replicate models and strategies which have been proven to have a positive impact on the reduction of violence in target communities. The Community-Based Violence Prevention Program has three main goals: to change community norms regarding violence; to provide alternatives to violence when gangs and individuals in the community are making risky behavior decisions; and, to increase the perceived risks and costs of involvement in violence among high-risk young people. This Program will work with community-based organizations to develop and implement strategies to reduce and prevent violence, particularly shootings and killings. This will be accomplished by relying on outreach workers, clergy, and other community leaders to intervene in conflicts or potential conflicts and promote alternatives to violence. The Community-Based Violence Prevention Program will also involve law enforcement in its efforts and depends heavily on a strong public education campaign to instill in people the message that shootings and violence are not acceptable. Finally, the model calls for the strengthening of communities so they have the capacity to exercise informal social controls and to respond to issues that affect them, including community violence. These activities are organized into five core components that address both the community and those individuals who are most at risk of involvement in a shooting or killing: community mobilization, outreach, faith leader involvement, police participation and public education.

Office of Victims of Crime, Department of Justice

AUTHORIZATION:

22 USC 7105(b)(2)(A).

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE; PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funding under this program is intended to address the needs of victims of severe forms of human trafficking as defined by the Trafficking Victims Protection Act (TVPA) of 2000. This includes male and female victims of sex and labor trafficking. The Office for Victims of Crime (OVC) awarded its first cooperative agreements to victim service organizations in FY03 to provide a comprehensive array of direct services to pre-certified foreign national victims. Pre-certification refers to the period of time between when trafficking victims are initially identified by law enforcement and officially certified by the Federal government as such. Since FY03, OVC has funded 46 victim service agencies to provide a wide range of services to pre-certified victims. Since FY 04, OVC has partnered with its sister agency, the Bureau of Justice Assistance (BJA) to support a strategy for funding anti-human trafficking task forces in cities throughout the country. This task force strategy focuses on enhancing law enforcement's ability to identify and rescue victims of human trafficking; providing law enforcement with the resources and training to identify and rescue victims of trafficking; and ensuring that comprehensive services are available wherever trafficking victims are found. Since FY04, BJA has provided funding to 42 local and state law enforcement anti-human trafficking task forces across the country. OVC's Services for Victims of Human Trafficking awards support the creation and/or enhancement of collaborative networks that provide critical services for trafficking victims within a given community or region. These awards are intended to build community-based networks of comprehensive, integrated, and culturally appropriate services for trafficking victims. Applicants must demonstrate the capacity to quickly mobilize resources to accommodate the needs of potentially large numbers of victims and the ability to coordinate with other trafficking programs and other service providers. In FY 10, OVC plans to provide continuation funding to support ongoing services to victims within existing task forces. In order to receive Department of Justice funding support and the assistance of the local U.S. Attorney, local law enforcement agencies and victim services providers are required to enter into a Memorandum of Understanding with all task force members committing themselves to collaborating together on investigations and assistance to victims. In FY 09, OVC expanded its Services for Victim of Human Trafficking Program by funding three pilot sites as part of a demonstration project to identify promising practices in the delivery of a comprehensive array of services to victims of severe forms of human trafficking who are U.S. citizens or lawful permanent residents under the age of 18. Additionally in FY09, OVC made two grants to support case management services for domestic youth victims of sex trafficking, as well as a third grant to support training and technical assistance to 10 youth-serving organizations across the U.S. in the development and implementation of programs and services for commercially and sexually exploited and domestically trafficked girls and young women. These three grants were supported through funding provided to the Office of Justice Programs under the American Recovery and Reinvestment Act of 2009. In FY10, OVC and BJA will partner to release a competitive solicitation that supports an enhanced approach to combating human trafficking through incorporating best practices identified by successful anti-human trafficking task forces in the U.S. This solicitation will also support the provision of comprehensive services to all trafficking victims adult and minor victims who are foreign or domestic victims through one lead victim service provider.

Claimants may seek reimbursement for expenses incurred for medical, mental health, funeral and burial, property loss, and other miscellaneous costs (including emergency travel, temporary lodging, and telephone costs).

ITVERP: The law requires that the individual victim must have suffered direct physical or emotional injury or death as a result of an act of international terrorism occurring on or after October 23, 1983, with respect to which an investigation or prosecution was ongoing or was commenced after April 24, 1996. In the case of a victim who is a minor, incompetent, incapacitated, or is killed, a family member or legally designated representative of the victim may receive expense reimbursement on behalf of the victim. In addition to the victim, claimants may include the following: Spouse of the victim, Parents of the victim, Children of the victim, Siblings of the victim, Legally designated victim representative.

OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. AEAP: Whereas the previously submitted proposal letter, budget, and budget narrative were key factors in determining eligibility for funding, they were submitted prior to the posting of a solicitation.

Application materials submitted electronically through GMS in response to either the assistance or compensation solicitation become permanent parts of the award file. Thus, it will be necessary to resubmit the proposal letter, budget, and budget narrative documents as part of the application package.

Applications will be accepted following an incident of terrorism or mass violence in accordance with the timetable set forth in the AEAP Guidelines.

There are two factors that determine the application submission requirements for the AEAP: (1) the applicant status, i.e., government agency (Federal, State, or local), non-governmental organization, or victim service organization; and (2) the type of support requested, i.e., crisis response, consequence management, criminal justice, victim compensation, technical assistance (nonmonetary assistance). Application requirements are listed below.

Application requirements for State crime victim compensation programs - Funding will be made available to State crime victim compensation programs in response to an incident of terrorism or intentional mass criminal violence within the United States in the form of a grant. Requests for funding from State crime victim compensation programs may be made at any time in the aftermath of an incident and should include: (1) Responses to the questions or issues raised in the AEAP Compensation Solicitation ; (2) Proposal letter ; (3) Budget.; (4) Budget narrative; and (5) SF-424, Application for Federal Assistance and applicable assurances and forms.. Application requirements for all other recipients of funds -All other applicants seeking Antiterrorism Emergency Reserve support are required to submit: (1) Responses to the questions or issues raised in the AEAP Assistance Solicitation; (2) Proposal letter; (3) Budget; (4) Budget narrative; and (5) SF-424, Application for Federal Assistance and applicable assurances and forms. While no direct funding is available, OVC may provide its own consultants to meet the training and technical assistance needs of applicants. Training and technical assistance may be requested by submitting a letter describing the nature of the problem; the type of expertise or assistance needed; the duration of assistance; and the projected outcomes of the technical assistance or training. See OVC guidelines published in the Federal Register (Vol. 67, No. 21, Thursday, January 31, 2002) for additional information on application requirements for the AEAP. ITVERP: Step 1: Identify the type of application you are applying for by marking the appropriate type at the top of the application form. In addition, a supplemental sheet must be filled out by applicants. Sections B, F and H should be answered by all applicants; section G should be answered by Itemized and Supplemental applicants only. Detailed instructions are included. Step 2: If you believe that you are an eligible victim of a "designated" international terrorism event, please use the following forms and information to prepare your application for reimbursement. Required Documentation: A victim is required to submit documentation that provides proof of identity, citizenship, employment, and damage/injury sustained during the international terrorism event. A victim's family member or representative is required to submit documentation of his/her relationship to the victim plus medical information or a death certificate as appropriate, in addition to the items named above. In all cases, receipts for expenses incurred in the recovery process will be required. If any of the required documents have been destroyed and are unavailable from any other source, you must provide and certify a list of destroyed documents and how each would apply to your ITVERP application.

Award Procedure:

AEAP: Upon receipt and internal review of a complete application, it is the intention of OVC to notify applicants of funding decision within 5 business days or as soon as practicable. The applicant may be notified by telephone, Internet or facsimile. ITVERP: After review of each application, the Director shall determine the eligibility of the victim or representative and the amount, if any, eligible for reimbursement, specifying the reasons for such determination and the findings of fact and conclusions of law supporting it. A copy of the determination shall be mailed to the claimant at his last known address.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

AEAP: It is OVC's intention to make a funding decision within 5 business days of receipt of a complete application or as soon as practicable. ITVERP: It is OVC's intention to review and process payments as soon as practicable. For itemized and supplemental claims, range of approval/disapproval is dependant upon receipt of an official determination of a reasonable indication of an act of international terrorism from the Assistant Attorney General of National Security for a particular event. Processing time is also dependant upon timely response by claimants of any outstanding documents or information required to process claim applications. Claimants may apply for an interim emergency payment, prior to a determination under Section 94.21(a). If the Director determines that such payment is necessary to avoid or mitigate substantial hardship that may result from delaying reimbursement until complete and final consideration of an application, such payment may be made to cover immediate expenses such as those of medical care, funeral and burial, short-term lodging, and emergency transportation.

State Formula Grants

FEDERAL AGENCY:

Office of Juvenile Justice and Delinquency Prevention, Department of Justice

AUTHORIZATION:

Juvenile Justice and Delinquency Prevention Act of 2002, Sections 221-223, 42 U.S.C. Sections 5631-5633.

OBJECTIVES:

To increase the capacity of State and local governments to support a variety of programs related to delinquency prevention and reduction, juvenile justice system improvement, research, evaluation, statistical analysis, and training and technical assistance.

TYPES OF ASSISTANCE:

FORMULA GRANTS; PROJECT GRANTS

USES AND USE RESTRICTIONS:

This program, established by the Juvenile Justice and Delinquency Prevention (JJDP) Act of 2002, allocates formula grant funds to States and territories on the basis of their relative population under age 18. The minimum allocation to each State is \$600,000 and to the Territories is \$100,000. States/Territories must demonstrate compliance with four core requirements of the JJDP Act in order to receive their full allocation of Formula Grants funds. The core requirements are: Section 223(a) (11) deinstitutionalization of status offenders; (12) separation of adults and juveniles in secure custody; (13) removal of juveniles from adult jails and lockups; and (22) the elimination of the disproportionate contact of minority juveniles, where such conditions exist. The State's allocation is reduced by 20 percent for each core requirement with which the State is in non-compliance. Technical Assistance: Not in excess of two percent of the funds available each fiscal year to formula grants is available for grants and contracts with public and private agencies, organizations and individuals to provide assistance to States, units of general local governments, and combinations thereof, and local private agencies to facilitate compliance with Section 223 of the JJDP Act and implementation of the State Plan approved by OJJDP. Technical assistance provided under this provision is coordinated with the State agencies designated to implement the formula grants program. To be eligible for formula grant funds, a State must submit electronically a comprehensive plan applicable to a 3-year period embodying the purposes of the Act and including provisions that: (1) provide for an advisory group appointed by the chief executive of the State to carry out specified functions and to participate in the development and review of the State's juvenile justice plan; (2) provide that juveniles who are charged with or who have committed offenses that would not be criminal if committed by an adult, or offenses which do not constitute violations of valid court orders or such non-offenders as dependent and neglected children, are removed from secure juvenile detention and secure correctional facilities; (3) provide that juveniles alleged to be or found to be delinquent and youths within the purview of the deinstitutionalization core requirement not be confined or detained in any institution in which they have contact with adult persons incarcerated because they have been convicted of a crime or are awaiting trial on criminal charges; (4) provide that no juvenile shall be detained or confined in any jail or lockup for adults (with specified exceptions); and (5) provide for programs to eliminate the disproportionate contact of minority juveniles where such condition exists. Once the plan is approved, each State determines the specific programs to be funded. The States are responsible for processing applications for subgrants and administering funded projects. Two-thirds of funds must be passed through to units of general local government, private nonprofit agencies, and Indian Tribes performing law enforcement functions unless a waiver is granted.

Applicant Eligibility:

The Chief Executive of each State which chooses to apply for a formula grant shall establish or designate a State agency as the sole agency for supervising the preparation and administration of the plan, in accordance with the Juvenile Justice and Delinquency (JJDP) Act of 2002. Technical Assistance: Grants and contracts may only be made to agencies, organizations and individuals that have experience in providing technical assistance to State agencies in implementing State plans, and in facilitating compliance with Section 223 of the JJDP Act, Public Law 102-586.

16.576 CRIME VICTIM COMPENSATION

FEDERAL AGENCY:

Office of Victims of Crime, Department of Justice

AUTHORIZATION:

42 U.S.C. 10602 (a).

OBJECTIVES:

The Office for Victims of Crime (OVC), Department of Justice, administers the Crime Victim Compensation formula grant program. OVC annually awards a grant to each state, the District of Columbia, the U.S. Virgin Islands, and the Commonwealth of Puerto Rico to support state crime victim compensation programs. These programs help pay for some of the expenses resulting from crimes involving violence or abuse.

TYPES OF ASSISTANCE:**FORMULA GRANTS****USES AND USE RESTRICTIONS:**

Funds under this program shall be used by the States for awards of compensation benefits to crime victims, with the following exception: States may retain up to 5 percent of their total grant for administrative and training purposes. As provided in recent VOCA amendments, formula grant funds to an eligible State crime victim compensation program is based on 60 percent of the amounts States expended during the fiscal year preceding the year of collections for the Crime Victims Fund, other than amounts awarded for property damage. If the sums available in the Fund for grants under this program are insufficient to provide grants of 60 percent as provided above, grants from the sums available will be made to each eligible crime victim compensation program so that all such programs receive the same percentage of the amounts awarded by such programs during the preceding fiscal year, other than amounts awarded for property damage. A crime victim compensation program is an eligible crime victim compensation program if (1) such program is operated by a State and offers compensation to victims and survivors of victims of criminal violence, including drunk driving and domestic violence for: (A) medical expenses attributable to a physical injury resulting from a compensable crime, including expenses for mental health counseling and care; (B) loss of wages attributable to a physical injury resulting from a compensable crime; and (C) funeral expenses attributable to a death resulting from a compensable crime; (2) such program promotes victim cooperation with the reasonable requests of law enforcement authorities; (3) such State, possession or territory certifies that grants received under this program will not be used to supplant funds otherwise available to provide crime victim compensation; (4) such program, as to compensable crimes occurring within the State, possession or territory, makes compensation awards to victims who are nonresidents of the State, possession or territory on the basis of the same criteria used to make awards to victims who are residents of the State, possession or territory; (5) such program provides compensation to victims of Federal crimes occurring within the State on the same basis that such program provides compensation to victims of State crimes; (6) such program does not, except pursuant to rules issued by the program to prevent unjust enrichment of the offender, deny compensation to any victim because of that victim's familial relationship to the offender, or because of the sharing of a residence by the victim and the offender; (7) such program does not provide compensation to any person who has been convicted of an offense under Federal law with respect to any time period during which the person is delinquent in paying a fine, other monetary penalty, or restitution imposed for the offense; and (8) such program provides such other information and assurances related to the purposes of this section as the Director may reasonably require. Section 1403(c), any amount of crime victim compensation that the applicant receives through a crime victim compensation program under this section shall not be included in the income of the applicant until the total amount of assistance that the applicant receives from all such programs is sufficient to fully compensate the applicant for losses suffered as a result of the crime. As used in this section; (1) the term "property damage" does not include damage to prosthetic devices, eyeglasses or other corrective lenses, or dental devices; (2) the term "medical expenses" includes, to the extent provided under the eligible crime victim compensation program, expenses for eyeglasses and other corrective lenses, for dental services and devices and prosthetic devices, and for services rendered in accordance with a method of healing recognized by the law of the State; (3) the term "compensable crime" means a crime the victims of which are eligible for compensation under the eligible crime victim compensation program, and includes crimes involving driving while intoxicated and domestic violence; and (4) the term "State" includes the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, and any other possession or territory of the United States.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2009: OVC supports the development of training, technical assistance, and demonstration projects to expand and improve the quality of services to crime victims. In recent years, OVC has directed substantial funding to developing resources for the field that will assist victim advocates and other allied practitioners in reaching and serving victims from populations that have been largely underserved including victims with disabilities, immigrant victims, victims in rural areas or large urban centers, victims from cultural, ethnic and racial minority groups, teen victims, and victims who are Lesbian, Gay, Bisexual, Transgendered, and Questioning. Serving child and adult victims of sexual assault remains problematic for many communities and OVC continues to support several training and technical resources that foster the replication of Sexual Assault Response Teams across the nation, OVC also funds a biennial Sexual Assault Response Team (SART) National Training Conference to provide multi-disciplinary training to SART members. Various other solicitations provide funding for projects in Indian Country. These grants support victim assistance programs for Indian tribes under Federal criminal justice jurisdiction, including 17 victim assistance programs, one elder abuse demonstration program, a training and technical assistance grant for OVC's American Indian/Alaska Native grantees, tribal CASA programs, grants to support faith-based organizations which provide counseling services to American Indian/Alaska Native crime victims and training to tribal leaders on the critical role of their support of tribal victim assistance programs. OVC also has funded the planning and implementation of State Victim Assistance Academies to meet the entry-level educational and training needs of a broad range of victim assistance providers and allied professionals who work directly with victims of crime. OVC also supports public awareness initiatives on crime victims' rights and issues, including the annual dissemination of a resource kit to the field to assist their activities during National Crime Victims Rights Week (NCVRW) and the sponsorship of an annual NCVRW awards ceremony for exemplary service providers and organizations. OVC has funded several key projects that focus on strengthening collaboration and cross-training between victim assistance and faith-based providers, in order to improve services for crime victims. OVC has continued to fund assistance and services for victims of terrorist attacks. Assistance has included toll-free information lines, Family web sites, informational briefings, travel to criminal Justice proceedings, and mental health counseling. In addition, OVC works in liaison with other Federal agencies to coordinate services for victims of terrorism; has worked with the Center for Mental Health Services at HHS to develop training for mental health service providers on assisting victims of terrorism and mass violence; is working with the Office for Domestic Preparedness to provide training to enhance the capacity of first responders to deal effectively with victims of terrorism; provides funding for a community-based assessment and planning process to help states and local communities design and implement a strategic plan for responding to victims of criminal mass violence; and provides funding to track kidnapped children taken across international borders (in parental abductions) to help their left-behind parents attend court hearings and return to

the US with their children. In FY 2009, OVC continued many of these projects as well as set aside money in the Antiterrorism Emergency Reserve to respond to future incidents of terrorism and mass violence occurring both within the United States and abroad and to fund an International Terrorism Victim Expense Reimbursement Program. Other examples of programs to be funded in FY 2009 include intensive case management programs for family members of homicide victims in rural areas; tribal victim assistance programs, including the Tribal Victim Assistance Program, the Counseling and Faith-Based Services in Indian Country program and the National Court-Appointed Special Advocates in Indian Country initiative; identity theft victim assistance collaborative networks; and new public awareness and outreach programs focused on underserved communities as well as national-scope partnership projects with allied professionals. 16.606 STATE CRIMINAL ALIEN ASSISTANCE PROGRAM

SCAAP

FEDERAL AGENCY:

Bureau of Justice Assistance, Department of Justice

OBJECTIVES:

The State Criminal Alien Assistance Program (SCAAP) is a payment program designed to provide federal assistance to states and localities that incur costs for incarcerating undocumented criminal aliens who are being held as a result of state and/or local charges or convictions. BJA administers this program in conjunction with the Department of Homeland Security's (DHS) Immigration and Customs Enforcement (ICE), and U.S. Citizenship and Immigration Services branches.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

The Department of Justice Reauthorization Act of 2005 (Public Law 109-162, Title XI) included the following requirement regarding the use of SCAAP funds: "Amounts appropriated pursuant to the authorization of appropriations in paragraph (5) that are distributed to a State or political subdivision of a State, including a municipality, may be used only for correctional purposes." All funds must be used for correctional purposes only. To be eligible for reporting, inmates must have been convicted of a felony or second misdemeanor for violations of state or local law, and housed in the applicant's state or local correctional facility for 4 or more consecutive days during the reporting period. Once a person meets these criteria, all pre-trial and post-conviction time served may be included in the application. Salary information reported in the SCAAP application must reflect the total salaries and wages paid to full and part-time correctional officers and others who meet the SCAAP definition. See the

SCAAP Guidelines at <http://www.ojp.usdoj.gov/BJA/>. Funds may be used only for correctional purposes. BJA may further define the eligible uses of funds. For further information, see <http://www.ojp.usdoj.gov/BJA/grant/scaap.html>.

Applicant Eligibility:

Eligible applicants include States, the District of Columbia, Puerto Rico, Guam, the Virgin Islands and local jurisdictions exercising authority with respect to the incarceration of an undocumented criminal alien. This covers state prison facilities (including those housing juveniles convicted as adults of felony offenses or two or more misdemeanors) and local jails, whether operated by counties or cities. Applicants are generally States and units of local government. Note: Only one application is accepted from each separate political division (i.e., State, county, city).

Beneficiary Eligibility:

States, the District of Columbia, Puerto Rico, Guam, the Virgin Islands and local jurisdictions.

Credentials/Documentation:

Applicants who are seeking funding must complete an electronic application form via the Office of Justice Programs Grants Management System (GMS). Inmate data, including the proper inmate identifiers, will either be manually key-stroked into the on-line application system, or submitted on-line by electronically attaching the applicable portions of the applicants inmate databases. The authorized official certifies compliance with all SCAAP requirements, including that the applicant has been authorized by the Chief Executive Officer of the applicable unit of government; the inmate identifiers required have been submitted to BJA in the proper format(s) for Immigration and Customs Enforcement (ICE) verification within the prescribed deadlines; all inmates counted by the applicant have been convicted of either a felony or two misdemeanor offenses under the applicant's law; and, only salary costs for corrections officers were included in the Total Salary Costs. By certifying on-line, the authorizing signing official is also assuring that all federal certifications and assurances are being met. The certification and assurance forms (Assurances, OJP Form 4000/3 and Certifications Regarding Lobbying; Debarment, Suspension and Other Responsibility Matters; and Drug-Free Workplace Requirements, OJP Form 4061/6) are provided on-line to allow applicants to review and accept them electronically. This program is excluded from coverage under OMB Circular No. A-87.

Awards are announced after the ICE inmate verification process is done. Technical assistance is available to applicants for preparation of the on-line application process by calling the OJP Grants Management System Hotline at 1-888-549-9901.

Award Procedure:

The final payment process requires that all applications and all data be fully processed and verified before any payments are made. Inmate data will be verified by the Immigration and Customs Enforcement. ICE will attempt to match the inmate data records provided to records in its databases to obtain the maximum number of confirmed matches. These matches are expected to include three categories: 1) those positively identified (matched) as qualifying undocumented criminal aliens; 2) those unknowns and 3) those positively identified as non-criminal aliens. Applicants will be given credit for a percentage of inmates whose eligibility cannot be determined through positive identification or "match," but have valid foreign countries of birth. Payments will be based on the days of incarceration for the verified number of aliens

incarcerated by each applicant. Payments are granted by the Director of the Bureau of Justice Assistance, Office of Justice Programs, Department of Justice. The payment must be accepted on-line and the acceptance will effect a simultaneous assurance of compliance with conditions. BVP

FEDERAL AGENCY:

Bureau of Justice Assistance, Department of Justice

AUTHORIZATION:

Bulletproof Vest Partnership Grant Act of 1998, Public Law 105-181, June 16, 1998, and Bulletproof Vest Program Act of 2000, Public Law 106-517.

OBJECTIVES:

To protect the lives of law enforcement officers by helping State, local, and tribal law enforcement agencies provide officers with armored vests.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

The program pays up to 50 percent of the total cost of each vest order. Total cost includes the cost of the vests, vest carriers, attachments, inserts, and covers considered integral or essential for its proper care, use, and wearability, shipping, handling, fitting charges, and applicable taxes. The total invoiced price, after all vendor and prompt payment discounts have been deducted, is what the Bureau of Justice Assistance (BJA) uses to determine the Federal match. This program only allows the purchase of body armor that has been tested and found to comply with applicable ballistic and stab standards promulgated by the National Institute of Justice's (NIJ) Standard 0101.03 Ballistic Resistance of Police Body Armor. In FY 2001, stab-resistant body armor was also included in the program as an allowable purchase.

Applicant Eligibility:

Only chief executives of jurisdictions (or their designees) may apply for funds. Jurisdictions are defined as general purpose units of local government (e.g., cities, towns, townships, boroughs, counties, etc.), Federally-recognized Indian tribes, the 50 State governments, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, American Samoa, Guam, and the Northern Mariana Islands. The chief executive of the jurisdiction registers on-line, submits the jurisdiction application, and requests payment for completed vest orders.

Beneficiary Eligibility:

Only law enforcement officers may receive vests through this program. According to the Act, "law enforcement officer" means any officer, agent, or employee of a State, unit of local government, or an Indian tribe authorized by law or by a government agency to engage in or supervise the prevention, detection, or investigation of any violation of criminal law, or authorized by law to supervise sentenced criminal offenders. Eligible officers may be full-time, part-time, paid or volunteer.

Credentials/Documentation:

Eligible jurisdictions must be general purpose units of local government, Federally-recognized Indian tribes, the 50 state governments, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, American Samoa, Guam, and the Northern Mariana Islands. The validity of the on-line registration process is verified through independent reviews which may include certification by the banking institutions serving the jurisdiction, the U.S. Census Bureau, and agencies within the U.S. Department of Justice. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

This is an Internet-based program. The jurisdiction is required to complete and submit an on-line registration form, providing information about the jurisdiction's chief executive officer, program contact person, and electronic banking information. The registration process is handled through the program's web site <http://vests.ojp.gov>. For jurisdictions without Internet capability, other means of registration are available. Only those jurisdictions with approved registrations are permitted to make application. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. The jurisdiction submits the application to BJA via the Internet web site <http://vests.ojp.gov>. On-line instructions guide the jurisdiction through the application process. Law enforcement agencies or agencies with law enforcement functions which meet the Act's definition, will assist in completing the jurisdiction's on-line application by indicating the types, numbers, and costs of vests they intend to order. For jurisdictions and/or agencies without Internet capability, other means of application are available. Only those jurisdictions that complete and submit applications will be eligible for matching funds from BJA.

Award Procedure:

Applications received by BJA are reviewed for completeness, accuracy, and compliance with all program requirements. Each application is then checked against the availability of funds to cover up to 50 percent of the application's total cost, in keeping with established criteria for program fund allocation. When all checks are complete and the application approved, the jurisdiction is notified through e-mail that the necessary funds have been obligated.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

A minimum of 15 working days may be required for complete registration validation, although jurisdictions and law enforcement agencies will have immediate access to certain program components during this validation process. A minimum of 20 working days may be required after the program closes for approval of the jurisdiction's application for funding. A minimum of 25 working days may be required for the electronic transfer of funds from the U.S. Treasury to the jurisdiction's bank account, once the request for funds has been received, reviewed, and approved by the Office of Justice Programs.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: Percent: 50%. The program requires that each applicant jurisdiction be responsible for providing at least 50 percent of the cost of each vest purchased. Tribal governments may use Federal funds to provide this match; all other jurisdictions must use nonfederal match funds. Nonfederal fund sources include State and/or local jurisdiction revenues, private or personal funds, and contributions from insurance or workman's compensation consortiums. Asset forfeiture funds may also be used to meet the jurisdiction's matching requirement. Beginning in FY 2002, changes (Bulletproof Vest Partnership Act of 2000; Public Law 106-517) gives preference to small jurisdictions (those populations below 100,000) guaranteeing them the full 50 percent match payment before payments are calculated and approved for larger jurisdictions. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Jurisdictions with approved applications must request the federal match no later than September 30th of the fourth federal fiscal year following the end of the federal fiscal year in which their application was approved. 16.727 ENFORCING UNDERAGE DRINKING LAWS PROGRAM

FEDERAL AGENCY:

Office of Juvenile Justice and Delinquency Prevention, Department of Justice

AUTHORIZATION:

The statutory authority for the Enforcing Underage Drinking Laws (EUDL) Block Grant Program may be found within Section 504 of the Juvenile Justice and Delinquency Prevention Act, 42 U.S.C. 5783. Congress has delegated the authority to administer the EUDL Program to the Office of Juvenile Justice and Delinquency Prevention (OJJDP), in the Department of Justice's (DOJ's) Office of Justice Programs (OJP) under the Consolidated Appropriations Act, 2010, Public Law 111-117.

OBJECTIVES:

The EUDL Discretionary Program supports and enhances states' and local jurisdictions' efforts to prohibit the sale of alcoholic beverages to minors and the purchase and consumption of alcoholic beverages by minors. (For the purpose of this solicitation, "minors" are defined as individuals under the age of 21.) Activities under the EUDL Program may include: -Statewide task forces of state and local law enforcement and prosecutorial agencies to target establishments suspected of a pattern of violations of state laws governing the sale and consumption of alcohol by minors. -Public advertising programs to educate establishments about statutory prohibitions and sanctions. -Innovative programs to prevent and combat underage drinking.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

The Enforcing the Underage Drinking Laws (EUDL) Program allocates block grants for every state and the District of Columbia to enforce state laws prohibiting the sale of alcoholic beverages to minors and to prevent the purchase or consumption of alcoholic beverages by minors. From fiscal years (FYs) 1998 to 2009, Congress appropriated \$25 million annually to OJJDP for its EUDL program. In fiscal year 2010, a total of \$25 million will be awarded as block and discretionary grants in the following manner: Funds will be dispersed in the amount of \$356,400 to each State, each Territory, and the District of Columbia in block grants totaling \$19,958,400 to support and enhance efforts by States, in cooperation with local jurisdictions, to prohibit the sale of alcoholic beverages to, or consumption of alcoholic beverages by minors. Funds will be dispersed to support discretionary program activities in local jurisdictions, as well as training and technical assistance to all States. To support local discretionary programming activity, funds plan to be competitively awarded to State agencies receiving block grants. The local programs implement the comprehensive approach to curtailing access and consumption of alcoholic beverages by minors, including the enforcement of laws pertaining to underage alcohol purchase, possession, and use. For purposes of this initiative, minors are defined as individuals under 21 years of age. These funds cannot be used to supplant existing programs and activities (Supplanting

The designated State agencies may apply to receive a Discretionary Grant. Their applications must detail a comprehensive approach to curtailing access and consumption of alcoholic beverages by minors, including the enforcement of underage drinking laws and how that approach will be implemented by State-selected local communities. Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching Requirements: The Bureau of Justice Statistics (BJS) calculates, for each state and territory, a minimum base allocation which, based on the congressionally mandated JAG formula, can be enhanced by (1) the states share of the national population, and (2) the states share of the country's Part I violent crime statistics. Once the State funding is calculated, 60 percent of the funding is awarded to the State and 40 percent to the eligible units of local government. State also have a variable percentage of the allocation that is required to be passed through to units of local government. This amount, as calculated by BJS, is based on each State's crime expenditures. Additionally, the formula then calculates direct allocations for local governments within each state, based on their share of the total violent crime reported within the state. Local governments entitled to at least \$10,000 awards may apply directly to BJA for local JAG grants. There is no match required at the Federal level. However matching is an effective strategy for states and local units of government to expand justice funds and build buy-in for local criminal justice initiatives.
