This short survey will be made available to you at the end of the semester, providing you a chance to comment on how this class is taught. I am very interested in the feedback I get from students, as I work to continually improve my teaching. I consider the SETE to be an important part of your participation in this class.

Assignment Policy:

Journal - *Students' are required to keep and maintain a journal that includes a brief summary form (form will be passed out on first day of class) of each theory, a scholarly article that tests the week's theory (each of these articles will be disseminated by me) and a corresponding news article for each theory (student must find and provide).*

Articles should be double spaced, 1 inch margins, and 12 point Times New Roman font. **There are 11 article summaries, however, it should be noted that the number of article summaries due will be dependent on the flow of the class during the semester.** The summaries should identify the author(s) key points and findings and provide critical consideration of how the work compares to the rest of the scheduled readings (agreements, contradictions, etc.). Additionally, it is required at the end of each summary that the articles proper citation be listed in APA format (see APA handbook for help). Finally, each student will provide one class discussion question about the article following the APA citation.*

In order to receive the full credit, each student is required to come to class PREPARED (having read the required assignments- text and article) and ACTIVELY participate in the discussion using the assigned reading material. If the student is prepared and participates in the discussion they will receive full credit, if they are not prepared and participate they will receive partial credit, and if they are absent or do not participate they will receive no credit.*
