**Question: How do I deter cheating on online tests and quizzes?**

**Answer:** Pull random questions from question pools in your course.

1. After building a new test, hover over 'Reuse Question' button at the top of the screen
2. Click 'Create a Random Block'
3. In the section labeled 'Pool', click checkbox for the appropriate question pool
4. Scroll down
5. In the section labeled 'Question Types', click radio button for 'All Pool Questions'
6. Click 'Submit'
7. Change the 'Number of Questions to display' to the number you want from the pool
8. Click 'Submit'.
9. Change the 'Points per question' to the appropriate number.
10. Click 'Submit'.
11. Click 'Ok'
