# University of North Texas at Dallas Spring 2013 SYLLABUS

l	BIOL2312: Anatomy and Physiology II Laboratory : 1Hrs				
Dep	artment of	Health and Life Sciences Division of Liberal Arts and Science	es		
Instructor Nam	e:	Dr. Aubrey Frantz			
Office Location:		Room 251, Building 2			
Office Phone:		972-338-1523			
Email Address: <u>au</u>		aubrey.frantz@unt.edu			
Office Hours: T 2:00-4:00					
R 2:00-4:00					
	(If you need another time, please contact me by email)				
Classroom Loo		bunders Hall 240			
Class Meeting	Days & Time	es: F 8:30-11:20			
Course Catalog Description:	funct respin majo	han Anatomy and Physiology II Laboratory. 1 hour. Laboratory studies examining stional anatomy and physiology of the human body including the endocrine, diges iratory, cardiovascular, urinary and reproductive systems. For kinesiology, dance ors and allied health students. May be used to complete a portion of the Natural ences requirements of the University Core Curriculum.			
Prerequisites:		and BIOL2311			
Co-requisites:	BIOL2302	2

# Course Outline

This schedule is subject to change by the instructor. Any changes to this schedule will be communicated by the instructor in class.

TIMELINE	Exercises	
1/18	No Lab	
1/25	Syllabus and Course information	
	Lab Safety	
	27: Functional Anatomy of the Endocrine Glands	
2/1	29: Blood	
	30: Anatomy of the Heart	
	32: Anatomy of Blood Vessels	
2/8	33: Human Cardiovascular Physiology	
	34: Frog Cardiovascular Physiology	
	Endocrine and Cardiovascular System Jeopardy	
2/15	No Lab	
2/22	35: The Lymphatic System and Immune Response	
3/1	EXAM I	
3/8	36: Anatomy of the Respiratory System	
	37: Respiratory System Physiology	
	Virtual Lab #3 Respiratory System	
3/22	38: Digestive System	
	39: Chemical and Physical Processes of Digestion	
3/29	Virtual Lab #4 Digestive System	
	Digestive System and Metabolism Jeopardy	
4/5	40: Anatomy of the Urinary System	
	41: Urinalysis	
4/12	42: Anatomy of the Reproductive System	
	43: Physiology of Reproduction	
	Virtual Lab #5 Reproductive System	
4/19	44: Survey of Embryonic Development	
	45: Principles of Heredity	
-	Reproductive System and Heredity Jeopardy	
4/26	EXAM II	
5/3	No Lab	

# **Course Evaluation Methods**

This course will utilize the following instruments to determine student grades and proficiency of the learning outcomes for the course.

**Lab Exams** – There will be two lab exams, each worth 100 points. Attendance is required for all exams. Any student found cheating on any exam will receive a zero for that exam and may face disciplinary action(s)

**Review Sheets -** Review sheets corresponding to the laboratory exercises are due at the beginning of the class period. Each set of Review sheets are worth 20 points. *Late assignments will be graded, but with a penalty of 10% each day it is late.* 

**Pop quizzes -** 4 pop quizzes (5 points/quiz) will be administered at instructor's discretion.

**Anatomy and Physiology Jeopardy** – Students will participate in our own version of Anatomy and Physiology Lab Jeopardy. This activity will be used for review purposes and will provide students the opportunity to earn

## bonus points.

#### **Grading Matrix:**

Instrument	Value (points)
Exam I	100
Exam II	100
Review Sheets	180
Pop Quizzes	20
Total:	400

## Grade Determination:

A = 90% or betterB = 80 - 89%C = 70 - 79%D = 60 - 69%F = less than 60%

## **University Policies and Procedures**

## Students with Disabilities (ADA Compliance):

The University of North Texas Dallas faculty is committed to complying with the Americans with Disabilities Act (ADA). Students' with documented disabilities are responsible for informing faculty of their needs for reasonable accommodations and providing written authorized documentation. Grades assigned before an accommodation is provided will not be changed as accommodations are not retroactive. For more information, you may visit the Student Life Office, Suite 200, Building 2 or call Laura Smith at 972-780-3632.

## **Student Evaluation of Teaching Effectiveness Policy:**

The Student Evaluation of Teaching Effectiveness (SETE) is a requirement for all organized classes at UNT. This short survey will be made available to you at the end of the semester, providing you a chance to comment on how this class is taught. I am very interested in the feedback I get from students, as I work to continually improve my teaching. I consider the SETE to be an important part of your participation in this class.

#### **Exam Policy:**

Exams should be taken as scheduled. No makeup examinations will be allowed except for documented emergencies (See Student Handbook).

#### Academic Integrity:

Academic integrity is a hallmark of higher education. You are expected to abide by the University's code of Academic Integrity policy. Any person suspected of academic dishonesty (i.e., cheating or plagiarism) will be handled in accordance with the University's policies and procedures. Refer to the Student Code of Academic Integrity at <u>http://www.unt.edu/unt-</u>

dallas/policies/Chapter%2007%20Student%20Affairs,%20Education,%20and%20Funding/7.002%20Code%20of% 20Academic\_Integrity.pdf for complete provisions of this code.

In addition, all academic work submitted for this class, including exams, papers, and written assignments should include the following statement:

On my honor, I have not given, nor received, nor witnessed any unauthorized assistance that violates the UNTD Academic Integrity Policy.

#### **Bad Weather Policy:**

On those days that present severe weather and driving conditions, a decision may be made to close the campus. In case of inclement weather, call UNT Dallas Campuses main voicemail number (972) 780-3600 or search postings on the campus website <u>www.unt.edu/dallas</u>. Students are encouraged to update their Eagle Alert contact information, so they will receive this information automatically.

## **Attendance and Participation Policy:**

The University attendance policy is in effect for this course. **Class attendance and participation is required for** *this laboratory course.* The dynamic and intensive nature of this course makes it impossible for students to make-up or to receive credit for missed classes. Students who miss 2 or more laboratory sessions are in danger of failing this course. Attendance and participation in all class meetings is essential to the integration of course material and your ability to demonstrate proficiency. Students are responsible to notify the instructor if they are missing class and for what reason. Students are also responsible to make up any work covered in class. It is recommended that each student coordinate with a student colleague to obtain a copy of the class notes, if they are absent.

## **Diversity/Tolerance Policy:**

Students are encouraged to contribute their perspectives and insights to class discussions. However, offensive & inappropriate language (swearing) and remarks offensive to others of particular nationalities, ethnic groups, sexual preferences, religious groups, genders, or other ascribed statuses will not be tolerated. Disruptions which violate the Code of Student Conduct will be referred to the Office of Student Life as the instructor deems appropriate.
