

University of North Texas at Dallas

Syllabus

CSCE 1040	Computer Science II (3 Hrs)	Fall 2016
Department:	Mathematics and Information Sciences	School: Liberal Arts and Life Sciences
Instructor name:	Dr. Saif Al Sultan	
Office Location:	Founders Hall 222	
Office Phone:	972-338-1539	
Email Address:	Saif.alsultan@untdallas.edu	
Office Hours:	TuTh 10:00 AM – 11:00 AM & 1:00 PM – 2:00 PM MW 12:00 PM – 2:00 PM Or by appointments	
Classroom Time& Location:	MW: 2:30PM - 3:50PM in DAL1-226	
Course Catalog Description:	Continuation of CSCE 1030. Software design, structured programming and object oriented programming.	
Prerequisites:	CSCE 1030 Computer Science I, Co-requisite of MATH 1600 or equivalent.	
Required Text:	<ul style="list-style-type: none"> • <i>Guide to Programming in Java</i>, by Marrelli, 3rd Edition, ISBN: 9780821962145, EMC Publishing. 	
Recommended Texts and References:		
Access to Learning Resources:	UNT Dallas Library: phone: (972) 780-3625; web: http://www.unt.edu/unt-dallas/library.htm UNT Dallas Bookstore: phone: (972) 780-3652; e-mail: 1012mgr@fhcg.follett.com	
Course Goals:	The goals of this course are:	
	<ul style="list-style-type: none"> • To enhance students' skills in object-oriented programming (OOP). • To solve business and life problems through applying the object-oriented programming method. 	
Student Learning Outcomes:	Upon successful completion of this course, the student will be able to:	
	<ul style="list-style-type: none"> • Explain the characteristics of OOP, such as: classes, attributes, methods, objects, inheritance, composition, and polymorphism. In addition, explain the inter dependency between OOP and the structured programming. • Develop and apply programs using object-oriented methodology and utilizing JAVA programming language. • Use arrays as a structure for storing data. • Design and implement Graphical User Interfaces (GUIs) utilizing JAVA programming language. • Demonstrate an understanding of the Stack, Queue and linked list Data Structures. 	

Course Outline

Priority will be given to understanding the material in depth. This schedule is subject to change by the instructor, any changes to this schedule will be announced in class.

Date	Topics	Weeks
8/22	Overview of Java Programming language	Week 1
8/24	Overview of conditional control structure, loop structure and methods.	Week 1
8/29	Exercises	Week 2
8/31	Introduction to Object-Oriented Programming (classes and objects)	Week 2
9/5	Labor Day	Week 3
9/7	Introduction to Object-Oriented Programming (classes and objects)	Week 3
9/12	Review and Exercises	Week 4
9/14	Composition	Week 4
9/19	Inheritance	Week 5
9/21	Inheritance	Week 5
9/26	Polymorphism	Week 6
9/28	Abstract classes and interfaces	Week 6
10/3	Review and Exercises	Week 7
10/5	Exam 1	Week 7
10/10	Arrays (One dimensional array)	Week 8
10/12	Arrays (Two dimensional array)	Week 8
10/17	Arrays (Two dimensional array)	Week 9
10/19	Review and Exercises	Week 9
10/24	GUIs and Event-Driven Programming	Week 10
10/26	GUIs and Event-Driven Programming	Week 10
10/31	GUIs and Event-Driven Programming	Week 11
11/2	Review and Exercises	Week 11
11/7	Exam 2	Week 12
11/9	Recursion and Advanced Algorithms	Week 12
11/14	Recursion and Advanced Algorithms	Week 13
11/16	The Stack Data Structure	Week 13
11/21	The Queue Data Structure	Week 14
11/23	The Queue Data Structure	Week 14
11/28	The Linked List Data Structure	Week 15
11/30	The Linked List Data Structure	Week 15
12/5	Review and Exercises	Week 16
12/12	Final Exam (2:00PM – 4:00PM)	

Course Evaluation Methods

This course will utilize the following instruments to determine student grades and proficiency of the learning outcomes for the course. The following matrix is subject to change by the instructor, any changes to this schedule will be announced in class.

Grading Matrix

Assessment method	Points	Total
Assignments/quizzes	Assignments/quizzes will be given on different topics with different weights. Assignments will involve designing and writing computer programs to apply the concepts discussed in each topic.	30%
Exam 1	20%	20%
Exam 2	25%	25%
Final Exam	25%	25%
Total:		100%

The following standard grading scale will be used to determine your final letter grade:

A = 90% or better

B = 80 – 89 %

C = 70 – 79 %

D = 60 – 69 %

F = less than 60%

University Policies and Procedures

Students with Disabilities (ADA Compliance):

Chapter 7(7.004) Disability Accommodations for Students

The University of North Texas at Dallas makes reasonable academic accommodation for students with disabilities. Students seeking accommodations must first register with the Disability Services Office (DSO) to verify their eligibility. If a disability is verified, the DSO will provide you with an accommodation letter to be delivered to faculty to begin a private discussion regarding your specific needs in a course. You may request accommodations at any time, however, DSO notices of accommodation should be provided as early as possible in the semester to avoid any delay in implementation. Note that students must obtain a new letter of accommodation for every semester and must meet/communicate with each faculty member prior to implementation in each class. Students are strongly encouraged to deliver letters of accommodation during faculty office hours or by appointment. Faculty members have the

authority to ask students to discuss such letters during their designated office hours to protect the privacy of the student. For additional information see the Disability Services Office website at <http://www.untdallas.edu/disability>. You may also contact them by phone at 972-338-1777; by email at UNTDisability@untdallas.edu or at Building 2, room 204.

Course Evaluation Policy:

The student evaluation of teaching effectiveness is a requirement for all organized classes at UNT Dallas. This short survey will be made available to you at the end of the semester, providing you a chance to comment on how this class is taught. I am very interested in the feedback I get from students, as I work to continually improve my teaching. I consider a student's evaluation to be an important part of your participation in this class.

Assignment Policy:

All assignments are due in class on the due dates stated on the assignments. No late assignments will be accepted, except for documented emergencies. All assignments are to be done individually unless stated otherwise on the assignment.

Make-Up Exams:

Exams should be taken as scheduled. No makeup examinations will be allowed, except for documented emergencies (See Student Handbook).

Email Policy:

Use your Blackboard email account to contact me. You should check your email every day as you are responsible for all information I send out. Due to privacy rights, I will not discuss grades over the phone and I will only answer emails from your Blackboard account.

Academic Integrity:

Academic integrity is a hallmark of higher education. You are expected to abide by the University's code of Academic Integrity policy. Any person suspected of academic dishonesty (i.e., cheating or plagiarism) will be handled in accordance with the University's policies and procedures. Refer to the Student Code of Academic Integrity at http://www.untdallas.edu/sites/default/files/page_level2/pdf/policy/7.002%20Code%20of%20Academic%20Integrity.pdf for complete provisions of this code.

Academic dishonesty includes, but is not limited to, cheating, plagiarizing, fabrication of information or citations, facilitating acts of dishonesty by others, having unauthorized possession of examinations,

submitting work of another person or work previously used without informing the instructor, or tampering with the academic work of other students.

Inclement Weather Policy:

On those days that present severe weather and driving conditions, a decision may be made to close the campus. In case of inclement weather, call UNT Dallas Campuses main voicemail number (972) 780-3600 or search postings on the campus website www.unt.edu/dallas. Students are encouraged to update their Eagle Alert contact information, so they will receive this information automatically.

Attendance and Participation Policy:

The University attendance policy is in effect for this course. Class attendance and participation is mandatory because the class is designed as a shared learning experience and because essential information not in the textbook will be discussed in class. The dynamic and intensive nature of this course makes it impossible for students to make-up or to receive credit for missed classes. Attendance and participation in all class meetings is essential to the integration of course material and your ability to demonstrate proficiency. Students are responsible to notify the instructor if they are missing class and for what reason. Students are also responsible to make up any work covered in class. It is recommended that each student coordinate with a student colleague to obtain a copy of the class notes, if they are absent. Successfully completing this class is a function of many factors. Two such factors are class attendance and assignment completion.

Diversity/Tolerance Policy:

Students are encouraged to contribute their perspectives and insights to class discussions. However, offensive & inappropriate language (swearing) and remarks offensive to others of particular nationalities, ethnic groups, sexual preferences, religious groups, genders, or other ascribed statuses will not be tolerated. Disruptions which violate the Code of Student Conduct will be referred to the Office of Student Life as the instructor deems appropriate.

Cell Phones:

Cell Phone use (or ringing) in class is strictly prohibited.
