University of North Texas at Dallas Spring 2013 SYLLABUS

CSCE 4550D.090: Introduction to Computer Security 3Hrs								
Depa	ertment of	M	athematics	& Information Sciences Division of Liberal Arts & Life Sciences				
Instruc	tor Name:		Gerar	d Rambally				
Office Location: DAL2-			DAL2-	-229				
			972-78	80-3093				
			gerara	d.rambally@unt.edu				
	Office Hours: Mon: 10:00 am – 1:00 pm; Wed: 4:00 pm – 7:00 pm.							
Virtual Office Hours:								
CI.	T 4º		DALOGA					
Class Meeting Days & Times:				Wed: 7:00 – 9:50 pm				
Class N	neeting Da	ys & III	nes:	wed: 7:00 – 9:30 pm				
Course	Catalog	Ι	Security go	als, threats, and vulnerabilities. Cryptography, program security, and operating system				
Descrip				rity goals, threats, and vulnerabilities. Cryptography, program security, and operating system rity issues. Basic network security. Planning, policies, and risk analysis.				
Descrip	JUIII.		security 1550	des. Dusic network security. Figurining, policies, and fisk undrysis.				
Prereq	uisites:	CSCE	2610D or C	CSCE 3600D				
Co-req	uisites:							
Required Text: Goodrich, M. and Tamassia, R. Introduction to Computer Security. Addison Wesley, 2011. ISBN: 0-321-51294-4								
	mended Te	ext						
Access to Learning Resources:			rces:	UNT Dallas Library: phone: (972) 780-3625; web: http://www.unt.edu/unt-dallas/library.htm UNT Dallas Bookstore: phone: (972) 780-3652; e-mail: 1012mgr@fheg.follett.com				
Course Goals or Overview: The goal of this course is to provide an introduction to general principles of computer security from an applied viewpoint.								
Studen	t Learning	Outcon	nes: At th	ne end of this course, the student will				
1	Demonstr	ate an ui	nderstanding	g of common cyber attacks.				
2		Demonstrate an understanding of techniques for identifying and defending against vulnerabilities in machines and networks, as well as methods for detecting and repairing infected systems.						
3	Demonstrate an understanding of the fundamental building blocks of secure systems such as encryption, digital							
	signatures, cryptographic protocols, and access control models.							
4	Demonstrate an understanding of the human, social, and economic aspects of computer security.							

Course Outline

This schedule is subject to change by the instructor. Any changes to this schedule will be communicated in class.

TOPICS	TIMELINE
1. Fundamental Concepts	Week of 1/14/13
2. Physical Security	Week of 1/21/13
3. Operating Systems Security	Week of 1/28/13
Exam 1	2/13/13
4. Malware	Week of 2/18/13
5. Network Security	Week of 2/25/13
6. Web Security	Week of 3/18/13
Exam 2	4/3/13
7. Cryptography	Week of 4/8/13
8. Security Models and Practice	Week of 4/15/13
Exam 3	5/1/13

Course Evaluation Methods

This course will utilize the following instruments to determine student grades and proficiency of the learning outcomes for the course.

Grading Matrix:

Instrument	Value (points or percentages)	Total
Assignments	8 assignments	40%
Exam 1	20%	20%
Exam 2	20%	20%
Exam 3	20%	20%
Total:		100%

Grade Determination:

A = 90% or better

B = 80 - 89 %

C = 70 - 79 %

D = 60 - 69 %

F = less than 60%

University Policies and Procedures

Students with Disabilities (ADA Compliance):

The University of North Texas Dallas faculty is committed to complying with the Americans with Disabilities Act (ADA). Any student requesting academic accommodations based on a disability is required to register with Disability Services each semester. A letter of verification for approved accommodations can be obtained from this office. Please be sure the letter is delivered to me as early in the semester as possible. Grades assigned before an accommodation is requested will not be changed as accommodations are not retroactive. Disability Services is located in the Student Life Office in DAL2, Suite 200 and is open 8:30a.m. – 5:00 p.m., Monday through Friday. The phone number is (972) 338-1775.

Student Evaluation of Teaching Effectiveness Policy:

The Student Evaluation of Teaching Effectiveness (SETE) is a requirement for all organized classes at UNT. This short survey will be made available to you at the end of the semester, providing you a chance to comment on how this class is taught. I am very interested in the feedback I get from students, as I work to continually improve my teaching. I consider the SETE to be an important part of your participation in this class.

Assignment Policy:

All assignments are due in class on the due dates stated on the assignments. No late assignments will be accepted. All assignments are to be done individually unless stated otherwise on the assignment.

Exam Policy:

Exams should be taken as scheduled. No makeup examinations will be allowed except for documented emergencies (See Student Handbook).

Academic Integrity:

Academic integrity is a hallmark of higher education. You are expected to abide by the University's code of Academic Integrity policy. Any person suspected of academic dishonesty (i.e., cheating or plagiarism) will be handled in accordance with the University's policies and procedures. Refer to the Student Code of Academic Integrity at http://www.unt.edu/unt-dallas/policies/Chapter%2007%20Student%20Affairs,%20Education,%20and%20Funding/7.002%20Code%20of%20Academic_Integrity.pdf for complete provisions of this code.

In addition, all academic work submitted for this class, including exams, papers, and written assignments should include the following statement:

On my honor, I have not given, nor received, nor witnessed any unauthorized assistance that violates the UNTD Academic Integrity Policy.

Bad Weather Policy:

On those days that present severe weather and driving conditions, a decision may be made to close the campus. In case of inclement weather, call UNT Dallas Campuses main voicemail number (972) 780-3600 or search postings on the campus website www.unt.edu/dallas. Students are encouraged to update their Eagle Alert contact information, so they will receive this information automatically.

Attendance and Participation Policy:

The University attendance policy is in effect for this course. Class attendance and participation is <u>mandatory</u> because the class is designed as a shared learning experience and because essential information not in the textbook will be discussed in class. The dynamic and intensive nature of this course makes it impossible for students to make-up or to receive credit for missed classes. Attendance and participation in all class meetings is essential to the integration of course material and your ability to demonstrate proficiency. Students are responsible to notify the instructor if they are missing class and for what reason. Students are also responsible to make up any work covered in class. It is recommended that each student coordinate with a student colleague to obtain a copy of the class notes, if they are absent.

Successfully completing this class is a function of many factors. Two such factors are class attendance and assignment completion.

Diversity/Tolerance Policy:

Students are encouraged to contribute their perspectives and insights to class discussions. However, offensive & inappropriate language (swearing) and remarks offensive to others of particular nationalities, ethnic groups, sexual preferences, religious groups, genders, or other ascribed statuses will not be tolerated. Disruptions which violate the Code of Student Conduct will be referred to the Office of Student Life as the instructor deems appropriate.

Cell Phones:

Cell Phone use (or ringing) in class is strictly prohibited.
