University of North Texas at Dallas Fall 2011 SYLLABUS

EDSE 4840	(Instructional Strategies and Classroom Management) (3Hrs)		
Department of N	Mathematics and Information Sciences Division of Liberal Arts and Sciences		
.			
Instructor Name:	Dr. Ali Shaqlaih		
Office Location:	Building 2, Room 227		
Office Phone:	972-338-1569		
Email Address:	ali.shaqlaih@unt.edu		
	:2:00-5:00pm; T: 1:00-2:00pm W: 1:00-5:00 pm, Lab; M: 1:00-2:00		
Classroom Locatio			
Class Meeting Tin	nes: T, R: 8:30-9:50 am		
Course Catalog Description:	The focus of the course is on preparing pre-service teachers to teach in secondary schools. We will discuss different instructional methods and class management skills to provide prospective teachers with an opportunity to reflect, question, become knowledgeable in instructional methods and class management. Major topics include teaching strategies, approaches to classroom management, student and teacher		
Prerequisites:	assessment, evaluation methods and use of technology in the classroom. EDSE 3800 and admission to teacher education program.		
Required Texts:	 Posamentier Alfred, <i>Teaching Secondary Mathematics, 8th edition</i>, ISBN: 978-0135000038 Gary D. Borich, Effective Teaching Methods: Research-Based Practice, 7th Edition. ISBN: 0-13-136718-8 Class notes and all the handouts distributed by the instructor in this class are as important as the textbook. 		
Recommended Text and References:	 Good, T. L. & Brophy. J. (2008). <i>Looking in Classrooms</i>, (10th Ed.). Boston: Allyn and Bacon/Pearson. Paul R. Burden, David M. Byrd, Methods for Effective Teaching: Meeting the Needs of All Students, 5/E. ISBN-10: 0136101046. 		
	 Kenneth D. Moore, Effective Instructional Strategies: From Theory to Practice. ISBN: 978-1-4129-5644-4. National Council of Teacher of Mathematics web, http://nctm.org 		
Access to Learn Resources:	ing UNT Dallas Library: phone: (972) 780-3625; web: http://www.unt.edu/unt-dallas/library.htm UNT Dallas Bookstore: phone: (972) 780-3652; e-mail: <u>1012mgr@fheg.follett.com</u>		

Course Goals			
At	the end of this course, the student will be able to		
	• Demonstrate knowledge and alternate ways to present classroom instruction for both direct-teaching and interactive lessons. (TEKS 1, INTASC 1, TEA 7).		
	• Create effective and supportive learning environments in the class (TEKS 5, INTASC 1, TEA 7).		
	 Plan daily lessons and units for secondary Math classes (TEKS 3, INTASC 7, TEA7). Teach effectively lessons using a variety of teaching methods (TEKS 3, INTASC 4, TEA 7). 		
	 Use technology as a tool to enhance teaching and learning in the classroom (INTASC 6). Design instruction and assessment based on an understanding of students, their needs, and professional educational standards and create a variety of learning activities. (TEKS 3, INTASC 1, 4, 8, TEA 7). 		
	• Describe appropriate management strategies and classroom tools that enhance students' academic success. (TEKS 5, INTASC 5).		
	• Use different assessment methods. (INTASC 8, TEA 8).		
Learning O	bjectives/Outcomes:		
•	Competency 2: The teacher understands student diversity and knows how to plan learning experiences and design assessments that are responsive to differences among students and that promote all students' learning.		
•	Competency 5: The teacher knows how to establish a classroom climate that fosters learning, equity and excellence and uses this knowledge to create a physical and emotional environment that is safe and productive.		
•	Competency 6: The teacher understands strategies for creating an organized a productive learning environment and for managing student behavior.		
•	Competency 7: The teacher understanding and applies principles and strategies for communicating effectively in varied teaching and learning contexts.		
•	Competency 8: The teacher provides appropriate instruction that actively engages students in the learning process.		
•	Competency 9: The teacher incorporates the effective use of technology to plan, organize, deliver and evaluate instruction for all students.		
•	Competency 10: The teacher monitors student performance and achievement; provides students with timely, high-quality feedback; and responds flexibly to promote learning for all students.		
•	Competency 13: The teacher understands and adheres to legal and ethical requirements for educators and is knowledgeable of the structure of education in Texas.		
Edu	Education Program Learning Outcomes:		
•	Content Knowledge: Students demonstrate knowledge of the relevant academic knowledge-base, including Foundations of Education, applicable to desired certification.		

• Pedagogical Knowledge: Candidates apply principles of effective instruction and classroom management to support motivation and learning.
• Knowledge of the Learner: Candidates will apply knowledge of human development and diversity to promote student learning.
• Professional Leadership and Advocacy: Candidates will engage in professional activities (i.e. service learning), that promote community involvement to develop leadership and advocacy skills.
• Professional Communication and Relationships: Candidates use appropriate verbal and non-verbal communication skills to sustain relationships to support learning.

Course Outline

This schedule is subject to change by the instructor. Any changes to this schedule will be announced in class. We will try to cover as much as we can from the following topics as time permits. The chapters from the text books that relate to these topics will be announced later.

TOPICS	TIMELINE
The effective teacher, the challenge of teaching, Understanding your students	Week of Aug.29, Sep.5
Goals, standards, objectives and planning	Week of sep.12, 19, 26
Instructional strategies, instructional models, problem solving, IBL	Weeks of Oct.3, 10,17
Instructional material, resources and technology	Weeks of Oct. 24, 31
Classroom management	Weeks of Nov.7, 14
Assessment	Weeks of Nov.21, 28
Presentations	Weeks of Nov.29, Dec.6

Course Evaluation

This course will utilize the following instruments to determine student grades and proficiency of the learning outcomes for the course.

Exams – Written in-class tests to measure knowledge of presented course material.

Participation – Class attendance and participation to ensure effective and cooperative learning.

Presentations- presentations that measures the students' implementation of the class material.

Quizzes – Biweekly quizzes to help the student keep with the material.

Portfolio- A variety of assignments to ensure practical training of the material presented in class.

Grading Matrix:

Instrument	Value	Total
Quizzes	5 quizzes at 20 points each	100
Hour Exams	2 exams at 100 points each	200
Participation	participation at 50 points	50

Presentations	Presentations	100
Portfolio	Different assignments	400
Final Exam	One comprehensive exam	150
Total:		1000

Grade Determination:

The following standard grading scale will be used to determine your final letter grade: A = 90% or better, B = 80 - 89%, C = 70 - 79%, D = 60 - 69%, F = less than 60%

Portfolio Content and Policy:

Each student will be asked to submit a completed portfolio of assignments. The due dates of each assignment will be announced in class. The contents will include but not be limited to:

1. Educational Autobiography (20 points)

Each student should write a brief description of his/her experiences as a student since childhood, good and bad, interesting and boring. What kind of Math teachers have you had, what methods do you remember, what worked and didn't work with you? How did things change as you got older-from elementary school, through high school, and into college? This write-up needs to be typed, double-spaced, up to two-page long with one-inch borders in 12 point font.

2. Journals (100 points)

There will be 5 journals throughout the course. A two page write-up is required for each journal and will be submitted electronically through blackboard by 4:00 pm of the due date. The write-up needs to be typed, double-spaced, two-page long with one-inch borders in 12 point font. Your journal should show a brief summary of the reading, should highlight three things you've learned from the reading and should have your reaction to the reading. The journal should have your name and date clearly marked in the top right corner of the outside page. Late journals will <u>NOT</u> be accepted.

3. <u>Lesson Plan (20 points)</u>

A lesson plan for a secondary class in Mathematics.

4. <u>Unit Plan (20 points)</u>

Develop a unit plan in high school Mathematics.

5. Assessment (20 points)

Each student will prepare an exam for a secondary class and develop a key and a grading policy.

6. Early Field Experience Observation Activities (200 points)

In order to earn credit for this course, you must complete 55 hours of early field experience in an assigned secondary school. You must document your field experience hours on the Early Field Experience Time Record and return this form to me signed by your mentor(s) by the due dates. It is your responsibility to schedule your hours in the school in cooperation with your assigned mentors. You may not count hours of field experience at schools other than your assigned school. You must also return an Early Field Experience Student Evaluation forms to me completed and signed by each of your mentor(s) by the due dates that will be specified in class. A total of 11 Early Field Experience Observation Activities must be completed. The due dates and additional instructions will be given in

class. At the end of the semester, each student's best 10 observations will be added to get a 200 possible-point total.

7. <u>Reflection on the Course (20 points)</u>

The student will write a reflection on what he/she has learned from the course and how he/she hope to apply it in a future classroom. This reflection should states the positive and negative aspects of the course, what things can be done to make the course more beneficial.

Presentations policy:

Each student will be asked to give few presentations. A 30 minute's teaching demonstration in one of the high school topics in Mathematics is required. The presentations will be evaluated on clarity, creativity, organization, classroom management, public speaking criteria and applying the instructional and management strategies that are presented in class.

Quizzes policy:

There will be 6 quizzes throughout the course. At the end of the semester, each student's best 5 quizzes will be added to get a 100 possible-point total. The quizzes will be given in the first 15 minutes of the class. The quiz usually covers the material that was discussed in the previous three meetings and the material that will be discussed in the quiz day. There will be <u>no make-ups</u> for missed quizzes for any reason.

Exams Policy:

Exams should be taken as scheduled in the class time. No makeup examinations will be allowed except for documented emergencies (See Student Handbook). The material that will be covered in the exams will be announced in class and the final exam will be comprehensive.

Make-up exam policy:

All requests for make-up exams MUST be submitted to the instructor in writing, with the supported documents. It is imperative that you contact your instructor as soon as possible (do **NOT** wait until you return to class!) and include a way that you can be reached.

General Policies & Procedures:

- The first and most fundamental expectation I have for everyone in the class is to respect one another. Among other things, this means that only one person speaks at a time, no one uses cell phones in class, read newspaper, no one works on anything not related to our class, and everyone will put forth an honest effort.
- It is the student's responsibility to stay abreast of all class announcements and changes made to this syllabus in class, whether present or not.
- Leaving and entering the class back multiple times is not allowed. You can leave the class if you are not returning or going to the bathroom or for an emergency. Leaving the class should be by the permission of the instructor.
- You are expected to review all graded quizzes, journals, assignments and exam papers as soon as they are returned. All questions about the grading of quizzes, homework or exam papers must be reported within seven calendar days of the date on which the paper was returned.
- You are fully responsible for the material covered in class either from the text or not.
- This class will be very active and I expect you to participate as much as possible. Don't be afraid to make mistakes or ask questions, the more you get involved, the better you'll do!

- To do well in this course attend class every meeting on time, be prepared to work for the full class time, be organized, bring all necessary materials to class and follow teacher directions.
- If you need help, please ask for it. My door will always be open and you should feel free to use email me if you have questions outside of school time.
- You have the abilities to do very well as long as you work hard.

Students with Disabilities (ADA Compliance):

The University of North Texas Dallas faculty is committed to complying with the Americans with Disabilities Act (ADA). Students' with documented disabilities are responsible for informing faculty of their needs for reasonable accommodations and providing written authorized documentation. For more information, you may visit the Office of Disability Accommodation/Student Development Office, Suite 115 or call Laura Smith at 972-780-3632.

Student Evaluation of Teaching Effectiveness Policy:

The Student Evaluation of Teaching Effectiveness (SETE) is a requirement for all organized classes at UNT. This short survey will be made available to you at the end of the semester, providing you a chance to comment on how this class is taught. I am very interested in the feedback I get from students, as I work to continually improve my teaching. I consider the SETE to be an important part of your participation *in this class*.

Bad Weather Policy:

On those days that present severe weather and driving conditions, a decision may be made to close the campus. In case of inclement weather, call UNT Dallas Campuses main voicemail number (972) 780-3600 or search postings on the campus website <u>www.unt.edu/dallas</u>. Students are encouraged to update their Eagle Alert contact information, so they will receive this information automatically.

Attendance and Participation Policy:

The University attendance policy is in effect for this course. Class attendance and participation is expected because the class is designed as a shared learning experience and because essential information not in the textbook will be discussed in class. The dynamic and intensive nature of this course makes it impossible for students to make-up or to receive credit for missed classes. Attendance and participation in all class meetings is essential to the integration of course material and your ability to demonstrate proficiency. A student can miss not more than three classes through the semester. A student will lose 5 points for each absence after the third absence. On the other hand, he/she will get 5 points bonus for not losing a class from the three excused absences. Coming to class late or leaving it early is considered an absence. Students are responsible to notify the instructor if they are missing class and for what reason. Students are also responsible to make up any work covered in class. It is recommended that each student coordinate with a student colleague to obtain a copy of the class notes, if they are absent.

Academic Integrity:

Academic integrity is a hallmark of higher education. You are expected to abide by the University's code of Academic Integrity policy. Any person suspected of academic dishonesty (i.e., cheating or plagiarism) will be handled in accordance with the University's policies and procedures. Refer to the Student Code of

Academic Integrity at http://www.unt.edu/unt-

dallas/policies/Chapter%2007%20Student%20Affairs,%20Education,%20and%20Funding/7.002%20Cod e%20of%20Academic_Integrity.pdf for complete provisions of this code.

In addition, all academic work submitted for this class, including exams, papers, and written assignments should include the following statement:

On my honor, I have not given, nor received, nor witnessed any unauthorized assistance that violates the UNTD Academic Integrity Policy.

Diversity/Tolerance Policy:

Students are encouraged to contribute their perspectives and insights to class discussions. However, offensive & inappropriate language (swearing) and remarks offensive to others of particular nationalities, ethnic groups, sexual preferences, religious groups, genders, or other ascribed statuses will not be tolerated. Disruptions which violate the Code of Student Conduct will be referred to the Center for Student Rights and Responsibilities as the instructor deems appropriate.

Important dates.	
Quiz 1	Sep.1
Journal 1	Sep. 7
Quiz2	Sep.15
Journal 2	Sep.21
First hour exam	Sep.29
Last day to withdraw with an automatic W	Oct. 4
Quiz 3	Oct.6
Journal 3	Oct.12
Quiz 4	Oct.20
Journal 4	Oct.26
Last day to drop with W or WF	Oct. 28
Quiz 5	Nov.3
Journal 5	Nov.9
Second hour exam	Nov. 17
Quiz 6	Dec.1
Reflection on the course	Dec 6
Final exam	Dec 13 at 8:00 am
