This short survey will be made available to you at the end of the semester, providing you a chance to comment on how this class is taught. I am very interested in the feedback I get from students, as I work to continually improve my teaching. I consider the SETE to be an important part of your participation in this class.

Exam & Assignment Policy:

Each assignment/exam submitted will be reviewed, graded, and returned to the student in a timely manner. In certain cases, the instructor may ask the student/group to provide copies for future use or references and examples. Exam testing will be primarily over the materials from lecturer, class activities, and the text book. Students are responsible for all information given in the textbook & class. Exams will require the student to understand the apply concepts, terms, and theory and not just merely memorize information. The Student may be required to purchase some materials for activities and scantrons #882 for testing. Exams should be taken as scheduled. No makeup examinations will be allowed except for documented emergencies (See Student Handbook) An "I" (incomplete grade) may be given at the discretion of the instructor when emergencies prevent students from competing course requirements. Should an "I" be granted, the student will be given a set time to complete the requirements before an "F" grade is assigned

Attendance & Participation Policy: *Students are expected to attend class and participate in lecturers, discussions, exercises and activities. The attendance/participation of the student is essential to the learning and to the overall success of the course. Students are responsible to notify the instructor if they are missing class and for what reason. Students are also responsible to make up any work covered in class. It is recommended that each student coordinate with a student colleague to obtain a copy of the class notes, if they are absent.
