Course Evaluation Methods

The assessment of the Internship examines the candidate's ability to interact in the complex role of the principal by utilizing key theories and concepts and applying these to daily activities within the site setting. The required shadowing activities allow the candidate to reflect upon the principal's actions in developing and managing the learning environment at the school.

Three data sources are used in the assessment of the Internship:

1. Cooperating administrator's evaluation
2. Self-evaluation by the intern through completion of a self-evaluation plan and a professional growth plan
3. The university supervisor's evaluation.

The candidate is evaluated in six areas of performance: critical planning skills, professional development analysis, facilitation skills, analysis of leadership and goal accomplishment, professional behavior, professional interaction and the interns ability to follow directions, meet deadlines, problem solve, and produce quality products.

Academic integrity is a hallmark of higher education. You are expected to abide by the University's code of Academic Integrity policy. Any person suspected of academic dishonesty (i.e., cheating or plagiarism) will be handled in accordance with the University's policies and procedures. Attendance and participation in all class meetings is essential to the integration of course material and your ability to demonstrate proficiency. Students are responsible to notify the instructor if they are missing class and for what reason. Students are also responsible to make up any work covered in class. It is recommended that each student coordinate with a student colleague to obtain a copy of the class notes, if they are absent.
