When to submit: There is a 30-day processing period for all applications. This 30-day processing period begins when a **complete** application package is received in the GAR Permit Office. Please remember that you cannot fish unless you have a current and valid fishing permit.

If you would like to submit your application in person, you may visit our office at the address above from 8–4:30 Mon–Fri. Please note that we do not provide same-day application processing when you visit our office.

Who to contact with questions: If you have any questions about your application or the application process, please contact us at (978) 282-8438 or by email at NMFS.GAR.Permits@noaa.gov. Greater Atlantic Fisheries Regulations, permit data, permit applications, and important announcements are available on our website at: www.greateratlantic.fisheries.noaa.gov/.

Section 1 - Vessel and Owner Information (all items must be filled in)

Please verify that all owner information is complete and correct. You can provide any new or updated contact or vessel information on the back of the form in Section 4a. The new information will replace the corresponding information on the front of the form. If your vessel is U.S. Coast Guard documented, a change of vessel name must also be reflected on your U.S. Coast Guard document in order for us to make that change.

Section 2 - Vessel Information

NMFS defines Home Port and Principal Port as:

Home Port: City and State where your vessel is moored.

Principal Port: City and State where the majority of your landings occur.

Please make sure the **phone number** and **area code** are complete and correct. Cross out any incorrect information on the front of the form and enter the correct information in the space provided on the back of the form. If you have an additional phone number where you can be reached, please include that number in the alternate telephone space in section 4a.

Section 3 - Fishery Information

Fishery information gives information about the Federal permits that were last issued to your vessel. Please review the fisheries listed in this section because NMFS will consider that you have applied for the fisheries indicated in this section unless you indicate, on the form, that they should be cancelled. See section 4 below on instructions for adding a fishery that your vessel is qualified for but is not listed in section 3. NMFS reserves the right to make a final determination on a vessel's eligibility for any permit.

How to cancel a fishery: To cancel a fishery, put an "X" in the column marked "Cancel" on the front of the form in section 3. Please note that, except in certain specific cases, once you relinquish (cancel) a limited access permit, you will lose your right to renew that limited access permit in subsequent years. When cancelling a limited access permit, the application must be accompanied by verification, in writing, that the applicant has requested cancellation of a specific Federal limited access fishing permit(s) and understands that the vessel or any replacement vessel will no longer be eligible for those limited access permits.

Section 4a & 4b – Corrections and Additions

Address Corrections and Fishery Additions/Corrections are to be made in Section 4a and 4b on the back of the form. Please cross out information you want to remove, or place an "X" in the column marked "Cancel" for the permit you want to cancel on the front of the form.

Fishery Categories and Gears: You may add or change a fishery category or gear code by entering new information in this section. Your vessel must be qualified to apply for limited access fisheries. Contact Greater Atlantic Permit Office for further information. For each fishery category you want to add, circle the category numbers or letters in this column. Note that limited access permits require that you have met eligibility criteria. Selecting categories for which your vessel is not eligible may delay the processing of your application. For each fishery permit and category, you must select the applicable gear codes listed in section 4b. On your application, write the **gear code numbers** in the column marked *Gear Code(s)*. Please note that some fishery categories have restrictions on the type of gear that can be used as noted on pages 4–10. You may select more than one gear code for a fishery category. **If no gear code is selected, the application cannot be processed and will be returned to you.**

Section 5 – Signature of Owner or Authorized Agent

Sign and date the form. Unsigned, or otherwise incomplete applications, will be returned. Your signature is an affirmation that, under penalty of perjury, all the information provided in order to obtain this permit is true and correct. Submitting false information in connection with an application could subject you to criminal/civil penalties or permit sanctions [18 U.S.C. 1001].

Additional Documents Required

USCG Documentation/State Registration

With each application, submit a copy of your current (not expired) U.S. Coast Guard (USCG) Certificate of Documentation. If the vessel is not documented, send a copy of a valid (not expired) state vessel registration for the vessel. Do not send your original. We cannot accept a bill of sale or an application for renewal of the USCG Certificate of Documentation. If your vessel's state registration does not list all owners of the vessel, also provide a copy of the vessel's title, or other documentation from the appropriate state agency that identifies all vessel owners. A permit application will not be accepted if the vessel registration or documentation has expired before we receive it.

Owner/Shareholder/Officer Information

Attach a completed NMFS owner form listing and identifying all owners and shareholders. Please provide the full name of all owners, officers, partners, and/or shareholders in the corporation, LLC, partnership, or sole proprietorship regardless of their percentage of ownership in the company/vessel.

Charter/Party/Headboat Vessels

If you are applying for a charter/party/headboat permit, submit a valid copy (not expired) of at least one of the following:

- State license showing the vessel is authorized to carry charter/party passengers.
- Certificate of Documentation showing vessel is documented for "Coastwise" trade.
- USCG license to operate or navigate passenger-carrying vessels.

Public reporting burden for the collection of information on the initial vessel application is estimated to average 45 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining data needed, and completing and reviewing the information. Send comments regarding this burden estimate or suggestions for reducing this burden to: National Marine Fisheries Service, Permit Office, 55 Great Republic Drive, Gloucester, MA 01930. The Paperwork Reduction Act requires that potential respondents for a fishing vessel permit be notified of certain information regarding their rights and the burden associated with applying for Federal fisheries permits.

One of the regulatory steps taken by the National Marine Fisheries Service to carry out its conservation and management objectives is the requirement of a permit for users of the resources. All the fisheries included on this application require a permit to fish for or retain these species in or from the EEZ. Section 303(b)(1) of the Magnuson-Stevens Fishery Conservation and Management Act specifically recognizes the need for permit issuance. The purpose and use of these permits are to: (1) Register industry participants and fishing vessels; (2) list the characteristics of fishing vessels; (3) exercise influence over compliance; (4) provide a mailing list for the dissemination of important information to the industry; (5) register participants to be considered for limited access; and (6) provide a pool of participants for data collection samples. Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number. Owner names, vessel characteristics, address, phone, and permit information will be posted on a public NOAA Fisheries website or released upon request. All other data submitted will be handled in accordance with NOAA Administrative Order 216-100, Protection of Confidential Fishery Statistics and Section 402(b) of the MSA.
