## Production and Royalty Report (P&R), Form ONRR-4430

The Solid Minerals Services Section of the Reporting and Solid Minerals Services Branch is responsible for processing all information related to Federal and Indian Mineral leases. To aid the processing of Solid Minerals reporting, ONRR developed an Internet reporting tool for capturing Production and Royalty (P&R) data. The information collected by this web-based tool is processed by the MRM Financial System to generate receivables, match and distribute payments, calculate late penalties, and evaluate Indian over-recoupment exceptions.

The P&R report replaced the Sales and Royalty Remittance Report (Form ONRR-2014) and the Solid Minerals Operation Reports (SMOR and SMFR).

### 4.1 **Form ONRR-4430 Objectives**
