

Errata to 2010 Northeast Multispecies Sectors Final Environmental Assessments (EA) and the EA for Framework 44 to the Northeast Multispecies FMP

The following is a modification to 10 of the 17 Final EAs dated February 2010 for the Multispecies sectors listed below. The modification also applies to EA for Framework Adjustment 44 to the Northeast Multispecies Fishery Management Plan dated January 15, 2010. The modification involves replacing a table that was inserted incorrectly and not the result of new data or findings. The modification does not alter the analysis or the Findings of No Significant Impact signed on February 24, 2010 for the sector EAs and March 15, 2010 for the FW 44 EA.

Immediately below is the correct table. This table appears in varying locations depending on the EA. The latter table shows where the correct table should be placed. The sentence that refers to the table should read “The number of vessels homeported (federal) varied slightly from 1997 to 2006 (Table 4.5.2-X)”.
