 - (1) Describe the purpose of this DoD information system or electronic collection and briefly describe the types of personal information about individuals collected in the system.

PRIMS is the sole authoritative data source that houses the Physical Fitness Assessment (PFA) data for command information, authorization information, and member personnel data. PRIMS is governed by the guidelines established by OPNAVINST 6110.1J series and provides a standardized Navy database to monitor and track the progress of Navy active duty and reserve personnel PFA data and identify, screen, train, educate, counsel, monitor and rehabilitate members who did not meet the PFA standards. PRIMS is a web-based application that is hosted and maintained by BUPERS Online (BOL).

Personal information collected in PRIMS includes: Name, SSN (full and truncated), DoD ID number, gender, birth date, Unit Identification Code (UIC), Medical Information: Height, Weight, Abdomen, Waist, Neck and Hip measurement; percent body fat.

(2) Briefly describe the privacy risks associated with the PII collected and how these risks are addressed to safeguard privacy.

Common Access Card (CAC) controlled application. The system, files and elements are accessible only to authorized persons having an official access based on predefined need-to-know. Physical access to terminals, terminal rooms, buildings and activities grounds are controlled by locked terminals and rooms, guards, personnel screening and visitor registers.
