

RCRA Facilities on the active September 2011 Watch List

The list of facilities below composes OECA's September 2011 Resource Conservation and Recovery Act (RCRA) Subtitle C Watch List. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. The list is provided to facilitate dialogue between EPA, state and local agencies on enforcement matters relating to significant noncompliers (SNC). The Watch List does not identify which alleged violations of environmental laws may pose the greatest risk to public health or the environment. It is an automated report based on data from the RCRAInfo system, which is used by federal, state and local agencies to track RCRA enforcement and compliance information. Agencies input information into RCRAInfo, including information about violators that are identified as SNC. Some facilities may appear on the Watch List due to data errors, which typically are identified and addressed during the EPA-state-local dialogue. EPA expects the government agency with jurisdiction over a SNC to initiate an appropriate enforcement response, in a timely manner, and input the action into RCRAInfo. Some facilities on the list are the subject of existing orders, are actively participating in negotiations with regulators, or are the subject of an investigation. While progress is being made toward resolving the violations, further activities may be required to achieve compliance. This list reflects updates from previous Watch Lists due to changes in enforcement case status, data corrections made to RCRAInfo or new facilities added. The dynamic nature of the Watch List is a result of its use as a management tool to oversee adherence by EPA, state, and local agencies to enforcement response policies. For detailed information, please see the Watch List Fact Sheet ([www.epa-echo.gov/echo/docs/watch\\_list\\_fact\\_sheet.pdf](http://www.epa-echo.gov/echo/docs/watch_list_fact_sheet.pdf)).
