**Description of Request:** Hello, I would like to know how many GS9 or above archaeologists (0193) work for you agency. I also need to know how many of these archaeologist have a Master Degree and how many have a PhD. Thank you for your help.

**Preferred format:**

**Type of Requester:** Scholarly

Please **Limit** my fees to **25**  
 I request a **fee Waiver**

**I request a waiver or reduction of fees because an understanding by the general public of the subject is likely to result from disclosure, taking into account my ability and intent to disseminate the information to the public in a form that can further understanding of the subject matter as explained below:**

*I am interested in examining the concept in our education system, and in our society, that academic success is directly correlated to success in the work place. Specifically, I am interested to see if academic attainment is correlated to success in the federal work place. In the USA, higher education is producing between 400 to 600 PhD in Anthropology a year and of these, only 30% go into teaching. I am very curious to find out if PhD are working in the federal government and if so at what level? This information can be used to open a discussion in higher education about whether or not we are producing too many PhD, especially when you take into consideration the cost of attaining this degree.*

**I request a waiver or reduction of fees because the magnitude of the identified commercial interest of the requester is sufficiently large, in comparison with the public interest in disclosure, that disclosure is "primarily in the commercial interest of the requester." as explained below:**

*I work for a small liberal arts college and do not have access to much funding, so the smaller the fee the better. Thanks*

**If denied** a waiver or reduction, I Agree to pay up to **25**
