BASIS OF PAYMENT -- TIME-AND-MATERIALS CONTRACTS (22-4) (SEP 98)(BPI 22.1.3)

BPA shall pay the Contractor as follows after submission of invoices approved by the CO. The Contractor shall be reimbursed for items and services purchased directly for the contract only when cash, checks, or other forms of actual payment have been made for such purchased items or services.

(a) Hourly Rate.

- (1) The amounts shall be computed by multiplying the appropriate hourly rates prescribed in the Schedule by the number of direct labor hours performed. The rates shall include wages, indirect costs, general and administrative expense, and profit. Fractional parts of an hour shall be payable on a prorated basis. The Contractor shall substantiate invoices by evidence of actual payment and by individual daily job timecards, or other substantiation approved by the CO.
- (2) Overtime. The hourly rates shall not be varied by virtue of the Contractor having performed work on an overtime basis unless the CO has specifically authorized overtime and the contract includes overtime rates.

(b) Materials. Allowable costs of direct materials shall be determined by the CO in accordance with Part 13 of the BPI in effect on the date of this contract. Reasonable and allocable material handling costs may be included in the charge for material to the extent they are clearly excluded from the hourly rate. Material handling costs are comprised of indirect costs, including, when appropriate, general and administrative expense allocated to direct materials in accordance with the Contractor's usual accounting practices, consistent with Part 13 of the BPI. Direct materials are those materials which enter directly into the end product, or which are used or consumed directly in connection with the furnishing of the end product.

(c) Travel Costs. Costs incurred for lodging, meals, and incidental expenses shall be reimbursed on an actual cost basis to the extent that they do not exceed on a daily basis the per diem rates in effect at the time of travel as set forth in the Federal Travel Regulations, prescribed by the General Services Administration, for travel in the conterminous 48 United States. Airline costs will be reimbursed on an actual cost basis to the extent determined reasonable and allocable under Part 13 of the BPI. The CO must approve any variation from these requirements. Contractors may request a letter from the Contracting Officer authorizing access to lodging, or other rates negotiated for government travel to the extent such authorization is honored by the service providers.

(d) Subcontracts. The cost of subcontracts that are authorized under the subcontracts clause of this contract shall be reimbursable costs under this clause, if such costs are consistent with Part 13 of the BPI. Reimbursable costs in connection with subcontracts shall be limited to the amounts paid to the subcontractor. Reimbursable costs shall not include any costs arising from the letting, administration or supervision of performance of the subcontract, if the costs are included in the hourly rates in the Schedule.

(e) Responsibility to obtain best overall price. To the extent able, the Contractor shall--

- (1) Obtain materials, subcontracts, and travel at the most advantageous prices available with due regard to securing prompt delivery of satisfactory products and services; and
- (2) Take all cash and trade discounts, rebates, allowances, credits, salvage, commissions, and other benefits and additionally, give credit to BPA for any amounts that have accrued to the benefit of the Contractor or would have accrued except for the fault or neglect of the contractor. When unable to take advantage of the benefits, the Contractor shall promptly notify the CO and give the reasons.

(f) Material the Contractor regularly sells to the public. If the nature of the work to be performed requires the Contractor to furnish material which is regularly sold to the general public in the normal course of business by the Contractor, the price to be paid for such material, notwithstanding (e)(1) above, shall be on the basis of an established catalog or list price, in effect when the material is furnished, less all applicable discounts to BPA; provided, that in no event shall such price be in excess of the Contractor's sales price to its most favored customer for the same item in like quantity, or the current market price, whichever is lower.

- (g) **Audit.** At any time before final payment under this contract the CO may audit the invoices and substantiating material. Each payment previously made shall be subject to reduction to the extent of amounts, on preceding invoices, that are found by the CO not to have been properly payable and shall also be subject to reduction for overpayments or to increase for underpayments. Upon receipt and approval of the invoice designated by the Contractor as the "final invoice" and substantiating material, and upon compliance by the Contractor with all terms of this contract, BPA shall promptly pay any balance due the Contractor.
- (h) **Refunds.** The Contractor agrees that any refunds, rebates, or credits (including any related interest) accruing to or received by the Contractor or any assignee, that arise under the materials portion of this contract and for which the Contractor has received reimbursement, shall be paid by the Contractor to BPA. The Contractor and each assignee shall assign to BPA all such refunds, rebates, or credits (including any interest) in form and substance satisfactory to the CO.

- (c) The proposal, together with the price breakdown and time extension justification, shall be furnished by the date specified by the Contracting Officer.

**SCREENING REQUIREMENTS FOR PERSONNEL HAVING ACCESS TO BPA FACILITIES (23-4)
(MAY 07)(BPI 23.4.1)**

- (a) The following definitions shall apply to this contract:
 - (1) "Access" means the ability to enter BPA facilities as a direct or indirect result of the work required under this contract.
 - (2) "Sensitive unclassified data" means information requiring a degree of protection due to the risk and magnitude of loss or harm that could result from inadvertent or deliberate disclosures, alteration, or restriction. Sensitive unclassified data may include, but are not limited to: personnel data maintained in systems or records subject to the Privacy Act of 1974, Pub. L. 93-579 (5 U.S.C. 552a); proprietary business data within the meaning of 18 U.S.C. 1905 and the Freedom of Information Act (5 U.S.C. 552); unclassified controlled nuclear information within the meaning of 42 U.S.C. 2168; critical infrastructure information, energy supply data; economic forecasts; and financial data.
- (b) BPA personnel screening activities are based on the Homeland Security Presidential Directive 12 (HSPD-12), and DOE rules and guidance as implemented at BPA. The background screening process to be conducted by the Office of Personnel Management is called a National Agency Check with Inquiries (NACI). The results of the NACI process will provide BPA with information to determine an individual's initial eligibility or continued eligibility for access to BPA facilities including IT access. Such a determination shall not be construed as a substitute for determining whether an individual is technically suitable for employment.
- (c) The contractor is responsible for protecting BPA property during contract performance, including sensitive unclassified data. Effective October 27, 2005, all new-hire contract employees expected to work at federal facilities for six or more consecutive months must be screened according to HSPD-12. To initiate the federal screening process discussed in paragraph (b) above, the contractor shall ensure that all prospective contract employees present the required forms of personal identification and complete SF85 - Questionnaire for Non Sensitive Positions and submit it to BPA for processing. All contract employees on board prior to that date will be screened in phases according to length of service. Rescreenings of longer-term contract employees will occur at periodic intervals, generally of five years.
- (d) As part of the NACI, the government's determination of approval for an individual's access shall be at least based upon criteria listed below. However, the contractor also has a responsibility to affirm that permitting the individual access to BPA facilities and/or computer systems is an acceptable risk which will not lead to improper use, manipulation, alteration, or destruction of BPA property or data, including unauthorized disclosure. Positive findings in any of these areas shall be sufficient grounds to deny access.
 - (1) Any behavior, activities, or associations that may show the individual is not reliable or trustworthy.
 - (2) Any deliberate misrepresentations, falsifications, or omissions of material facts.
 - (3) Any criminal, dishonest or immoral conduct (as defined by local Law), or substance abuse.

- (4) Any illness, including any mental condition, of a nature which, in the opinion of competent medical authority, may cause significant defect in the judgment or reliability of the employee, with due regard to the transient or continuing effect of the illness and the medical findings in such case.
- (e) If the NACI screening process described above prompts a determination to disapprove access, BPA shall notify the contractor, who will then inform the individual of the determination and the reasons therefor. The contractor shall afford the individual an opportunity to refute or rebut the information that has formed the basis for the initial determination, according to the appeal process prescribed by HSPD-12 and supplemental implementing guidance.
- (f) If the individual is granted access, the individual's employment records or personnel file shall contain a copy of the final determination as described in paragraph (e) above and the basis for the determination. The contractor shall conduct periodic reviews of the individual's employment records or personnel file to reaffirm the individual's continued suitability for access. The reviews should occur annually, or more often as appropriate or necessary. If the contractor becomes aware of any new information that could alter the individuals' continued eligibility for approved access, the contractor shall notify the COTR immediately.
- (g) If a security clearance is required, then the applicant's job qualifications and suitability must be established prior to the submission of a security clearance request to DOE. In the event that an applicant is specifically hired for a position that requires a security clearance, then the applicant shall not be placed in that position until a security clearance is granted by DOE.
- (h) In addition to the requirements described elsewhere in this clause, all contractor employees who may be accessing any of BPA's information resources must participate annually in a BPA-furnished information resources security training course.
- (i) The contractor is responsible for obtaining from its employees any BPA-issued identification and/or access cards immediately upon termination of an employee's employment with the contractor, and for returning it to the COTR, who will forward it to Security Management.
- (j) The substance of this clause shall be included in any subcontracts in which the subcontractor employees will have access to BPA facilities and/ or computer systems.

(MAY 07)(BPI 14.18.3)

- (a) If any portion of the Contractor's maintenance or support service is located in a foreign country, then the Contractor will disclose those foreign countries to BPA to determine if the foreign country is on the Sensitive Country List or is a Terrorist Country. BPA will notify the Contractor in writing whether or not it can allow an intangible export of BPA's Critical and Sensitive Infrastructure Information or if a Deemed Export License is required.
- (b) The Contractor shall notify the CO in writing in advance of any consultation with a foreign national or other third party that would expose them to BPA Critical and Sensitive Infrastructure Information. BPA will approve or reject consultation with the third party.

- (c) Notification of Security Incident. UNIT 3 — STATEMENT OF WORK

PART A. GENERAL

A.1 GOAL OF THIS CONTRACT:

Bonneville Power Administration (BPA) is seeking consulting services and products to obtain strategic advice and electric utility regulatory intelligence for Federal Energy Regulatory Commission (FERC) matters relating to the operations of BPA. Regulatory intelligence related to BPA will include research, analysis, briefings, and/or reports as requested. The work is in support of the BPA Regulatory Affairs and General Counsel offices. Contractor will not provide legal representation under this contract.

A.2 BACKGROUND:

Bonneville Power Administration (BPA) is a federal power marketing administration headquartered in Portland, Oregon. BPA is a legislatively separate and distinct organization within the U.S. Department of Energy. BPA markets wholesale electric power at cost-based rates from 31 Pacific Northwest Federal hydroelectric facilities and one nonfederal nuclear plant. It also operates a large and complex bulk power transmission system that provides services within the Pacific Northwest and links the region with neighboring regions to the north, east, and south. BPA is governed by its own organic statutes and is a self-financed entity, depending upon its power and transmission revenues to cover its costs. BPA files its power and transmission rates with the Federal Energy Regulatory Commission (FERC) for approval under standards set out in the Pacific Northwest Electric Power Planning and Conservation Act. In addition, BPA has voluntarily implemented FERC's open access policies, including functionally separating its power and transmission components as well as filing and obtaining FERC approval of an Open Access Transmission Tariff (OATT) and employee Standards of Conduct (SOC).

A.3 LOCATION OF PROJECT:

Meetings: The contractor shall attend meetings at the FERC building, as required by BPA and may be asked to attend meetings via conference call or in various locations in the United States. Travel expenses will be paid by BPA, consistent with Federal Travel Regulations.

A.4 GOVERNMENT FURNISHED PROPERTY OR SERVICE:

BPA will furnish available pertinent data and documentation as needed for the contractor to utilize during performance of work assigned under this contract.

A.5 CONTRACTOR FURNISHED PROPERTY OR SERVICE:

The contractor shall provide all labor, materials, and services, except those provided as Government-furnished in meeting the requirements of this Statement of Work (SOW).

The Contractor will not be located at BPA headquarters, but will work from the offices of the contractor. There may be occasional visits to BPA headquarters, as determined to be necessary by BPA Regulatory Affairs or General Counsel.

PART B TECHNICAL APPROACH/TASKS

B.1 GENERAL REQUIREMENTS:

BPA is seeking strategic advice, and electric utility regulatory intelligence for Federal Energy Regulatory Commission (FERC) matters relating to the operations of BPA. The variety and permutations of BPA and FERC interactions are numerous and extremely complex and require expertise of regulatory experts who are in close contact with FERC, have an in-depth understanding of current FERC requirements and initiatives, and can anticipate and provide strategic advice concerning FERC initiatives. The nature of the work to be performed by the contractor shall primarily involve providing regulatory intelligence and strategic advice to BPA regarding current and future FERC initiatives and will include:

- Frequent briefings and/or reports on FERC matters
- Advice and impact analysis regarding compliance with FERC Standards of Conduct and reliability standards
- Relationship building between BPA and key FERC staff

To avoid conflicts of interest, the following process will be used

1. Firm provides BPA with a Letter of Engagement barring Key Personnel listed under paragraph 23-2 from engaging in regulatory/strategic advice work for any other clients on the same matters/issues for which they were providing regulatory/strategic advice to BPA.
2. BPA would provide a broad waiver to firm that would enable firm to continue to be adverse to BPA in the future on regulatory/strategic advice and litigation work performed by other firm staff.
3. Firm will create an ethical screen within firm barring communications on BPA matters between all firm attorneys other than key personnel, including those adverse to BPA, and those key personnel providing regulatory/strategic advice services to BPA. This screen would need to be established to assure confidentiality and ease of attorney/ client discussions.
4. Firm will provide services through the Key Personnel listed under paragraph 23-2 of the terms and conditions of this contract. Should any one of these Key Persons no longer be available to BPA, the Firm will notify BPA of such non-availability and BPA may terminate the contract.

B.2 METHODS TO BE USED:

The contractor shall develop an understanding of BPA statutes, business plans, long-term objectives, programs, OATT, and SOC compliance filings to the extent necessary to perform the duties described in the basic statement of work below. The contractor shall provide regulatory services primarily consisting of regulatory research, advice, and analysis. In that regard, the contractor shall, upon the direction of Regulatory Affairs or General Counsel, contact, monitor, analyze, and report on relevant FERC filings, orders, policy developments, and trends in regulatory areas related to BPA programs. The contractor shall also attend meetings (via conference call, at BPA headquarters, or in various locations in the United States) with BPA or others as requested by BPA Regulatory Affairs or General Counsel.

B.3 SPECIFIC REQUIREMENTS:

Reports: The contractor shall provide individual written reports to BPA as requested by Regulatory Affairs and/or Chief Compliance Office and/or General Counsel. The reports will summarize current activities, recommendations, and studies.

Written legal analysis, documentation, and filings: The contractor shall provide written work products as requested by designated BPA point(s) of contact and such products may include regulatory analysis and strategic advice.

B.4 SCHEDULE

Due dates for specific assignments will be negotiated at time of assignment.

B.5. CONFIDENTIALITY:

BPA has an expectation of nondisclosure of documents or other information provided to contractors during the term of their contracts. As a contractor, the Regulatory Consultant understands that a confidential relationship exists with respect to materials provided by BPA. The consultant agrees not to release such materials to anyone outside of BPA unless it is first determined that such materials must be released under applicable rules.

B.6 DELIVERABLES:

Deliverables may include, but are not limited to the following list:

- Various reports related to FERC matters
- Analysis of regulatory requirements
- Briefings as requested
- Advice/analysis concerning FERC compliance matters
