### **FOIA #BPA-2011-01635-F**

Dear Mr. van Dijk:

This is a final response to your request for records that you made to the Bonneville Power Administration (BPA) under the Freedom of Information Act (FOIA), 5 U.S.C. 552.

#### **You have requested the following:**

Provide copies of documentation that identifies the number of impacted homeowner and landowners within the notification and buffer zone for all route segments currently still being considered for the I-5 project. This to include whether the parcel is private, corporate or public lands and where there is a residence, the distance each residence is from the center line.

#### **Response:**

BPA has provided the responsive documents in their entirety.

Pursuant to 10 CFR 1004.8, if you are dissatisfied with this determination, or the adequacy of the search, you may appeal in writing within 30 calendar days of receipt of a final response letter. The appeal should be made to the Director, Office of Hearings and Appeals, HG-1, Department of Energy, 1000 Independence Avenue, SW, Washington, DC 20585-1615. The written appeal, including the envelope, must clearly indicate that a FOIA Appeal is being made.

I appreciate the opportunity to assist you. Please contact Cheri Benson, FOIA/Privacy Act Specialist at (503) 230-7305 with any questions about this letter.

Sincerely,

*/S/Christina J. Munro*

Just to make sure I've got the right numbers, please take a look.

Our original list included:

13,134 parcels  
9,549 landowners

We have removed:

In December 2009:  
699 parcels  
571 landowners

In August 2010:  
599 parcels  
272 landowners

We added in August with new lettered segments:

479 parcels  
361 landowners

Well....I think April can do a comparison of the 09 data with what was sent for scoping....but I am not sure we want her taking the time to do so. So...with that said, I would suggest your option #2. I think we will pick most landowners up through scoping meetings and comments. Plus the numbers don't differ as much (100's vs 1000's) as you had previously thought, Nancy (however, it is curious that the 08 data had MORE landowners on it).

That's my opinion.

Also, Nancy-

As for the mail lists I am receiving from Envirolssues, I think I will just continue to do what I am doing. It makes more sense for me to do it and send it down. The mail room seems to have a full plate already and I want to make sure they are being added correctly.

Thanks Nicole for trying to figure this out. I have no good ideas. Maybe for future keep an original file with all the key identifiable information just in case. I think there should be an internal team made up of CMLS, GIS, Lands, Environment, Public Affairs, others, to get a system that works for all of us. I don't think you should spend anymore chunks of time on this.

Lisa, what do you think? I see two options at this point:

1) Take the '09 data and talk with April about what she can do with it. Can they run a search on the address and pick up any updated owners/records? Also, run a search and add any new names or addresses? I wish they would just keep the parcel number in their database so that we can make these comparisons easily. So frustrating.

2) Forget about it and just assume that any PEP folks that didn't get the scoping package, will have attended a scoping meeting and signed in. Or, maybe they sent in a comment with their name/address included. We'll then pick them up that way. In addition, but in about a month, we'll start getting returned to sender envelopes with wrong names/addresses. Those will come through CMLS to Yvonne who will coordinate with you and Lands to get new address and owners and then send down to CMLS to process.

Any other ideas; let me know.

Nancy

Here's a list of unique landowners for 09 data that I sent to Lands. It has 10161 records

<< File: I5landownersforlands09data.xls >>

Here's a combined list of landowners for 08 data that I sent for mailings derived from the xls files I emailed originally. It has 10450 records.

<< File: I5combined08parcels.xls >>

It's strange but 09 data has less unique owners than the 08 ones. But because I removed all the parcel and key field data, I can't figure out how to go back to the GIS data. This needs to be done differently. Maybe April's folks can use the new list to find any that may be missing from their mailing list. Otherwise, I'm stumped for now. I'll think about it over break.

Nicole

Here's a list of the 150+ parcels that fall within our I5 notification buffers. Hope that helps.

Hi Molly

Here's a spreadsheet to put in your W drive work folder that has all 13K parcels with closest segment route number to use as a reference for folks.

Here's the DNR Parcel list for the I-5 Project with township/range/section, parcelid (from county data) and additional fields for more information:

The parcels are sorted into 3 categories for Status of Parcel:

- added May2010 - those parcels newly add to the list for the additional segments added and to be added. (orange on spreadsheet)
- original - those parcels originally on the list from the beginning. (yellow on spreadsheet)
- removed - those parcels removed from the list either when the PAC route was removed or a few by Lou's direction. (green on spreadsheet)

Please let me know if you have any additional questions. Thanks...

Nicole Z.

Paul / Nicole:

Can you answer Jim's question. I think this list of legals is a joint effort from you two?

Thanks,  
Craig

Craig- what is the status of the legals for the new areas of interest on State trust lands on the I-5 project area? We would like to start the records search soon. Thanks

Molly ,

Here's the list for the new 883 parcels for I-5. It's a 1/4 mile buffer from the centerline for a total of 1/2 mile. If you need any help interpreting please let me know. I'm telecommuting today but will be back in the office tomorrow.

334 parcels already on list from last time

549 new parcels

Of that 377 parcels are in Lou's core list (aka "current") and 172 parcels in what we previously called the "on hold" list.

The last 3 columns explain all this.

Hope this isn't confusing. Feel free to call me on my cell if you have any questions. Thanks!!

Bob,

There are 2013 parcels that fall under a 150ft right-of-way for the I-5 Corridor centerline, as it stands today. Here's a list by segment of parcel numbers. Note that I mentioned the overlapping (or multiple counting) of parcels at segment intersections. The total if you add up the parcels by segment is 2306 so you'll need to use a 15% adjustment.

There are 6138 parcels that fall in under a 500ft on either side (1000ft total) for the I-5 Corridor centerline, as it stands today.

Here's a list by segment of parcel numbers. Note that I mentioned the overlapping of parcels at the segment intersections. The total if you add up the parcel by segment is 7193 so you 'll need to use a 17% adjustment.

Just to make sure I've got the right numbers, please take a look.

Our original list included:

13,134 parcels  
9,549 landowners

We have removed:

In December 2009:

699 parcels  
571 landowners

In August 2010:

599 parcels  
272 landowners

We added in August with new lettered segments:

479 parcels  
361 landowners
