## 2014 & 2015 Commercial Quotas and Recreational Harvest Limits for Summer Flounder, Scup, and Black Sea Bass

*Effective Date: May 22, 2014*

NOAA’s National Marine Fisheries Service has published a final rule that implements the following measures:

1. Adjusts the **2014 summer flounder (fluke)** commercial and recreational landings allowances based on updated scientific information.
2. Establishes the **2015 summer flounder (fluke), scup (porgy), and black sea bass** landing allowances for both the commercial and recreational fisheries, commonly called “quotas.”
3. Increases the **Scup Winter II Possession Limit from 2,000 lb to 12,000 lb.**

The landing allowances and Annual Catch Limits, outlined below, become effective May 22, 2014. State-specific summer flounder quotas are shown on **page 3**.

<b>Updated 2014 Summer Flounder Quotas</b> (million lb)	
Commercial Sector Annual Catch Limit	12.87
Recreational Sector Annual Catch Limit	9.07
Commercial Quota	10.51
Recreational Harvest Limit	7.01

<b>2015 Specifications</b>			
	Summer Flounder	Scup	Black Sea Bass
<b>Annual Catch Limits (million lb)</b>			
Commercial Sector	13.34	26.35	2.60
Recreational Sector	9.44	7.43	2.90
<b>Landing Allowances less Research Set-Aside (RSA) (million lb)</b>			
Commercial Quota	10.74	20.60	2.17
Recreational Harvest Limit	7.16	6.60	2.26

Commercial fisheries will be closed when the landing allowances are met or exceeded. Annual Catch Limits are based on total catch, both landings and dead-discarded fish. The 2014 Annual Catch Limits will be evaluated in 2015 after all the landings and discard information is available. If total catch by a sector exceeds these levels, an accountability measure will be implemented in

a subsequent fishing year. The attached tables provide more information on the commercial quota breakdown and possession limits for each species.

\*2013 quota overage is determined through comparison of landings for January through October 2013 plus any landings in 2012 in excess of the 2012 quota that were not previously addressed in the 2013 quota specifications, with the final 2013 quota for each state.

\*\*Total quota is the sum of all states having allocation. A state with a negative number has an allocation of zero (0).
