COMMON POOL FISHERY

White Hake Trimester Area Closed for Remainder of Trimester 1

Effective Date: 0001 hours, August 15, 2012, through 2400 hours, August 31, 2012

Based on available data, we have determined that 90 percent of the Trimester 1 TAC for white hake has been harvested. Therefore, effective 0001 hours, August 15, 2012, the White Hake Trimester TAC Area is closed for the remainder of Trimester 1, through August 31, 2012, to all common pool vessels fishing with trawl gear, sink gillnet gear, and longline/hook gear. The White Hake Trimester TAC Area encompasses the following statistical areas: 513, 514, 515, 521, and 522 (Figure 1) and will reopen at the beginning of Trimester 2, at 0001 hours, September 1, 2012.

Vessels that have submitted the required 48-hour Pre-Trip Notification, declared a trip through the vessel monitoring system (VMS) or interactive voice response (IVR) system, and crossed the VMS demarcation line prior to 0001 hours, August 15, 2012, may complete their trip even if part or all of the trip is in the White Hake Trimester TAC Area.
