FEDERAL ENERGY REGULATORY COMMISSION

Tennessee Gas Pipeline Company, L.L.C.

Docket No. CP15-520-000

NOTICE OF AVAILABILITY OF THE  
ENVIRONMENTAL ASSESSMENT FOR THE PROPOSED  
**TRIAD EXPANSION PROJECT**

(June 15, 2016)

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Triad Expansion Project, proposed by Tennessee Gas Pipeline Company, LLC (Tennessee) in the above-referenced docket. Tennessee requests authorization to construct and operate pipeline facilities, to modify existing aboveground facilities, and add new tie-in facilities in Susquehanna County, Pennsylvania.

The EA assesses the potential environmental effects of the construction and operation of the Triad Expansion Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The proposed Triad Expansion Project includes the following facilities:

- Approximately 7.0 miles of new 36-inch-diameter looping<sup>1</sup> pipeline in Susquehanna County, Pennsylvania;
- A new internal pipeline inspection (“pig”) launcher, crossover, and connecting facilities at the beginning of the proposed pipeline loop in Susquehanna County, Pennsylvania; and
- A new “pig” receiver, a new odorant facility, and ancillary piping at the existing Compressor Station 321 in Susquehanna County, Pennsylvania.

The FERC staff mailed copies of the EA to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups;
