SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a current information collection.

This action would continue the reporting measure requiring all Virginia Chesapeake Bay pound net fishermen to report interactions with endangered and threatened sea turtles, found both live and dead, in their pound net operations. When a live or dead sea turtle is discovered during a pound net trip, the Virginia pound net fisherman is required to report the incidental take to National Marine Fisheries Service (NMFS) and, if necessary, the appropriate rehabilitation and stranding

network. This information will be used to monitor the level of incidental take in the state-managed Virginia pound net fishery and ensure that the seasonal pound net leader restrictions (50 CFR 223.206(d)(10)) are adequately protecting listed sea turtles. Based on the number of sea turtle takes anticipated in the Virginia pound net fishery and the available number of Virginia pound net fishermen and pound nets, the number of responses anticipated on an annual basis is 483.

II. Method of Collection

Reports may be made either by telephone or fax.
