[Docket No. 061020273-7001-03]

RIN 0648-XE00

Fisheries of the Northeastern United States; Summer Flounder Fishery; Commercial Quota Harvested for New Jersey

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS announces that the 2007 summer flounder commercial quota allocated to the State of New Jersey has been harvested. Vessels issued a commercial Federal fisheries permit for the summer flounder fishery may not land summer flounder in New Jersey for the remainder of calendar year 2007, unless additional quota becomes available through a transfer from another state. Regulations governing the summer flounder fishery require publication of this notification to advise New Jersey that the quota has been harvested and to advise vessel permit holders and dealer permit holders that no commercial quota is available for landing summer flounder in New Jersey.

DATES: Effective 0001 hours, November 27, 2007, through 2400 hours, December 31, 2007.

FOR FURTHER INFORMATION CONTACT: Emily Bryant, Fishery Management Specialist, (978) 281-9244.

SUPPLEMENTARY INFORMATION:

Regulations governing the summer flounder fishery are found at 50 CFR part 648. The regulations require annual specification of a commercial quota that is apportioned on a percentage basis among the coastal states from North Carolina through Maine. The process to set the annual commercial quota and the percent allocated to each state is described in § 648.100.

The initial total commercial quota for summer flounder for the 2007 calendar year was set equal to 7,789,800 lb (3,533 mt) (71 FR 75134, December 14, 2006). This quota was increased through an emergency action to 10,267,098 lb (4,658 mt) (72 FR 2458, January 19, 2007). The percent allocated to vessels landing summer flounder in New Jersey is 16.72499 percent, resulting in a commercial quota of 1,302,843 lb (591 mt). The 2007 allocation was reduced to

1,263,758 lb (573 mt) when research set-aside was deducted.

Section 648.101(b) requires the Administrator, Northeast Region, NMFS (Regional Administrator) to monitor state commercial quotas and to determine when a state's commercial quota has been harvested. NMFS then publishes a notification in the **Federal Register** to advise the state and to notify Federal vessel and dealer permit holders that, effective upon a specific date, the state's commercial quota has been harvested and no commercial quota is available for landing summer flounder in that state. The Regional Administrator has determined, based upon dealer reports and other available information, that New Jersey has harvested its quota for 2007.

The regulations at § 648.4(b) provide that Federal permit holders agree, as a condition of the permit, not to land summer flounder in any state that the Regional Administrator has determined no longer has commercial quota available. Therefore, effective 0001 hours, November 27, 2007, further landings of summer flounder in New Jersey by vessels holding summer flounder commercial Federal fisheries permits are prohibited for the remainder of the 2007 calendar year, unless additional quota becomes available through a transfer and is announced in the **Federal Register**. Effective 0001 hours, November 27, 2007, federally permitted dealers are also notified that they may not purchase summer flounder from federally permitted vessels that land in New Jersey for the remainder of the calendar year, or until additional quota becomes available through a transfer from another state.

Classification

This action is required by 50 CFR part 648 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: November 21, 2007.

Emily H. Menashes,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

RIN 0648-XE05

Fisheries of the Exclusive Economic Zone Off Alaska; Reallocation of Halibut in the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; reallocation.

SUMMARY: NMFS is reallocating the projected unused amount of halibut prohibited species catch (PSC) from rockfish cooperatives in the Central Gulf of Alaska (GOA) Rockfish Pilot Program to vessels using trawl gear in the GOA. This action is necessary to provide the opportunity to vessels using trawl gear to harvest available GOA groundfish total allowable catch (TAC) under existing PSC limits.

DATES: Effective November 21, 2007, until 2400 hours, A.l.t., December 31, 2007.

FOR FURTHER INFORMATION CONTACT:

Jennifer Hogan, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA according to the Fishery Management Plan for Groundfish of the Gulf of Alaska Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2007 allocation of halibut PSC to vessels using trawl gear in the GOA is 2,000 metric tons (mt) as established by the 2007 and 2008 final harvest specifications (72 FR 9676, March 5, 2007, as corrected by 72 FR 13217, March 21, 2007) for groundfish in the GOA. Section 679.81(c) allocates 176 mt to catcher processor and catcher vessel rockfish cooperatives in the Central GOA. The website at <http://www.fakr.noaa.gov/sustainablefisheries/goarat/07rppallocations.xls> lists this amount. The remaining 1,824 mt is allocated to vessels using trawl gear not in a rockfish cooperative.

As of November 19, 2007, the Administrator, Alaska Region, NMFS (Regional Administrator), has
