Other Notes

**2010**

\*NC reported Category I non-compliance but otherwise did not differentiate between Category I and II

\*\*OR and CA only reported EPA Tribal Category I Non-Compliance, but did not otherwise differentiate between Category I and Category II

**2009**

WV reported 1581 informal actions, but these are at all majors and non-major facilities. Because the numbers are reported differently than other states, they are excluded.

Iowa reported 329 informal actions, but did not separate the data into majors and minors, so the information is not included. There is no 2009 data for MW.

**ANCR8 Corrected 12-21-12**

Data in this sheet were provided after the ANCR 8 data pull was rerun in ICIS.

The "Total Data" spreadsheet uses data from this sheet in place of the previous counts for ANCR 8.
