REQUEST: Records Seeking: On July 21, 2005, the Commission issued an order (96 FERC ¶ 61,120) establishing an evidentiary proceeding to develop a record on electricity transactions in the Pacific Northwest that occurred during the period December 25, 2000 through June 20, 2001. Judge Cintron was appointed to preside over this evidentiary proceeding. In Docket No. EL01-10, she issued an "Order on Data Submissions" on August 3, 2001, wherein she directed sellers to submit data on their transactions by August 16, 2001. Another "Order Confirming Rulings" issued by Judge Cintron in this Docket No. EL01-10, on August 21, 2001, indicates that sellers' data submissions, or "data templates" as they were commonly known, were not distributed to parties in this Docket, but instead were submitted only to Judge Cintron and the Commission Staff assigned to this Docket. Thus, the data may be located in their files. We are seeking transactional data submitted by the following sellers in the "data templates" described above:</p> <ul style="list-style-type: none"> -- Aquila Energy Marketing Corporation (aka Aquila) -- Dynegy Power Marketing, Inc. FY10-00100-000	Allen, Kathryn	Smathers, Jason (MEDIA)	Witnesses unto me	9/9/2010	10/7/2010	10/7/2010	Closed			
	<p><i>Subject:</i> REQUEST: A copy of all FOIA requests including all corresponding internal and external communication, investigative records, and any other resulting record where a FOIA request was sent to your agency. Please limit responsive records to those where the request aroused the suspicion of the person or agency who received that FOIA request. Finally, limit the responsive records to those where the FOIA request was provided to an investigator or investigative agency (or they were consulted), not for response, but for investigation into the person requesting the records to determine if the request was for criminal purposes. Additionally, please provide any policy documents or internal communication describing when a FOIA request should be referred to an investigator or an investigative agency. 10/7/10-Determination letter reflecting that no responsive document were found.</p> <p>News Media Fee Category and authorization of up to \$30 in fees. I am a member of the News Media as defined in 22CFR171.11(o) and request to be billed according to the news media fee category. I do authorize up to \$30 in fees if this request is denied or fees are incurred further than the exemption allows. I do retain the right to appeal any denial of this request.</p> <p>(o) Representative of the news media means any person actively gathering news for an entity that is organized and operated to publish or broadcast news to the public. I write for and am gathering news for Witnesses Unto Me, a publication which distributes among other writing, news. The term news means information that is about current events or that would be of current interest to the public. My experience in journalism allows me judge the current interest of a topic to the public. I make this request with knowledge and belief the topic is of current interest to the public. News media include television or radio stations broadcasting to the public at large and publishers of periodicals (but only in those instances when they can qualify as disseminators of "news") who make their products available for purchase by the general public. Witnesses Unto Me disseminates many types of writing, including news. For an example of a recent news article, see "City of Dearborn limits free speech around Arab Festival" written by myself and published June 22, 2010 by Witnesses Unto Me. Witnesses Unto Me is available to the general public and is not limited to any subset of the public. Freelance journalists may be regarded as working for a news organization if they can demonstrate, such as by past publication, a likelihood of publication through a representative of the news media, even though not actually employed by it. My articles are frequently published by both Witnesses Unto Me and SBC Voices, the two publications for which I write. I am assured of publication as the publisher of Witnesses Unto Me and a regular columnist with SBC Voices.</p> <p>Fee Waiver Request. I am requesting a fee waiver as a person primarily engaged in disseminating information requesting information about alleged government activity and I answer the following six questions to help adjudicate my request for a fee waiver. I have a proven ability to take raw facts, understand them, and create a unique work from them then distribute the information to the general public. This can be verified by reviewing my past articles. 1. The subject matter of the requested records must specifically concern identifiable operations of activities of the government. Request for records for their informational content alone does not satisfy this factor. 10/7/10-Response letter reflecting that no responsive documents were identified.</p>
