

dismissal of its alternate proposal to allot Channel 236C to Sun City West, Arizona (RM-9770), and the selection of Mayer as its community of license. The petition for partial reconsideration is denied as it does not meet the limited provisions set forth in the Commission's Rules under which a rule making action will be reconsidered. This document also announces that we will no longer be considering optional or alternative proposals by a single party in a single rulemaking proceeding. With this action, this docketed proceeding is terminated.

[Docket No. 001127331-1044-02; I.D. 052301B]

**Fisheries of the Northeastern United States; Atlantic Mackerel, Squid, and Butterfish Fisheries; Closure of Fishery for *Loligo* Squid**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Closure.

**SUMMARY:** NMFS announces that the directed fishery for *Loligo* squid in the exclusive economic zone (EEZ) for the second quarter of the year is closed. Vessels issued a Federal permit to harvest *Loligo* squid may not retain or

land more than 2,500 lb (1.13 mt) per trip per calendar day of *Loligo* squid for the remainder of the quarter. This action is necessary to prevent the fishery from exceeding the Quarter II quota and allow for rebuilding of this overfished stock, while allowing for fishing throughout the year.

**DATES:** Effective 0001 hours, May 29, 2001, through 2400 hours, July 1, 2001.

**FOR FURTHER INFORMATION CONTACT:** Myles Raizin, Fishery Policy Analyst, 508-281-9104, fax 978-281-9135, e-mail myles.a.raizin.gov.

**SUPPLEMENTARY INFORMATION:** Regulations governing the *Loligo* squid fishery are found at 50 CFR part 648. The regulations require specifications for maximum optimal yield, initial optimum yield, allowable biological catch, domestic annual harvest (DAH), domestic annual processing, joint venture processing and total allowable levels of foreign fishing for the species managed under the Atlantic Mackerel, Squid, and Butterfish Fishery Management Plan. The procedures for setting the annual initial specifications are described in § 648.21.

The 2001 specification of DAH for *Loligo* squid was set at 17,000 mt (66 FR 13024, March 2, 2001). This amount is allocated by quarter, based on the following table.

**TABLE. *Loligo* QUARTERLY ALLOCATIONS**

Quarter	Percent	Metric Tons
I (Jan-Mar)	33.23	5,649
II (Apr-Jun)	17.61	2,994
III (Jul-Sep)	17.30	2,941
IV (Oct-Dec)	31.86	5,416
Total	100.00	17,000

Section 648.22 requires NMFS to close the directed *Loligo* squid fishery in the EEZ when 80 percent of the quarterly allocation is harvested in Quarters I, II and III, and when 95 percent of the total annual DAH has been harvested. NMFS is further required to: Notify, in advance of the closure, the Executive Directors of the Mid-Atlantic, New England, and South Atlantic Fishery Management Councils; mail notification of the closure to all holders of *Loligo* squid permits at least 72 hours before the effective date of the closure; provide adequate notice of the closure to recreational participants in the fishery; and publish notification of the closure in the **Federal Register**. The Administrator, Northeast Region, NMFS, based on dealer reports and other available information, has determined that 80 percent of the DAH for *Loligo* squid in Quarter II, has been

harvested. Therefore, effective 0001 hours, May 29, 2001, the directed fishery for *Loligo* squid is closed and vessels issued Federal permits for *Loligo* squid may not retain or land more than 2,500 lb (1.13 mt) of *Loligo*. Such vessels may not land more than 2,500 lb (1.13 mt) of *Loligo* during a calendar day. The directed fishery will reopen effective 0001 hours, July 1, 2001, when the Quarter III quota becomes available.

**Classification**

This action is required by 50 CFR part 648 and is exempt from review under Executive Order 12866.

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: May 24, 2001.

**Fisheries off West Coast States and in the Western Pacific; West Coast Salmon Fisheries; Amendment 14**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Final rule.

**SUMMARY:** NMFS issues this final rule to implement portions of Amendment 14 to the Fishery Management Plan for Commercial and Recreational Salmon Fisheries off the Coasts of Washington, Oregon, and California (Salmon FMP). This final rule makes minor changes to language regarding spawning escapement and management goals; implements a new recreational allocation to the Port of La Push and adjusts the Neah Bay allocation accordingly; adds preseason flexibility for recreational port allocations north of Cape Falcon; and implements preseason flexibility in setting recreational port allocations or recreational and commercial allocations north of Cape Falcon to take advantage of selective fishing opportunities for marked hatchery fish. The intended effect of this final rule is to employ management measures that minimize impacts to
