<u>Air Quality Impacts</u>		
Emissions of Particulate Matter (PM) and PM Precursors	4	Use of manure harvesting and/or water sprinkling will mitigate particulate matter emissions from animal activity on open lot surfaces. The primary purpose of this standard is to mitigate particulate matter emissions.
Emissions of Ozone Precursors	0	Not Applicable
Emissions of Greenhouse Gases (GHGs)	0	Not Applicable
Objectionable Odors	1	If more frequent manure removal is applied, there will be less potential for odors to arise from biological breakdown of manure in the open lot.
