Compliance Measurement Summary

Facilities Inspected	37		
Inspection Period	04/01/15	To	03/31/16
Compliance Percentage	95 %	Release Prevention & Detection	

Tank, facility, and onsite inspection information is based on regulations under Subtitle I in 40 CFR 280.12 except for tanks identified in 40 CFR 280.10(b) and 280.10(c). USTs used for emergency power generation have been excluded from the compliance measurement summary table in this public record. Onsite inspections measure compliance with Federal SOC requirements.

UST Releases Summary

Number of Confirmed Releases	0		
Release Reporting Dates	04/01/15	To	03/31/16
