SMALL ENTITY COMPLIANCE GUIDE

Dear Permit Holder:

This letter is to inform you that NOAA's National Marine Fisheries Service (NMFS) has adjusted the 2007 Winter II (November 1-December 31) commercial scup quota and possession limit.

The unused 2007 Winter I (January 1-April 30) commercial scup quota is: 644,155 lb
The current 2007 Winter II commercial scup quota is: 1,417,991 lb
The revised 2007 Winter II commercial scup quota is: 2,062,146 lb

The 2007 Winter II possession limit has been increased to **3,500 lb per trip**, consistent with the rollover specifications established in the final rule to implement the 2007 summer flounder, scup, and black sea bass quotas (71 FR 75134, December 14, 2006), in order to provide an appropriate opportunity for fishing vessels to obtain the increased Winter II quota. Note: In cases where state possession limits for scup differ from the Federal possession limit, federally permitted vessels are required to abide by the more restrictive state or Federal measure.

This action complies with Framework Adjustment 3 to the Summer Flounder, Scup, and Black Sea Bass Fishery Management Plan, which established a process to allow the rollover of unused commercial scup quota from the Winter I period to the Winter II period. The initial 2007 Winter I scup quota was 4,012,895 lb.

You may also receive permit holder letters, including closure notices, by e-mail by clicking on "Permit Holder Letters" on our website at <http://www.nero.noaa.gov>. This small entity compliance guide complies with Section 212 of the Small Business Regulatory Enforcement Fairness Act of 1996.

Sincerely,

Patricia A. Kurkul
Regional Administrator
