

Livestock & Poultry (L&P) Air Emissions Standardization Workshop

Hosted by:

USDA – Agricultural Air Quality Task Force

Location:

Environmental Protection Agency

Research Triangle Park, NC

September 27-28, 2010

L&P Subcommittee Members

- Gary Baise
- Robert Burns
- Paul Martin
- Wendy Powers
- Sally Shaver
- Bryan Shaw
- Doug Shelmidine
- Leon Weaver
- Eileen Wheeler
- Hongwei Xin
- Ben Weinheimer, Chr.

NRCS staff:

Greg Zwicke

Background Statement

Standardization of information collected/reported for livestock and poultry air emissions studies is needed.

Purpose

- **Engage:**
 - **Research, extension, industry, regulators & other interested persons**
- **Develop:**
 - **Guidance document or other document**

Purpose (Continued)

- **Outline/define:**
 - **Data collection, emissions estimating methodologies, & reporting procedures for air emissions & mitigation practices**
- **Provide input:**
 - **NAEMS project/all livestock & poultry air emissions research**

Principles of Standardization

- **Principle #1 – Recommended units for reporting emissions**
- **Principle #2 – Data collection**
- **Principle #3 – Methodologies & protocols**
- **Principle #4 – Consistency in reporting mitigation practices**

Principles #1 - #4

Workgroup Chairpersons

- **Principle #1/#2 – Dr. Eileen Wheeler**
- **Principle #3 – Dr. Hongwei Xin**
- **Principle #4 – Dr. Robert Burns**
