

UNITED STATES DEPARTMENT OF THE INTERIOR
BUREAU OF SAFETY AND ENVIRONMENTAL
ENFORCEMENT
GULF OF MEXICO REGION
FILE DESCRIPTION REPORT
ASCII Format

Coverage Name:

8322 Platform

Coverage type: point

Export Filenames: platform.data
platform.gen

For this geo dataset, two files are provided- 1) a coordinate file and 2) an attribute file. The coordinate file contains the longitude/latitude locations for the geo dataset. This file will have a .gen file extension. The attribute file consists of the attribute information for the geo dataset. This file will have a .data file extension. The id number that can be found in both files can be used to associate the records from the coordinate file with their corresponding attribute records in the attribute file.

.GEN file: for Platform

filename: platform.gen

Definitions:

ID_NUMBER- The **first** line for each point contains an id number that corresponds to the id on the platform.gen file.

STRUCTURE_NUMBER - The **second** line is a unique number assigned to a specific structure within a complex.

COMPLEX_ID_NUM - The **third** line is the unique identifier assigned to a single man-made structure or a group of structures connected by a walkway.

STRUCTURE_NAME - The **fourth** line is the name of the structure assigned by the owner.

INSTALL_DATE_1 - The **fifth** line is the platform installation date exported from an Arc/Info DATE data field.

REMOVAL_DATE_1 - The **sixth** line is the platform removal date exported from an Arc/Info DATE data field.

INSTALL_DATE_2 - The **seventh** line is the platform installation date exported from an Arc/Info character data field.

REMOVAL_DATE_2 - The **eighth** line is the platform removal date exported from an Arc/Info character data field

BLANK - The fifth line is a blankline representing
The end of the attributes

****Note: If installation date is null, the platform is proposed. If installation date is population, and removaldate is null, the platform is active. If removal data is populated, the platform is removed.**
