

Dr. Inês Azevedo

Co-Director of the Climate and Energy Decision Making Center
Carnegie Mellon University

Dr. Inês Azevedo is Associate Professor in the Department of Engineering and Public Policy at Carnegie Mellon University. She is co-PI and the co-Director for the Climate and Energy Decision Making Center. Her research interests lie at the intersection of behavioral and decision making, environmental, technical, and economic issues, such as how to address the challenge of climate change and move towards a more sustainable energy system. Dr. Azevedo addresses complex problems in which traditional engineering plays an important role but cannot provide a complete answer. She has participated in several reports from the National Research Council from the National Academy of Sciences. She has published more than 200 peer-reviewed papers, presentations, and articles on energy issues, and was selected by the World Economic Forum as one of the “40 Young Scientists Under 40” in 2014.
