

## Catherine Dunwoody

Chief, Fuel Cell Program  
California Air Resources Board

Prior to her 2014 appointment as the Chief of the Fuel Cell Program at the California Air Resources Board, Ms. Catherine Dunwoody was the Executive Director of the California Fuel Cell Partnership (CaFCP), since 1999 when it was announced as a fuel cell vehicle demonstration program. Today the CaFCP is globally recognized as a leader in promoting hydrogen fuel cell vehicle commercialization. Catherine led the CaFCP's team of industry and government members in their collaborative planning, technical, and outreach activities. Ms. Dunwoody started her career at the California Air Resources Board in the mid-1980s as a laboratory chemist, then managing teams responsible for stationary source testing and implementing clean vehicle regulations. In 2011, Automotive News named Catherine as one of the "Electrifying 100" most influential players in the move to electric drive vehicles.
