

U.S. DEPARTMENT OF ENERGY

## LOAN PROGRAMS OFFICE

INVESTING *in* AMERICAN ENERGY

### Catalyzing the Next Generation of Nuclear Energy Technology

Today, the U.S. Department of Energy has announced a significant step to help meet America's future low-carbon emission goals with the release of a [draft \\$12.6 billion loan guarantee solicitation for Advanced Nuclear Energy Projects](#). To learn more, check out Executive Director Peter Davidson's most recent [blog post](#).

Once the solicitation is finalized, the Department's [Loan Programs Office \(LPO\)](#) will be accepting applications in four innovative technology areas, including the \$8 billion Advanced Fossil Energy Projects Solicitation, the \$4 billion Renewable Energy and Efficient Energy Projects Solicitation and the \$16 billion Advanced Technology Vehicles Manufacturing (ATVM) loan program.

Information on each solicitation can be found by visiting the LPO website at:

<http://energy.gov/lpo/services/solicitations>

The U.S. Department of Energy's Loan Programs Office (LPO) is now offering a periodic newsletter with updates and information on financing opportunities, LPO project and portfolio news, and more.

LPO facilitates the accelerated deployment of innovative clean energy projects and advanced vehicle manufacturing in the United States. For more information about LPO, please visit our new website: [energy.gov/lpo](http://energy.gov/lpo)
