To: Tiffany Vanosdall, PMP
Senior Plan Formulate/Project Manager
U.S. Army Corps of Engineers

Re: No New Dams - Protect the Pallid Sturgeon!

Dear U.S. Army Corps of Engineers and Bureau of Reclamation,

On November 2, 2016, Defenders of Wildlife asked our online community to write in support of protecting the endangered pallid sturgeon by removing Intake Dam from the Yellowstone River. Since then, we have collected 23,230 signatures. Enclosed is a CD containing the names of all the signers. The petition reads as follows:

As a Defender of Wildlife, I strongly oppose the action proposed in the Final Environmental Impact Statement (EIS) for the Lower Yellowstone Intake Diversion Dam Fish Passage Project. Approximately 125 wild pallid sturgeon remain in the upper Missouri and Yellowstone rivers, and sadly none of these critically endangered fish have successfully reproduced in the Yellowstone River in decades because Intake Dam is preventing them from reaching spawning areas with expanses of free-flowing river necessary for young sturgeon to survive. These wild fish will go extinct in the next few years unless the dam is removed altogether.

Multiple scientific reviews have cast doubt on whether the fish bypass proposed in the EIS will work at all, and the U.S. Army Corps of Engineers and the Bureau of Reclamation have produced no analysis that suggests that the endangered pallid sturgeon will use this structure in numbers that will result in improvements to sturgeon breeding. In fact, analysis from both the Corps and the Bureau show that the best action for the endangered pallid sturgeon would be to remove the outdated Intake Dam, open the river and allow full river passage.

The pallid sturgeon needs all the help it can get. Please reject your proposed action and instead adopt an alternative that removes the dam, provides pumps or other means to get irrigators water and gives the pallid sturgeon a fighting chance. Spending taxpayer dollars on an alternative that won't work will cost more money in the future - do this right the first time.

Thank you for your consideration.

Sincerely,
Defenders of Wildlife
