Experience:

**Feb 2012 to Present** –ACT Safe, LLC - CEO

After years of preparation, I and a handful of other EHS Directors, Compliance Officers and experts in their field of Safety decided to start a business. Our team of professional consultants has over 5,000 years combined experience in various businesses and industries allowing us the ability to afford you ~ real answers ~ real solutions ~ in real time. As your compliance partner we will develop a compliance package to focus on the areas of highest importance. We believe that effective management of Environmental, Health and Safety exposures are essential to business survival today. As your partner in this effort, ACT will help you develop controls that make the exposures manageable.
